Our Enemies in Blue Kristian Williams,2015-08-03 Let's begin with the basics: violence is an inherent part of policing. The police represent the most direct means by which the state imposes its will on the citizenry. They are armed, trained, and authorized to use force. Like the possibility of arrest, the threat of violence is implicit in every police encounter. Violence, as well as the law, is what they represent. Using media reports alone, the Cato Institute's last annual study listed nearly seven thousand victims of police misconduct in the United States. But such stories of police brutality only scratch the surface of a national epidemic. Every year, tens of thousands are framed, blackmailed, beaten, sexually assaulted, or killed by cops. Hundreds of millions of dollars are spent on civil judgments and settlements annually. Individual lives, families, and communities are destroyed. In this extensively revised and updated edition of his seminal study of policing in the United States, Kristian Williams shows that police brutality isn't an anomaly, but is built into the very meaning of law enforcement in the United States. From antebellum slave patrols to today's unarmed youth being gunned down in the streets, peace keepers have always used force to shape behavior, repress dissent, and defend the powerful. Our Enemies in Blue is a well-researched page-turner that both makes historical sense of this legalized social pathology and maps out possible alternatives.

The Course of Love Alain de Botton,2016-06-14 “An engrossing tale [that] provides plenty of food for thought” (People, Best New Books pick), this playful, wise, and profoundly moving second novel from the internationally bestselling author of How Proust Can Change Your Life tracks the beautifully complicated arc of a romantic partnership. We all know the headiness and excitement of the early days of love. But what comes after? In Edinburgh, a couple, Rabih and Kirsten, fall in love. They get married, they have children—but no long-term relationship is as simple as “happily ever after.” The Course of Love explores what happens after the birth of love, what it takes to maintain, and what happens to our original ideals under the pressures of an average existence. We see, along with Rabih and Kirsten, the first flush of infatuation, the effortlessness of falling into romantic love, and the course of life thereafter. Interwoven with their story and its challenges is an overlay of philosophy—an annotation and a guide to what we are reading. As The New York Times says, “The Course of Love is a return to the form that made Mr. de Botton’s name in the mid-1990s....love is the subject best suited to his obsessive aphorizing, and in this novel he again shows off his ability to pin our hopes, methods, and insecurities to the page.” This is a Romantic novel in the true sense, one interested in exploring how love can survive and thrive in the long term. The result is a sensory experience—fictional, philosophical, psychological—that urges us to identify deeply with these characters and to reflect on his and her own experiences in love. Fresh, visceral, and utterly compelling, The Course of Love is a provocative and life-affirming novel for everyone who believes in love. “There’s no writer alive like de Botton, and his latest ambitious undertaking is as enlightening and humanizing as his previous works” (Chicago Tribune).

Precision and Purpose Karl P. Mueller,2015-07-08 Between March and October 2011, a coalition of North Atlantic Treaty Organization (NATO) member states and several partner nations waged a war against Muammar

Qaddafi's Libyan regime that stemmed and then reversed the tide of Libya's civil war, preventing Qaddafi from crushing the nascent rebel movement seeking to overthrow his dictatorship and going on to enable opposition forces to prevail. The central element of this intervention was a relatively small multinational force's air campaign operating from NATO bases in several countries, as well as from a handful of aircraft carriers and amphibious ships in the Mediterranean Sea. The study details each country's contribution to that air campaign, examining such issues as the limits of airpower and coordination among nations. It also explores whether the Libyan experience offers a potential model for the future.

U.S. Marines in Afghanistan, 2001-2009 U S Marine Corps History Division,2017-02-05 This volume presents a collection of 38 articles, interviews, and speeches describing many aspects of the U.S. Marine Corps' participation in Operation Enduring Freedom from 2001 to 2009. This work is intended to serve as a general overview and provisional reference to inform both Marines and the general public until the History Division completes monographs dealing with major Marine Corps operations during the campaign. The accompanying annotated bibliography provides a detailed look at selected sources that currently exist until new scholarship and archival materials become available. From the Preface - From the outset, some experts doubted that the U.S. Marines Corps would play a major role in Afghanistan given the landlocked nature of the battlefield. Naval expeditionary Task Force 58 (TF-58) commanded by then-Brigadier General James N. Mattis silenced naysayers with the farthest ranging amphibious assault in Marine Corps/Navy history. In late November 2001, Mattis' force seized what became Forward Operating Base Rhino, Afghanistan, from naval shipping some 400 miles away. The historic assault not only blazed a path for follow-on forces, it also cut off fleeing al-Qaeda and Taliban elements and aided in the seizure of Kandahar. While Corps doctrine and culture advocates Marine employment as a fully integrated Marine air-ground task force (MAGTF), deployments to Afghanistan often reflected what former Commandant General Charles C. Krulak coined as the three-block war. Following TF-58's deployment during the initial take down of the Taliban regime, the MAGTF made few appearances in Afghanistan until 2008. Before then, subsequent Marine units often deployed as a single battalion under the command of the U.S. Army Combined Joint Task Force (CJTF) to provide security for provincial reconstruction teams. The Marine Corps also provided embedded training teams to train and mentor the fledgling Afghan National Army and Police. Aviation assets sporadically deployed to support the U.S.-led coalition mostly to conduct a specific mission or to bridge a gap in capability, such as close air support or electronic warfare to counter the improvised explosive device threat. From 2003 to late 2007, the national preoccupation with stabilizing Iraq focused most Marine Corps assets on stemming the insurgency, largely centered in the restive al-Anbar Province. As a result of the North Atlantic Treaty Organization (NATO) taking over command of Afghan operations and Marine Corps' commitments in Iraq, relatively few Marine units operated in Afghanistan from late 2006 to 2007. Although Marines first advocated shifting resources from al-Anbar to southern Afghanistan in early 2007, the George W. Bush administration delayed the Marine proposal for fear of losing the gains made as a result of Army General David H. Petraeus' surge strategy in Iraq. By late 2007, the situation in Afghanistan had deteriorated to the point that it inspired Rolling Stone to later publish the story How We Lost the War We Won. In recognition of the shifting tides in both Iraq and Afghanistan, the Bush administration began to transfer additional resources to Afghanistan in early 2008. The shift prompted senior Marines to again push for a more prominent role in the Afghan campaign, even proposing to take over the Afghan mission from the Army. . . .
