**Dog Days** Ivan Franceschini, Nicholas Loubere, 2019-04-05 According to the Chinese zodiac, 2018 was the year of the 'earthly dog'. In the middle of the long, hot, and feverish dog days of the summer of 2018, some workers at Shenzhen Jasic Technology took their chances and attempted to form an independent union. While this action was met by the harshest repression, it also led to extraordinary demonstrations of solidarity from small groups of radical students from all over the country, which in turn were immediately and severely suppressed. China's year of the dog was also imbued with the spirit of another canine, Cerberus--the three-headed hound of Hades--with the ravenous advance of the surveillance state and the increasing securitisation of Chinese society, starting from the northwestern region of Xinjiang. This

Yearbook traces these latest developments in Chinese society through a collection of 50 original essays on labour, civil society, and human rights in China and beyond, penned by leading scholars and practitioners from around the world.

*Myanmar's Buddhist-Muslim Crisis* John Clifford Holt, 2019-09-30 Myanmar's Buddhist-Muslim Crisis is a probing search into the reasons and rationalizations behind the violence occurring in Myanmar, especially the oppressive military campaigns waged against Rohingya Muslims by the army in 2016 and 2017. Over more than three years John Holt traveled around Myanmar engaging in sustained conversations with prominent and articulate participants and observers. What emerges from his peregrinations is a series of compelling portraits revealing both deep insights and entrenched misunderstandings. To understand the conflict, Holt must first accurately capture the viewpoints of his different conversation partners, who include Buddhists and Muslims, men and women, monks and laypeople, activists and scholars. Conversations range widely over issues such as the rise of Buddhist nationalism; the sometimes enigmatic and unexpected positions taken by Aung San Suu Kyii; use of the controversial term "Rohingya"; the impact of state-sponsored propaganda on the Burmese public; resistance to narratives emanating from international media, the United Nations, and the international diplomatic community; the frustrations of local political leaders who have felt left out of the policy-making process in the Rakhine State; and the constructive hopes and efforts still being made by forward-looking activists in Yangon. Three main perspectives emerge from the voices he listens to, those of Arakanese Buddhists who are native to Rakhine (once called Arakan), where much of the conflict has taken place; Burmese Buddhists (or Barmars),

who make up the vast majority of Myanmar's population; and the Rohingya Muslims, whose tragic story has been widely disseminated by the international media. What surfaces in conversation after conversation among all three groups is a narrative of siege: all see themselves as the aggrieved party, and all recount a history of being under siege. John Holt gives voice to these different perspectives as an engaged and concerned participant, offering both a critical and empathetic account of Myanmar's tragic predicament. Readers follow the hopes and dismay of this seasoned scholar of Theravada Buddhism as he seeks his own understanding of the variously impassioned forces in play in this still unfolding drama.

Myanmar's Mountain and Maritime Borderscapes Oh Su-Ann, 2016-08-19 This edited volume adds to the literature on Myanmar and its borders by drawing attention to the significance of geography, history, politics and society in the construction of the border regions and the country. First, it alerts us to the fact that the border regions are situated in the mountainous and maritime domains of the country, highlighting the commonalities that arise from shared geography. Second, the book foregrounds socio-spatio practices – economic, intimate, spiritual, virtual – of border and boundary-making in their local context. This demonstrates how state-defined notions of territory, borders and identity are enacted or challenged. Third, despite sharing common features, Myanmar's borderscapes also possess unique configurations of ethnic, political and economic attributes, producing social formations and figured worlds that are more cohesive or militant in some border areas than in others. Understanding and comparing these social practices and their corresponding life-worlds allows us to re-examine the connections from the borderlands back to the hinterland and to consider the

