Painting with Numbers Randall Bolten,2012-02-13 Learn how to communicate better with numbers Whether you are distributing a report or giving a presentation, you have a lot of numbers to present and only a few minutes to get your point across. Your audience is busy and has a short attention span. Don't let an amateur presentation bog you down, confuse your audience, and damage your credibility. Instead, learn how to present numerical information effectively—in the same way you learned how to speak or write. With *Painting with Numbers*, you'll discover how to present numbers clearly and effectively so your ideas and your presentation shine. Use the Arabic numeral system to your advantage master the use of layout and visual effects to communicate powerfully Understand how audiences process your information and how that affects your personal brand image Learn how to be perceived as a professional who truly understands the business concepts and issues underlying your numbers Use software tools, including Excel, PowerPoint, and graphs, efficiently and to drive home your point Author Randall Bolten shares his decades of experience as a senior finance executive distilling complicated information into clear presentations, to help you make your numerical information more comprehensible, meaningful, and accessible. *Painting with Numbers* is brimming with hands-on advice, techniques, tools, rules, and guidelines for producing clear, attractive, and effective quantation (the word the author has coined for the skill of presenting numbers).

Portfolio: Beginning Oil Jan Murphy,2017-04 Perfect for beginning and intermediate artists, *Beginning Oil* makes painting with oil simple, accessible, and approachable for artists of all skill levels.

I Ain't Gonna Paint No More! Karen Beaumont,2005 In the rhythm of a familiar folk song, a child cannot resist adding one more dab of paint in surprising places.

Watercolor Is for Everyone Kateri Ewing, 2020-08-18 “Encourages an intuitive, meditative practice to inspire original creations . . . the sense that everyone should try it . . . pours off of the page.” –Foreword Reviews In this beautiful book, artist Kateri Ewing, author of Look Closer, Draw Better, guides you through a series of simple creative projects using a soulful, meditative, and reflective process. Whether you’re picking up a paint brush for the first time or are an experienced artist, you’ll discover and deepen your creative potential through these exercises, because everyone can make art. Each project results in two art pieces: one to keep for yourself, and then another one, such as a postcard or mini painting, to share with someone else or send out into the world, to spread their color, creativity, and joy in new places. With Watercolor Is for Everyone, you can learn how to build a daily practice and how to set intentions and create, even if you have just 10 minutes a day. The projects draw inspiration from poetry, music, literature, and the natural world, and invite experimentation with a variety of sources, from tarot and oracle cards to rocks and feathers. You’ll pursue your personal passions through accessible projects as you build your artistic skills, confidence, and creativity. “Written in a warm and inviting tone that is both inspirational and aspirational, this is an excellent introduction for artists of all levels to the rewarding medium of watercolor.” –Library Journal (starred review)

Areas of interest include, but are not limited to: · Novel methods and techniques for characterizing materials across a spectrum of systems and processes. · Characterization of mechanical, thermal, electrical, optical, dielectric, magnetic, physical, and other properties of materials. · Characterization of structural, morphological, and topographical natures of materials at micro- and nano- scales. · Characterization of extraction and processing including process development and analysis. · Advances in instrument developments for microstructure analysis and performance evaluation of materials, such as computer tomography (CT), X-ray and neutron diffraction, electron microscopy (SEM, FIB, TEM), and spectroscopy (EDS, WDS, EBSD) techniques. · 2D and 3D modelling for materials characterization. The book explores scientific processes to characterize materials using modern technologies, and focuses on the interrelationships and interdependence among processing, structure, properties, and performance of materials.

Fantastic Forgeries: Paint Like Van Gogh Van Gogh Museum, Joanne Shurvell, 2017-01-17 Hugely prolific, Vincent Van Gogh produced over 2000 works (nearly 900 paintings and more than 1,100 drawings and sketches) in a ten-year period. His story and (largely) self-taught skills are an inspiration to budding artists everywhere. Fantastic Forgeries is a simple course in the artist's legendary skills, so readers can learn his innovative techniques and then adapt and apply those techniques to their own renditions and drawings. You'll begin just as Van Gogh did, first mastering black and white drawings, including figures and landscapes Then move on to color works, including watercolor, and then finally move on to oil painting. Within each chapter, the reader will come across a specific technique employed by Van Gogh in an artwork or artworks, and then--accompanied by step-by-step lessons--he or she can learn how to use that technique in their own drawings or paintings. Featuring a dazzling collection of Van Gogh's works, step-by-step lessons for learning his techniques in 10 key pieces, as well as fascinating sidebars about Van Gogh's life, critical reception to his work, and his own thoughts about his art, this is an ideal course for any artist looking to be inspired by one of the great masters--
