The Driving Instructor Business James Duggan, 2015-08-30 The book 'The Driving Instructor Business' presented by 'It's a Drivers World' has been prepared primarily for the benefit of those people who are considering becoming a driving instructor and who have no experience of either that or indeed running a small business. However, it will be of great value to those trainee instructors who want to know more about the business they are getting into and who are not getting this guidance from their current trainers Indeed newly qualified instructors will find it of great benefit in helping them through the initial first twelve months or so especially if they have been abandoned to their fate by their trainers now that they have qualified. In keeping with one of the most well known maxims in the driving instructor business, keep it short and simple, it deals with all the essential facets of being a driving instructor without being too wordy or too heavy a read. In other words don't overload the pupil with too much information which is irrelevant and which will probably be forgotten - get to the point in simple terms which will be readily understood and absorbed. This book sets out to do exactly that and covers such subjects as those listed inside. They are listed in no particular order and cover not just the

actual business side of being a driving instructor, but include also background material on how to become one and the sort of knowledge and information you would be expected to acquire and pass on to your pupils.