value of border and boundary studies in problematizing and conceptualizing recent changes in Myanmar. "This ambitious project combines sophisticated theorization of boundary-making as a form of social practice and empirical studies of Myanmar's heterogeneous borderlands, both land and sea. Seeing the country from its edges opens up a provocative and altogether novel vision of the contestations joining diverse peripheries and centre. This volume brings together the leading scholars of the country in a collection that is a must-have for anyone interested in contemporary Myanmar, border studies, and Southeast Asia." -- Itty Abraham, Head, Department of Southeast Asian Studies, National University of Singapore (NUS) "This is the first book to attempt to bring together such a diverse range of Myanmar's land and maritime border regions for comparison. In doing so, it highlights the diversity of the country's demographic, social, economic and political make-up when viewed from the margins rather than the centre. It reveals how these border regions help to constitute the nation and how they shape what modern Myanmar is today – they also give strong indicators of what it might become. This is an essential read for anyone in the social sciences interested in borderlands, as well as those requiring a broader understanding of the challenges facing the contemporary Myanmar government as it attempts to usher in social and political cohesion following decades of conflict." -- Mandy Sadan, Reader in the History of South East Asia, School of Oriental & African Studies (SOAS)

A History of Myanmar since Ancient Times Michael Aung-Thwin, Maitrii Aung-Thwin, 2013-10-15 In A History of Myanmar since Ancient Times, Michael Aung-Thwin and Maitrii Aung-Thwin take us from the sacred stupas of the plains of Pagan to grand, colonial-era British mansions, revealing the storied past and rich culture of this country. The book traces the traditions and

transformations of Myanmar's communities over nearly three millennia, from the relics of its Neolithic civilization to the splendors of its pre-colonial kingdoms, its encounters with British colonialism and the struggles for the republic that followed the end of World War II. The authors also consider the complexities of present-day life in Myanmar and examine the key political events and debates of the last twenty-five years that have brought the world's attention to the country. By exploring current developments within the broader patterns of Myanmar's history, culture and society, they provide a nuanced perspective on the issues and questions surrounding Myanmar's future. This updated edition considers the changes that have taken place since the elections of 2010, the reforms that the civilian government introduced, and the ramifications of the country's new international status. It also assesses the implications of the 2012 by-elections, the ensuing political dynamics among various stakeholders, and the continuing socio-economic challenges facing Myanmar in the twenty-first century. The most comprehensive history of Myanmar ever published in the English language, this book makes a significant contribution to our understanding of Southeast Asian history and will surprise, challenge, and inform in equal measure.

**7 Days in Myanmar**, 2014 Largely isolated from the world for more than four decades, Myanmar has made a remarkable return to the global stage following a political transformation that represents a watershed moment in the country's history. Now, for the first time ever, the rich culture, stunning landscapes and diverse peoples of the country are presented in a unique visual time capsule. Here is the new Myanmar as seen over a single week by a team of thirty famous photographers from eleven different countries. Their mission? To capture the life and spirit of Myanmar from every angle in every corner of

the country. Through the downtown streets of Yangon and the handicraft centres of Mandalay, above the temple-dotted plains of Bagan and on the waters of Inle Lake, inside border towns and hilltribe villages and all the way to the furthest reaches of the north and south. The portrait they created reveals a nation full of natural beauty, old-world charm, deep spirituality and new hope. Featuring essays that provide context on Myanmar's history and culture and hundreds of outstanding original photographs, *7 Days in Myanmar* shows why the world is watching Myanmar and why Myanmar is ready for the world.

*Online around the World* Laura M. Steckman, Marilyn J. Andrews, 2017-05-24  
Covering more than 80 countries around the world, this book provides a compelling, contemporary snapshot of how people in other countries are using the Internet, social media, and mobile apps. How do people in other countries use the social media platform Facebook differently than Americans do? What topics are discussed on the largest online forum—one in Indonesia, with more than seven million registered users? Why does Mongolia rate in the top-ten countries worldwide for peak Internet speeds? Readers of *Online around the World: A Geographic Encyclopedia of the Internet, Social Media, and Mobile Apps* will discover the answers to these questions and learn about people's Internet and social media preferences on six continents—outside of the online community of users within the United States. The book begins with an overview of the Internet, social media platforms, and mobile apps that chronologically examines the development of technological innovations that have made the Internet what it is today. The country-specific entries that follow the overview provide demographic information and describe specific events influenced by online communications, allowing readers to better appreciate

the incredible power of online interactions across otherwise-unconnected individuals and the realities and peculiarities of how people communicate in today's fast-paced, globalized, and high-technology environment. This encyclopedia presents social media and the Internet in new light, identifying how the use of language and the specific application of human culture impacts emerging technologies and communications, dramatically affecting everything from politics to social activism, education, and censorship.

