The lights begin to flicker and a white mist forms in front of you. You shut your eyes and keep muttering, "ghosts aren't real." But then you open your eyes and realize that "harmless" mist has shifted into the form of a man, staring intensely at you, as he floats above your bed. What causes ghostly experiences? The Ghost Studies provides scientific explanations for paranormal occurrences, including: New and exciting scientific theories that explain apparitions, hauntings, and communications from the dead. The latest research on the role of energy and electricity in hauntings. The role that emotions, bioenergetics, and the environment play in supernatural phenomena.
