Studying The Hurt Locker Terence McSweeney,2019-07-02 In this vibrant and dynamic book-length study drawing on a broad tapestry of research, Terence McSweeney offers an exploration of *The Hurt Locker* (2009), its stylistic and narrative devices, its cultural impact, its reception, and its relationship to the genre of the war film. McSweeney places the film in a richly textured historical, political, and industrial context, arguing that *The Hurt Locker* is part of a long tradition of films about American wars that play a considerable role in how audiences come to understand the conflicts that they depict. Thus, films about a nation's wars are never "only a movie" but rather should be considered a cultural battleground themselves on which a war of representation is waged.

The Hurt Locker Mark Boal,Kathryn Bigelow,2013-08-13 One of the most critically acclaimed war films in recent memory, *The Hurt Locker* is a riveting, extraordinary tale of courage and survival on the Baghdad bomb squad, directed by Kathryn Bigelow, from a script by Mark Boal, who researched the material by traveling to the war in Iraq. Boal's screenplay follows the layered, complex relationship between three soldiers who are thrown together in the crucible of combat—with only 38 days left in their tour. Starring Jeremy Renner, Anthony Mackie, Brian Geraghty, and Evangeline Lilly, with Guy Pearce, Ralph Fiennes, and David Morse. This Newmarket Shooting Script® Book includes: Exclusive Introduction by Kathryn Bigelow Complete shooting script 16-page color insert with 23 color photos Production Notes Storyboards Complete cast and crew credits

The American Civil War and the Hollywood War Film John Trafton,2016-04-29 Throughout film history, war films have been in constant dialogue with both previous depictions of war and contemporary debates and technology. War films remember older war film cycles and draw upon the resources of the present day to say something new about the nature of war. The American Civil War was viscerally documented through large-scale panorama paintings, still photography, and soldier testimonials, leaving behind representational principles that would later inform the development of the war film genre from the silent era up to the present. This book explores how each of these representational modes cemented different formulas for providing war stories with emotional content.

100 Great War Movies Robert J. Niemi,2018-04-04 This book serves as a fascinating guide to 100 war films from 1930 to the present. Readers interested in war movies will learn surprising anecdotes about these films and will have all their questions about the films' historical accuracy answered. This cinematic guide to war movies spans 800 years in its analysis of films from those set in the 13th century Scottish Wars of Independence (*Braveheart*) to those taking place during the 21st-century war in Afghanistan (*Lone Survivor*). World War II has produced the largest number of war movies and continues to spawn recently released films such as *Dunkirk*. This book explores those, but also examines films set during such conflicts as the Napoleonic Wars, the American Civil War, World War I, the Vietnam War, and the wars in Afghanistan and Iraq. The book is organized alphabetically by film title, making it easy to navigate. Each entry is divided into five sections: Background (a brief discussion of the film's genesis and financing); Production (information about how, where, and when the film was shot); Synopsis (a detailed plot summary); Reception (how the film did in terms of box office, awards, and reviews) and Reel History vs. Real History (a brief analysis of the film's historical accuracy). This book is ideal for readers looking to get a vivid behind-the-scenes look at the greatest war movies ever made.

Locker Rooms Patty Lesser,2013-12-04 Like most people, Alida has contemplated one of life's biggest mysteries: What happens to your soul when you die? What if it is stolen by a cruel demon, and your eternity's resting place becomes an empty locker in a secret cavern? What if the biblical hell was a real place, where real people suffered unspeakably?It is real, and it is a horrifying place, where the souls of good people are imprisoned with no hope for escape or rescue ... until Alida appears. Putting her life in jeopardy, Alida battles a wicked demon and even the true devil to win the right to free the souls and return them to their own graves, where they can rest in peace.*Locker Rooms* is a story of love and hate, friends and enemies, religion and history, and the eternal battle between good and evil. It tells the story of a lost woman who changes her life when she saves the souls of good people being imprisoned in lockers by a demon for his own narcissistic pleasure. What she experiences in the process will change her life forever.