*Sound Communities in the Asia Pacific* Lonán Ó Briain, Min Yen Ong, 2021-01-28  
The popularization of radio, television, and the Internet radically transformed musical practice in the Asia Pacific. These technologies bequeathed media broadcasters with a profound authority over the ways we engage with musical culture. Broadcasters use this power to promote distinct cultural traditions, popularize new music, and engage diverse audiences. They also deploy mediated musics as a vehicle for disseminating ideologies, educating the masses, shaping national borders, and promoting political alliances. With original contributions by leading scholars in anthropology, ethnomusicology, sound studies, and media and cultural studies, the 12 essays in this book investigate the processes of broadcasting musical culture in the Asia Pacific. We shift our gaze to the mechanisms of cultural industries in eastern Asia and the Pacific islands to understand how oft-invisible producers, musicians, and technologies facilitate, frame, reproduce, and magnify the reach of local culture.

**Burmese/Myanmar Dictionary of Grammatical Forms** John Okell, Anna Joan Allott, Anna Allott, 2001 This dictionary is a comprehensive list and account of grammatical forms, providing a much needed supplement to the standard Burmese-English dictionaries, where the grammatical forms receive scant attention.

**Burmese (Myanmar)** John Okell, 2016-05-10

Burmese (Myanmar) John Okell, 2016-05-10 Burmese has two styles of speaking and writing: the colloquial style, which is used for talking to friends and for writing letters, and the literary style, which is used in more formal contexts, such as academic articles, newspaper reports, and narrative passages in fiction. This volume, the final book in a four-part Burmese language course, introduces learners to the literary style. It assumes a prior knowledge of Burmese script and a grounding in the colloquial style. Okell starts with simple sentences, and, over a series of short

lessons, gradually increases the range of vocabulary and the level of complexity. The texts Okell uses for study are excerpts from Burmese children's schoolbooks highlighting themes of home- and school-life and Burmese nationalism and independence. Each passage is accompanied by a full translation and is followed by a set of exercises designed to familiarize the reader with the new vocabulary and sentence structures. Accompanying audio files allow students to hear the texts read aloud. Language professors, their students, or those learning Burmese on their own will appreciate the accessible approach and the manageable size of the lessons of the very practical textbooks in this series.

StarBriefs 2001 ,2012-12-06 This compilation probably looks like one of the craziest things a human being could spend his or her time on. Yet nobody would wonder at someone taking a short walk every day - after twenty five years that person would have covered a surprisingly long distance. This is exactly the story behind this list, which appeared first as a few pages within the directory StarGuides (or whatever name it had at that time) and as a distinct sister publication since 1990. The idea behind this dictionary is to offer astronomers and related space scientists practical assistance in decoding the numerous abbreviations, acronyms, contractions and symbols which they might encounter in all aspects of the vast range of their professional activities, including traveling. Perhaps it is a bit paradoxical, but if scientists quickly grasp the meaning of an acronym solely in their own specific discipline, they will probably encounter more difficulties when dealing with adjacent fields. It is for this purpose that this dictionary might be most often used. Scientists might also refer to this compilation in order to avoid identifying a project by an acronym which already has too many

meanings or confused definitions.

**Our Home in Myanmar** Jessica Mudditt, 2021-05-10 After a whirlwind romance in Bangladesh, Australian journalist Jessica Mudditt and her Bangladeshi husband Sherpa arrive in Yangon in 2012, just as the military junta is beginning to relax its ironclad grip on power. It is a high-risk atmosphere; a life riddled with chaos and confusion as much as it is with wonder and excitement. Jessica joins a small team of old-hand expat editors at The Myanmar Times, whose Burmese editor is still languishing in prison. Whether she is covering a speech by Aung San Suu Kyi, getting dangerously close to cobras, directing cover shoots with Burmese models, or scaling Bagan's thousand-year-old temples, Jessica is entranced and challenged by a country undergoing rapid change. But as the historic elections of 2015 draw near, it becomes evident that the road to democracy is full of twists, turns and false starts. The

couple is blindsided when a rise in militant Buddhism takes a personal turn and challenges their belief that they have found a home in Myanmar.
