AI for Peace Branka Panic, Paige Arthur, 2024-04-19

The role of artificial intelligence in war is widely recognized, but is there also a role for AI in fostering peace and preventing conflict? AI for Peace provides a new perspective on AI as a potential force for good in conflict-affected countries through its uses for early warning, combating hate speech, human rights investigations, and analyzing the effects of climate change on conflict. This book acts as an essential primer for introducing people working on peacebuilding and conflict prevention to the latest advancements in emerging AI technologies and will act as guide for ethical future practice. This book also aims to inspire data scientists to engage in the peacebuilding and prevention fields and to better understand the challenges of applying data science in conflict and fragile settings.

Global Digital Cultures Aswin Punathambekar, Sriram Mohan, 2019-06-06 Digital media histories are part of a global network, and South Asia is a key nexus in shaping the trajectory of digital media in the twenty-first century. Digital platforms like Facebook, WhatsApp, and others are deeply embedded in the daily lives of millions of people around the world, shaping how people engage with others as kin, as citizens, and as consumers. Moving away from Anglo-American and strictly national frameworks, the essays in this book explore the intersections of local, national, regional, and global forces that shape contemporary digital culture(s) in regions like South Asia: the rise of digital and mobile media technologies, the ongoing transformation of established media industries, and emergent forms of digital media practice and use that are reconfiguring sociocultural, political, and economic terrains across the Indian subcontinent. From massive state-driven digital identity projects and YouTube censorship to Tinder

and dating culture, from Twitter and primetime television to Facebook and political rumors, *Global Digital Cultures* focuses on enduring concerns of representation, identity, and power while grappling with algorithmic curation and data-driven processes of production, circulation, and consumption.

Chasing the Dragon Christopher R. Cox, 2014-05-13

Chasing the Dragon is the story of a Boston Herald reporter's journey into Burma/Myanmar to interview the mysterious drug lord, Khun Sa. The features desk of an American newspaper may seem an unlikely launchpad for a journey into one of the world's most remote and dangerous regions, but for journalist Christopher Cox, it was where the story began. It would end nearly three years later in the almost inaccessible mountain fastnesses of Shan State, Burma, as Cox brought off a journalistic coup even hard-bitten foreign correspondents might envy: a rare personal audience with General Khun Sa, the man U.S. law enforcement dubbed The Prince of Death, the man thought to control a third of the world's supply of heroin.

Accompanied by an obsessed Vietnam vet who had given up everything in his single-minded search for American POWs left behind in Southeast Asia and an eccentric expat with close personal ties to the general, Cox was going to cross forbidden borders to enter a region long off-limits to Westerners. And armed with little more than a backpack stuffed with vodka, porno tapes, and cigarettes, he was going to succeed. His journey would take him deep into the Golden Triangle, a shadowy zone of banditry, drug smuggling, and the ghost armies of past wars. He would begin in the red-light district of Bangkok, with its sex bars and soaring HIV rates, then head up into northern

borderlands newly discovers by package-tour groups, and finally cross a jungled no-man's-land into the world of the Shan, where tough tribesmen trade opium and precious gemstones for the arms they need to fight the Burmese.

Dog Days Ivan Franceschini, Nicholas

Loubere, 2019-04-05 According to the Chinese zodiac, 2018 was the year of the 'earthly dog'. In the middle of the long, hot, and feverish dog days of the summer of 2018, some workers at Shenzhen Jasic Technology took their chances and attempted to form an independent union. While this action was met by the harshest repression, it also led to extraordinary demonstrations of solidarity from small groups of radical students from all over the country, which in turn were immediately and severely suppressed. China's year of the dog was also imbued with the spirit of another canine, Cerberus—the three-headed hound of Hades—with the ravenous advance of the surveillance state and the increasing securitisation of Chinese society, starting from the northwestern region of Xinjiang. This Yearbook traces these latest developments in Chinese society through a collection of 50 original essays on labour, civil society, and human rights in China and beyond, penned by leading scholars and practitioners from around the world.