A Thousand Cuts Dennis Bartok,Jeff Joseph,2016-08-25 *A Thousand Cuts* is a candid exploration of one of America's strangest and most quickly vanishing subcultures. It is about the death of physical film in the digital era and about a paranoid, secretive, eccentric, and sometimes obsessive group of film-mad collectors who made movies and their projection a private religion in the time before DVDs and Blu-rays. The book includes the stories of film historian/critic Leonard Maltin, TCM host Robert Osborne discussing Rock Hudson's secret 1970s film vault, *RoboCop* producer Jon Davison dropping acid and screening *King Kong* with Jefferson Airplane at the Fillmore East, and Academy Award-winning film historian Kevin Brownlow recounting his decades-long quest to restore the 1927 *Napoleon*. Other lesser-known but equally fascinating subjects include one-legged former Broadway dancer Tony Turano, who lives in a Norma Desmond-like world of decaying movie memories, and notorious film pirate Al Beardsley, one of the men responsible for putting O. J. Simpson behind bars. Authors Dennis Bartok and Jeff Joseph examine one of the least-known episodes in modern legal history: the FBI's and Justice Department's campaign to harass, intimidate, and arrest film dealers and collectors in the early 1970s. Many of those

persecuted were gay men. Victims included Planet of the Apes star Roddy McDowall, who was arrested in 1974 for film collecting and forced to name names of fellow collectors, including Rock Hudson and Mel Tormé. A Thousand Cuts explores the obsessions of the colorful individuals who created their own screening rooms, spent vast sums, negotiated underground networks, and even risked legal jeopardy to pursue their passion for real, physical film.

American Cinema of the 2000s Timothy Corrigan, 2012-04-15 The decade from 2000 to 2009 is framed, at one end, by the traumatic catastrophe of the 9/11 attacks on the World Trade Center and, at the other, by the election of the first African American president of the United States. In between, the United States and the world witnessed the rapid expansion of new media and the Internet, such natural disasters as Hurricane Katrina, political uprisings around the world, and a massive meltdown of world economies. Amid these crises and revolutions, American films responded in multiple ways, sometimes directly reflecting these turbulent times, and sometimes indirectly couching history in traditional genres and stories. In American Cinema of the 2000s, essays from ten top film scholars examine such popular series as the groundbreaking Matrix films and the gripping adventures of former CIA covert operative Jason Bourne; new, offbeat films like Juno; and the resurgence of documentaries like Michael Moore's Fahrenheit 9/11. Each essay demonstrates the complex ways in which American culture and American cinema are bound together in subtle and challenging ways.

The Hell of War Comes Home Owen W. Gilman, 2018-02-09 Owen W. Gilman Jr. stresses the US experience of war in the twenty-first century and argues that wherever and whenever there is war, there will be imaginative responses to it, especially the recent wars in Afghanistan and Iraq. Since the trauma of September 11, the experience of Americans at war has been rendered honestly and fully in a wide range of texts--creative nonfiction and journalism, film, poetry, and fiction. These responses, Gilman contends, have packed a lot of power and measure up even to World War II's literature and film. Like few other books, Gilman's volume studies these new texts--among them Kevin Powers's debut novel The Yellow Birds and Phil Klay's short stories Redeployment, along with the films The Hurt Locker, American Sniper, and Billy

Lynn's Long Halftime Walk. For perspective, Gilman also looks at some touchstones from the Vietnam War. Compared to a few of the big Vietnam books and films, this new material has mostly been read and watched by small audiences and generated less discussion. Gilman exposes the circumstances in American culture currently preventing literature and film of our recent wars from making a significant impact. He contends that Americans inclination to demand distraction limits learning from these compelling responses to war in the past decade. According to Gilman, where there should be clarity and depth of knowledge, we instead face misunderstanding and the anguish endured by veterans betrayed by war and our lack of understanding.

