Cultures of Computer Game Concerns Estrid Sörensen,2018-05-31 The same computer games are played by youths all over the world, and worldwide games become matters of concern in relation to children: worries rise about addiction, violence, education, time, and economy. Yet, these concerns vary depending upon where they are situated: in families, legal contexts, industry or science. They also play out differently across countries and cultures. This situated nature of computer game concerns is generally neglected. Not in this book: It gives a detailed mosaic of the complex and multiple everyday realities of computer game concerns in relation to children, as they are variably situated throughout society and across cultures.

A New Way of Looking at Movie Stars Susan Marg,2023-01-12 Can you name ten actors who played women or ten actresses who played prostitutes in the movies? What about anyone who gained weight or got into shape for a movie role? And, there are those who fell in love on a movie set, performed together, and were paid big bucks for a divorce. The answers are in this book, although you might have a preference for someone I didn't recognize. You might even learn something new about the movies or your favorite stars. Did you know that television's Police Squad! ran for only six episodes, but it led to three movies. Do you remember when Paul Newman played himself on The Simpsons? The idea for the book was based on a childhood pastime similar to hopscotch, but without the hopping or standing on one leg. This book is sure to bring hours of entertainment. There are over 1000 entries, organized into ten chapters with ten sections each. Sit down, keep reading, and enjoy!

Helpful Hackers Chris van 't Hof,2016-02-16 'Hospital leaks patient records', 'Public transport smartcard has more holes than a sieve', 'Mobile banking app unsafe' – it seems that everything can be hacked these days. Fortunately, the person who discovers a flaw is not necessarily a cybercriminal but is often someone who wants to help improve cyber security. He or she immediately contacts the system owner so that the problem can be solved. A well-coordinated approach allows everyone to learn from the exercise we call 'responsible disclosure'. The Netherlands is a world leader in responsible disclosure. The Dutch like to resolve conflicts through a process of general consultation: the famous 'polder model'. This seems a particularly appropriate approach in the realm of IT and cyber security, since there is no central authority with overall responsibility but many diverse players, each responsible for their own tiny part of a vast and complex system. In this book, we hear from the hackers, system owners, IT specialists, managers, journalists, politicians and lawyers who have been key players in a number of prominent disclosures. Their stories offer a glimpse into the mysterious world of cyber security, revealing how hackers can help us all. www.helpfulhackers.nl Chris van 't Hof is an internet researcher and presenter with a background in sociology and electrical engineering. This is his eighth book. While a researcher at the Rathenau Institute, he authored a number of titles including Check in / Check out: the Public Space as an Internet of Things and RFID and Identity Management in Everyday Life. With his company Tek Tok, he now organizes various information technology events. Chris van 't Hof also has his own talkshow, Tek Tok Late Night. www.tektok.nl

Star Planet Faye Iris Johnson-Lenden,2013-12-05 When I approached the Golden Egg and I was about 5 feet from the egg I was told to stop, and stand still. Looking around me I was surprised to see, all the other Dragons had made a circle around me, at a distance of about 30 feet away from where I stood. I looked at the Golden Egg that was in soft warm sand, in front of me. Then I could see that it

was gently rocking from side to side, and then I noted that tiny cracks appeared, they gradually got bigger as the Golden Egg continued to rock. I heard a tapping sound coming from the Golden Egg, there was no other sound in the warm still air, I could hear my heart beating in my breast, I thought that it sounded quite loud to me and I hope that I was the only one who could hear my heart beating. I then realized that my heart beat and the tapping sound that came from the Golden egg were the same rhythm. With breathless anticipation I watched the Golden Egg's cracks become a small hole at first, and then much bigger, soon a tiny Golden Dragon was nearly fully exposed. With one final push a Beautiful Golden Little Dragon cast her eyes on me. She looked intently at me for what seemed to be a life time, but it was really only one minute, she took her first step then the second towards me on wobbly legs. Step by shaky unsteady step this little baby dragon came to me, when she was close to me she lifted her Golden head and glared at me intently, with her big brown eyes. Pleading for me to accept her, and to pat her on her Golden Head. I looked at her and my heart melted; I knew that I would love her and protect her until my life ended. I stroked her head very gently then I held her close to me in a gentle hug as a mother would her new born child.

Rock Star/Movie Star Landon Palmer, 2020-06-30 During the mid-1950s, when Hollywood found itself struggling to compete within an expanding entertainment media landscape, certain producers and studios saw an opportunity in making films that showcased performances by rock 'n' roll stars. Rock stars eventually found cinema to be a useful space to extend their creative practices, and the motion picture and recording industries increasingly saw cinematic rock stardom as a profitable means to connect multiple media properties. Indeed, casting rock stars for film provided a tool for bridging new relationships across media industries and practices. From Elvis Presley to Madonna, this book examines the casting rock stars in films. In so doing, *Rock Star/Movie Star* offers a new perspective

on the role of stardom within the convergence of media industries. While hardly the first popular music culture to see its stars making the transition to screen, the timing of rock's emergence and its staying power within popular culture proved fortuitous for a motion picture business searching for its place in the face of continuous technological and cultural change. At the same time, a post-star-system film industry provided a welcoming context for rock stars who have valued authenticity, creative autonomy, and personal expression. This book uses illuminating archival resources to demonstrate how rock stars have often proven themselves to be prominent film workers exploring this terrain of platforms old and new - ideal media laborers whose power lies in the fact that they are rarely recognized as such. Combining star studies with media industry studies, this book proposes an integrated methodology for writing media history that combines the actions of individuals and the practices of industries. It demonstrates how stars have operated as both the gravitational center of media production as well as social actors who have taken on a decisive role in the purposes to which their images are used.

Movie Stars Do the Dumbest Things Margaret Moser, 2011-04-01 Johnny Depp. Marilyn Monroe. Marlon Brando. Leonardo DiCaprio. Woody Allen. Sharon Stone. What do all of these actors have in common? They're outrageous, receive huge salaries, have enormous egos, and have way too much spare time. Their out-of-control lifestyles prove that, as one Hollywood observer noted, Hollywood is a trip through a sewer in a glass-bottomed boat. You'll learn which director was furious when he was misquoted as saying, Actors are cattle. He claimed he had really said, Actors should be treated as cattle. You'll discover that Bruce Willis ordered the final scenes in *Striking Distance* to be re-shot at a cost of over \$750,000 because the original shots exposed his toupee. You'll find that Melanie Griffith explained her ignorance of the Nazi holocaust by saying, I don't know why I didn't know. Maybe I missed school that day...I'm not stupid. Whether you're a fan of Hugh Grant, Dennis Hopper, or Whoopi Goldberg, you'll learn about all of the embarrassing moments in your favorite star's life. From actors like Ben Affleck and Cameron Diaz to screen legends like Frank Sinatra and Judy Garland, *Movie Stars Do the Dumbest Things* is proof that actors are more childish and impulsive than you've ever imagined.
