**Man, Play, and Games** Roger Caillois, 2001 According to Roger Caillois, play is an occasion of pure waste. In spite of this - or because of it - play constitutes an essential element of human social and spiritual development. In this study, the author defines play as a free and voluntary activity that occurs in a pure space, isolated and protected from the rest of life.

*Ermeni ve Rum kültür varlıklarıyla Kayseri* Altuğ Yılmaz, 2016 In an effort to afford a glimpse into Kayseri's rich sociocultural past, this book traces the physical and built environment that has been left from the Armenian and Greek communities of the region and presents the relationship of the urban culture of Ottoman Kayseri to its rural hinterland by way of statistical information and visual material. The book comprises mainly the results of the fieldwork in Kayseri in the summer and fall of 2015 that was jointly undertaken by the Hrant Dink Foundation and the Association for the Protection of Cultural Heritage. Accompanied by contextualizing introductory articles that shed light on the social and economic history of the Armenian and Greek communities in Kayseri, this book attests to t[h]e fact that Kayseri that we know today in [sic] very much the product of the cultural, ethnic, and religious diversity it once enjoyed. At the end of the 19th century, non-Muslims constituted one-third of the population of the Kayseri Province. A significant number of their buildings have unexpectedly withstood the perils to this day, and yet they are deteriorating at an alarming pace. This book, which should be considered a 2015 photograph of this cultural heritage, was prepared with the hope that it will contribute to the processes of reconciling with the past. The latter is the prerequisite for the cultural heritage of the peoples who have been forcefully expelled from their homelands to not be neglected but to instead be protected like other cultural heritage.--

**Exposed** Bryan Adams, 2012 In the late 1990s Bryan Adams became curious about making photographic self-portraits for his album covers, and so chose to pick up the camera himself. That serendipitous decision was the beginning of a successful photographic career, parallel to Adams' impressive achievements as a singer, songwriter and producer. *Exposed* is a retrospective of Adams' photography and features portraits of friends and colleagues in the entertainment, fashion and art industries, including Morrissey, Ben Kingsley, Amy Winehouse, Michael Jackson, Louise Bourgeois, Lindsay Lohan and Judi Dench. This book, Adams' first comprehensive monograph, exposes not only unknown facets of his subjects but also the depth of Adams' photographic faculty.

The Post-Boom in Spanish American Fiction Donald L. Shaw, 1998-07-10 What happened in Spanish American fiction after the Boom? Can we define the Post-Boom? What are its characteristics? How does it relate to the Boom itself? Is Post-Boom the same as Postmodernism or something quite different? Shaw traces the emergence of a different kind of writing which began to displace the Boom in the mid-1970s and has flourished ever since. More reader-friendly, more concerned with the here and now of Latin America, the writers of the Post-Boom have explored new areas of Spanish American life and incorporated characters from new social groups, especially young working-class and lower middle-class figures with their distinctive pop culture and freewheeling life-style. Shaw suggests that, while some Boom writers have moved toward the Post-Boom, Post-Boom narrative is distinctively different from that of the older movement and cannot be readily assimilated into Postmodernism.

**Frankissstein** Jeanette Winterson, 2019-10-01 This "thought-provoking and . . . unabashedly

entertaining . . . novel defies conventional expectations and exists, brilliantly and defiantly, on its own terms" (Sarah Lotz, New York Times Book Review). Lake Geneva, 1816. Nineteen-year-old Mary Shelley is inspired to write a story about a scientist who creates a new life-form. In Brexit Britain, a young transgender doctor called Ry is falling in love with Victor Stein, a celebrated professor leading the public debate around AI and carrying out some experiments of his own in a vast underground network of tunnels. Meanwhile, Ron Lord, just divorced and living with his mom again, is set to make his fortune launching a new generation of sex dolls. Across the Atlantic, in Phoenix, Arizona, a cryogenics facility houses dozens of bodies of men and women who are medically and legally dead . . . but waiting to return to life. Since her astonishing debut *Oranges Are Not the Only Fruit*, Jeanette Winterson has achieved worldwide acclaim as "one of the most daring and inventive writers of our time" (Elle). In *Frankissstein*, she shares an audacious love story that weaves together disparate lives into an exploration of transhumanism, artificial intelligence, and queer love. Longlisted for the Booker Prize

**Ordinary Enchantments** Wendy B. Faris, 2004 *Ordinary Enchantments* investigates magical realism as the most important trend in contemporary international fiction, defines its characteristics and narrative techniques, and proposes a new theory to explain its significance. In the most comprehensive critical treatment of this literary mode to date, Wendy B. Faris discusses a rich array of examples from magical realist novels around the world, including the work not only of Latin American writers like Gabriel Garcia Marquez, but also of authors like Salman Rushdie, Gunter Grass, Toni Morrison, and Ben Okri. Faris argues that by combining realistic representation with fantastic elements so that the marvelous seems to grow organically out of the ordinary, magical realism destabilizes the dominant form of realism based on empirical definitions of reality, gives it visionary power, and thus constitutes what might be called a remystification of narrative in the West. Noting the radical narrative heterogeneity of magical realism, the author compares its cultural role to that of traditional shamanic performance, which joins the worlds of daily life and that of the spirits. Because of that capacity to bridge different worlds, magical realism has served as an effective decolonizing agent, providing the ground for marginal voices, submerged traditions, and emergent literatures to develop and create masterpieces. At the same time, this process is not limited to postcolonial situations but constitutes a global trend that replenishes realism from within. In addition to describing what many consider to be the progressive cultural work of magical realism, Faris also confronts the recent accusation that magical realism and its study as a global phenomenon can be seen as a form of commodification and an imposition of cultural homogeneity. And finally, drawing on the narrative innovations and cultural scenarios that magical realism enacts, she extends those principles toward issues of gender and the possibility of a female element within magical realism.