Film Makers Lyn Miller-Lachmann, Tanisia Moore, 2022-09-06 In Hollywood, women don't have to be in front of the camera to shine. Each of the 15 women profiled in Film Makers shares a common trait: she is, as Shonda Rhimes says, First. Only. Different. These phenomenal women have redefined the film and television industry, winning awards historically given to a male counterpart, being the only woman in a writers' room, or portraying stories no one else could tell. While their resumes are impressive, it is how they live their lives that has made a greater impact in the communities they serve. Many of them, like Gina Prince-Bythewood and Greta Gerwig, mentor other women. Some, like Agnieszka Holland and Chloé Zhao, have stood up to those who seek to ignore or silence them. All of them tell their stories with passion and integrity, serving as role models and champions for future generations. We hope they will inspire you to use the tools of film to tell your story!

The Mind-Game Film Thomas Elsaesser, 2021-03-28 This book represents the culmination of Thomas Elsaesser's intense and passionate thinking about the Hollywood mind-game film from the previous two decades. In order to answer what the mind-game film is, why they exist, and how they function, Elsaesser maps the industrial-institutional challenges and constraints facing Hollywood, and the broader philosophic horizon within which American cinema thrives today. He demonstrates how the 'Persistence of Hollywood' continues as it has adapted to include new twists and turns, as well as revisions of past concerns, as film moves through the 21st century. Through examples such as Minority Report, Mulholland Drive, Source Code, and Back to the Future, Elsaesser explores how mind-game films challenge us and play games with our perception of reality, creating skepticism and (self-) doubt. He also highlights the mind-game film's tendency to intervene in a complex fashion in the political moment by questioning the dominant power's intent to program both body and mind alike. Prescient and compelling, The Mind-Game Film will appeal to students, scholars, and enthusiasts of media studies, film studies, philosophy, and politics.

The Ensign Locker John Zerr, 2010-09-28 In 1966, the destroyer USS Manfred is bound for Vietnam. For junior ensign Jon Zachery, life is simple. He wants the American dream for his wife and for himself, and the navy is just the first step along the way. After the ship enters the combat zone, however, Zachery lands in hot water with his superior officers. At the same time, he begins to have troubles with his wife. He finds himself in challenging combat situations with the North Vietnamese and Viet Cong, but he is most distressed when he discovers that one of his roommates is rabidly anti-war. Following two months in the combat zone, the ship gets a new commanding officer and a new set of problems face Zachery and his shipmates. At first, his new commanding officer distrusts only the five ensigns in the ensign locker, but eventually he begins to distrust the entire wardroom. What happens next has a huge affect on the entire crew ultimately resulting in the ship returning home to San Diego. Now Zachery must face the anti-war sentiments at home, and it may be the last straw for him.

Securing Digital Video Eric Diehl, 2012-06-26 Content protection and digital rights management (DRM) are fields that receive a lot of attention: content owners require systems that protect and maximize their revenues; consumers want backwards compatibility, while they fear that content owners will spy on their viewing habits; and academics are afraid that DRM may be a barrier to knowledge sharing. DRM technologies have a poor reputation and are not yet trusted. This book describes the key aspects of content protection and DRM systems, the objective being to demystify the technology and techniques. In the first part of the book, the author builds the foundations, with sections that cover the rationale for protecting digital video content; video piracy; current toolboxes that employ cryptography, watermarking, tamper resistance, and rights expression languages; different ways to model video content protection; and DRM. In the second part, he describes the main existing deployed solutions, including video ecosystems; how video is protected in broadcasting; descriptions of DRM systems, such as Microsoft's DRM and Apple's FairPlay; techniques for protecting prerecorded content distributed using DVDs or Blu-ray; and future methods used to protect content within the home network. The final part of the book looks towards future research topics, and the key problem of interoperability. While the book focuses on protecting video content, the DRM principles and technologies described are also used to protect many other types of content, such as ebooks, documents and games. The book will be of value to industrial researchers and engineers developing related technologies, academics and students in information security, cryptography and media systems, and engaged consumers.