Land of a Thousand Eyes Peter Olszewski, 2005-01-01 A trio of colourfully dressed women tottered and teetered delicately through the water, holding hands, laughing. They were jewels in a sea of shit, standing out against the muddied monochrome of the monsoon's detritus, and they represented the admirable qualities of the Myanmar that I had come to love: the ability not only to make do, but to giggle and pursue life with joie de vivre, despite the deprivations dished out by the elements or by the military masters.' As a former rock magazine editor, editor of Australian Playboy, creator of Nation Review's cult hero JJ

McRoach, official Australian minder' to Dr Hunter S Thompson and leader of the Australian Marijuana Party, Peter Olszewski has lived an interesting and varied life. But all this seemed ordinary compared to the year or so he spent in Yangon training journalists for the main English-language newspaper, the Myanmar Times. Myanmar is a country known mostly for its repressive military regime, so the exciting and vivid world he found there was not the one he expected. He fell in love with the country, the people and one woman in particular. Land of a Thousand Eyes is a rare glimpse into one of the world's most secretive and isolated countries.

Myanmar Nehginpao Kipgen, 2016 Myanmar, since its independence from the British in 1948, has witnessed decades of military dictatorship, a plethora of ethnic and political problems, and an arduous struggle to political normalcy and democracy. Reinventing its place in international trade, diplomacy, and geo-strategy, Myanmar today presents a complex picture and how it engages with its own history plays an important part in this process of transformation. Myanmar: A Political History examines the politico-historical antecedents of contemporary Myanmar: from colonial rule to the establishment of its first civilian government; the subsequent fall into military dictatorship; and the transition from an authoritarian regime to a democratic government. Kipgen weaves in its relations with the United States, Myanmar's political, economic, and military connect with China; India Myanmar relations in the context of India's Look East policy; and Myanmar's cooperation problems on human rights within the ASEAN. Lucid and well researched, this book is a valuable guide to those interested in the future of Myanmar as well as South and Southeast Asia, to understand the historical knowledge as to how different political actors played differing roles in

the country's transition across governments.

Trials in Burma Maurice Collis, 2015-05-21 This is an unpretentious book, but it brings out with unusual clearness the dilemma that faces every official in an empire like our own. George Orwell's *Trials in Burma* recounts Maurice Collis' experiences as a district magistrate in Rangoon in the late 1920s. The book recounts his gradual realisation that far from administering an impartial system of justice, he is expected to protect British interests. In a cool dispassionate

style, Collis describes how, by choosing integrity over career, he eventually loses his job. A brilliant, direct and extraordinarily vivid account of this troubled period...a masterly survey of the Burmese scene. Daily Mail

The Rohingyas Azeem Ibrahim, 2018 The Rohingya are a Muslim group who live in Rakhine state (formerly Arakan state) in western Myanmar (Burma), a majority Buddhist country. According to the United Nations, they are one of the most persecuted minorities in the world. They suffer routine discrimination at the hands of neighboring Buddhist Rakhine groups, but international human rights groups such as Human Rights Watch (HRW) have also accused Myanmar's authorities of being complicit in a campaign of ethnic cleansing against the Rohingya Muslims. The Rohingya face regular violence, arbitrary arrest and detention, extortion, and other abuses, a situation that has been particularly acute since 2012 in the wake of a serious wave of sectarian violence. Islam is practiced by around 4% of the population of Myanmar, and most Muslims also identify as Rohingya. Yet the authorities refuse to recognize this group as one of the 135 ethnic groups or 'national races' making up Myanmar's population. On this basis, Rohingya individuals are denied citizenship rights in the country of their birth, and face severe limitations on many aspects of an ordinary life, such as marriage or movement around the country. This expose of the attempt to erase the Rohingyas from the face of Myanmar is sure to gain widespread attention.

Typeset in the Future Dave Addey, 2018-12-11 A designer's deep dive into seven science fiction films, filled with "gloriously esoteric nerdery [and] observations as witty as they are keen" (Wired). In *Typeset in the Future*, blogger and designer Dave Addey invites sci-fi movie fans on a journey through seven genre-defining classics, discovering

how they create compelling visions of the future through typography and design. The book delves deep into 2001: A Space Odyssey, Star Trek: The Motion Picture, Alien, Blade Runner, Total Recall, WALL·E, and Moon, studying the design tricks and inspirations that make each film transcend mere celluloid and become a believable reality. These studies are illustrated by film stills, concept art, type specimens, and ephemera, plus original interviews with Mike Okuda (Star Trek), Paul Verhoeven (Total Recall), and Ralph Eggleston and Craig Foster (Pixar). Typeset in the Future is an obsessively geeky study of how classic sci-fi movies draw us in to their imagined worlds.