The Affairs of Others Amy Grace Loyd, 2013-08-27 A MESMERIZING DEBUT NOVEL ABOUT A YOUNG WOMAN, HAUNTED BY LOSS, WHO REDISCOVERS PASSION AND POSSIBILITY WHEN SHE'S DRAWN INTO THE TANGLED LIVES OF HER NEIGHBORS Five years after her young husband's death, Celia Cassill has moved from one Brooklyn neighborhood to another, but she has not moved on. The owner of a small apartment building, she has chosen her tenants for their ability to respect one another's privacy. Celia believes in boundaries, solitude, that she has a right to her ghosts. She is determined to live a life at a remove from the chaos and competition of modern life. Everything changes with the arrival of a new tenant, Hope, a dazzling woman of a certain age on the run from her husband's recent betrayal. When Hope begins a torrid and noisy affair, and another tenant mysteriously disappears, the carefully constructed walls of Celia's world are tested and the sanctity of her building is shattered—through violence and sex, in turns tender and dark. Ultimately, Celia and her tenants are forced to abandon their separate spaces for a far more intimate one, leading to a surprising conclusion and the promise of genuine joy. Amy Grace Loyd investigates interior spaces of the body and the New York warrens in which her characters live, offering a startling emotional honesty about the traffic between men and women. *The Affairs of Others* is a story about the irrepressibility of life and desire, no matter the sorrows or obstacles.

*The Passion* Jeanette Winterson, 2011-10-31 'A fantasy, a vivid dream...inventive and brilliant' Guardian Henri has a passion for Napoleon - but Napoleon has a passion for chicken. As soldier and emperor butcher their way across Europe, glory falls to ruin and love turns to hate. But, when Henri encounters the red-haired, web-footed Villanelle, he discovers in her an equal. Together they abandon their pasts, and flee to the Venetian canals to meet their singular destiny in the city of chance and disguises. 'A deeply imagined and beautiful book, often arrestingly so.' New York Times

**The Sun & the Moon & the Rolling Stones** Rich Cohen, 2016 Rich Cohen enters the Stones epic as a young journalist on the road with the band and quickly falls under their sway—privy to the jokes, the camaraderie, the bitchiness, the hard living. Inspired by a lifelong appreciation of the music that borders on obsession, Cohen's chronicle of the band is informed by the rigorous views of a kid who grew up on the music and for whom the Stones will always be the greatest rock 'n' roll band of all time.

**Magical Realism and the Fantastic** Amaryll Beatrice Chanady, 2019-10-01 Every reader of literature interprets the literary text on the basis of information they have acquired from previous reading, and according to norms they have established, either consciously or not, with regard to a work of literature. In this study, originally published in 1985, the author clarifies the concepts of magical realism and the fantastic, and establishes a series of guidelines that will allow us to distinguish between the two similar yet independent modes. The reader will thus be able to identify the implicit framework upon which the author of the fantastic and of magical realism bases their text.

*Maritime Security and the Law of the Sea* Natalie Klein, 2012-10-04 *Maritime Security and the Law of the Sea* examines the rights and duties of states across a broad spectrum of maritime security threats. It provides comprehensive coverage of the different dimensions of maritime security in order to assess how responses to maritime security concerns are, and should be, shaping the law of the sea. The discussion canvasses passage of military vessels and military activities at sea, law enforcement activities across the different maritime zones, information sharing and intelligence gathering, as well as armed conflict and naval warfare. In doing so, this book not only addresses traditional security concerns for naval power but also examines responses to contemporary maritime security threats, such as terrorism, weapons of mass destruction, piracy, drug-trafficking, environmental damage and illegal fishing. While the protection of sovereignty and national interests remain fundamental to maritime security and the law of the sea, there is increasing acceptance of a common interest that exists among states when seeking to respond to a variety of modern maritime security threats. It is argued that security interests should be given greater scope in our understanding of the law of the sea in light of the changing dynamics of exclusive and inclusive claims to ocean use. More flexibility may be required in the interpretation and application of the UN Convention on the Law of the Sea if appropriate responses to ensure maritime security are to be allowed.

**Postmodernist Fiction** Brian McHale, 2003-09-02 In this trenchant and lively study Brian McHale undertakes to construct a version of postmodernist fiction which encompasses forms as wide-ranging as North American metafiction, Latin American magic realism, the French New New Novel, concrete prose and science fiction. Considering a variety of theoretical approaches including those of Ingarden, Eco, Dolezel, Pavel, and Hrushovski, McHale shows that the common denominator is postmodernist fiction's ability to thrust its own ontological status into the foreground and to raise questions about the world (or worlds) in which we live. Exploiting various theoretical approaches to literary ontology - those of Ingarden, Eco, Dolezel, Pavel, Hrushovski and others - and ranging widely over contemporary world literature, McHale assembles a comprehensive repertoire of postmodernist fiction's strategies of world-making and -unmaking.
