From Movie City to Music City, USA Randall Rutledge, 2008-12 If you're interested in working in movies or making music and you were not privileged to be born the son or daughter of an already established named actor, writer, or musician that can open the door for you, then this book is your guide. Should you decide to take that leap from the normal to what everyone else considers the abnormal career choice the advice in this book can not only save you months and years of getting that first background artist job, but can also save you hundreds and thousands of dollars that you do not need to spend in pursuit of the entertainment industry as a career. Consider this book a basic training manual, a no punches pulled guide to the obstacles that you are guaranteed to face while pursuing entertainment as the industry of your choice. The main focus of this book is to educate those that wish to pursue show business regardless of one's area of interest within the performing arts, whether one wants to be an actor, or writer, producer or director, songwriter or recording artist. They all have one ugly thing in common and that is the con-artist. They will promise you the world just to empty the contents of your wallet and bank account. They will prey upon your dreams so that their gain is your nightmare. Let this book be your shield for those that will use unscrupulous and unethical tactics against you. While pursuing the entertainment industry as a career, you will also be confronted with more obstacles, walls, and closed doors, that will be just as disappointing as getting ripped off. One thing you will find is that if you can't handle rejection and do not have thick skin then the entertainment industry definitely isn't for you. However if you can keep getting back on that horse no matter how many times it throws you then this book will help you keep dusting yourself off and staying in the saddle. Consider me as your wagon master guiding you through dangerous territory, with all of its unpleasantness and uncertainties, although I can't guarantee the success of your journey through show business, as can no one, I can at least point you in the right direction so you won't be lured off the beaten path by the bandits that hide and wait for you. There will be those that will tell you that you will not succeed, but in my opinion if your only goal is to work in movies and you only work as a movie extra then you have succeeded, as success itself has many levels and one has to start somewhere. Trust me some of today's big names were also once told, go home you'll never make it and now they have a net worth of over \$600,000,000.00. You may never become the \$600,000,000.00 man or woman but no matter, follow your heart do what you love and love what you do.

**Image, Imagination and Imaginarium** Lu Pan, 2021-01-02 This book explores five cases of monument and public commemorative space related to World War II (WWII) in contemporary China (Mainland), Hong Kong and Taiwan, all of which were built either prior to or right after the end of the War and their physical existence still remains. Through the study on the monuments, the project illustrates past and ongoing controversies and contestations over Chinese nation, sovereignty, modernism and identity. Despite their historical affinities, the three societies in question, namely, Mainland China, Hong Kong and Taiwan, vary in their own ways of telling, remembering and forgetting WWII. These divergences are not only rooted in their different political circumstances and social experiences, but also in their current competitions, confrontations and integrations. This book will be of great interest to historians, sinologists and analysts of new Asian nationalism.

With a combination of chapters specifically examining history, theory, method and practice, it offers a clear structure and systematic approach for the study of film festivals. Offering a collection of essays written by an international range of established scholars, it discusses well-known film festivals in Europe, North America and Asia, but equally devotes attention to the diverse range of smaller and/or specialized events that take place around the globe. It provides essential knowledge on the origin and development of film festivals, discusses the use of theory to study festivals, explores the methods of ethnographic and archival research, and looks closely at the professional practice of programming and film funding. Each section, moreover, is introduced by the editors, and all chapters include useful suggestions for further reading. This will be an essential textbook for students studying film festivals as part of their film, media and cultural studies courses, as well as a strong research tool for scholars that wish to familiarize themselves with this burgeoning field.

Contemporary Latina/o Media Arlene M. Dávila,Yeidy M. Rivero,2014 The cultural politics creating and consuming Latina/o mass media. Just ten years ago, discussions of Latina/o media could be safely reduced to a handful of TV channels, dominated by Univision and Telemundo. Today, dramatic changes in the global political economy have resulted in an unprecedented rise in major new media ventures for Latinos as everyone seems to want a piece of the Latina/o media market. While current scholarship on Latina/o media have mostly revolved around important issues of representation and stereotypes, this approach does not provide the entire story. In *Contemporary Latina/o Media*, Arlene Dávila and Yeidy M. Rivero bring together an impressive range of leading scholars to move beyond analyses of media representations, going behind the scenes to explore issues of production, circulation, consumption, and political economy that affect Latina/o mass media. Working across the disciplines of Latina/o media, cultural studies, and communication, the contributors examine how Latinos are being affected both by the continued Latin Americanization of genres, products, and audiences, as well as by the whitewashing of mainstream Hollywood media where Latinos have been consistently bypassed. While focusing on Spanish-language television and radio, the essays also touch on the state of Latinos in prime-time television and in digital and alternative media. Using a transnational approach, the volume as a whole explores the ownership, importation, and circulation of talent and content from Latin America, placing the dynamics of the global political economy and cultural politics in the foreground of contemporary analysis of Latina/o media.

*A MURDER OF CROWS* CHARLES E. CROCKETT,2012-07-18 BACK COVER: Detailing the far-right's attempts to alter the American political and economic landscape to satisfy its national ambitions, *A MURDER OF CROWS* identifies over 100 people and organizations who would seek to turn back America to a time of little governmental participation, lower tax rates for the wealthy, and a closely held corporate and personal control of society's functions and finances. It exposes the real desires and naked zeal of those who would place property rights over the rights and the needs of the average American citizen. The text is well documented and provides a scathing indictment of those on the right who would wish to alter America's future to serve only a very prosperous few.