Outrage Bertil Lintner, 1990

Myanmar's Enemy Within Francis Wade, 2017-08-15 For decades Myanmar has been portrayed as a case of good citizen versus bad regime – men in jackboots maintaining a suffocating rule over a majority Buddhist population beholden to the ideals of non-violence and tolerance. But in recent years this narrative has been upended. In June 2012, violence between Buddhists and Muslims erupted in western Myanmar, pointing to a growing divide between

religious communities that before had received little attention from the outside world. Attacks on Muslims soon spread across the country, leaving hundreds dead, entire neighbourhoods turned to rubble, and tens of thousands of Muslims confined to internment camps. This violence, breaking out amid the passage to democracy, was spurred on by monks, pro-democracy activists and even politicians. In this gripping and deeply reported account, Francis Wade explores how the manipulation of identities by an anxious ruling elite has laid the foundations for mass violence, and how, in Myanmar's case, some of the most respected and articulate voices for democracy have turned on the Muslim population at a time when the majority of citizens are beginning to experience freedoms unseen for half a century.

Social Transformations in India, Myanmar, and Thailand: Volume I Chosein Yamahata, Donald M. Seekins, Makiko Takeda, 2021-01-02 "This book focuses on the different challenges and opportunities for social transformation in India, Myanmar and Thailand, by centering communities and individuals as the main drivers of change. In doing so, it includes discussions on a wide array of issues including women's empowerment and political participation, ethno-religious tensions, plurilingualism, education reform, community-based healthcare, climate change, disaster management, ecological systems, and vulnerability reduction. Two core foundations are introduced for ensuring broader transformations. The first is the academic diplomacy project – a framework for an engaged academic enquiry focusing on causative, curative, transformative, and promotive factors. The second is a community driven collective struggle that serves as a grassroots possibility to facilitate positive social transformation by using locally available resources and enabling the participation of the

resident population. As a whole, the book conveys the importance of a diversification of engagement at the grassroots level to strengthen the capacity of individuals as decisive stakeholders, where the process of social transformation makes communities more interconnected, interdependent, multicultural and vital in building an inclusive society."

Myanmar's 'Rohingya' Conflict Anthony Ware, Costas Laoutides, 2018-09-28 The plight of Myanmar's Rohingya Muslims has made international news in recent years. Reports of genocide, ethnic cleansing and crimes against humanity are commonplace. The Rohingyas have been denied citizenship and are widely discriminated against. Hundreds of thousands have been internally displaced by violence, or have sought refuge in neighbouring or friendly Muslim countries. This conflict has become a litmus test for change in this country in transition, and current assessments are far from positive. Whitewashing by the military, and a refusal by Aung San Suu Kyi's government to even use the name 'Rohingya', adds to international scepticism. Exploring this long-running tripartite conflict between the Rohingya, Rakhine and Burman ethnic groups, this book offers a new analysis of the complexities of the conflict: the fears and motivations driving it and the competition to control historical representations and collective memory. By questioning these competing narratives, offering detailed sociopolitical analysis and examining the international dimensions of the conflict, this book offers new insights into what is preventing a peaceful resolution to this intractable conflict.

Robinette, 2020-03-05 Myanmar Gold introduces you to the incredible indigenous church leader, Naing Thang, through the first-hand account of an American experiencing, for the first time, a dangerous third-world country and a large field of persecuted Christian brothers and sisters in deep poverty. The story-teller, an award-winning journalist who is now a thirty-two-year veteran pastor, has lived a life just about as interesting as the stories he has discovered. The eye-opening experiences and observations he relays in this account have a unique way of giving the reader the feeling that they are on their own mission trip of sorts as he shares his doubts, fears, and surprises, as well as inspiration drawn from the people he meets and the things they tell him about their lives. Having been in the news business years earlier, he applies his skills of investigation and interview during several more trips to Myanmar over a five-year period, digging out verifiable narratives to bring back home and to the presses for his first book. During this deep-dive investigation of a lifetime, the author travels where few foreigners have ever been, to remote jungle villages and ancient Asian cities, to the places where the stories happened. What he discovers there is even more wonderful than he had imagined. Be prepared to find some treasures of your own and have your

heart and mind changed forever. Buckle up for an adventure and prepare to discover some Myanmar Gold.
