Awkward Family Photos Mike Bender, Doug

Chernack, 2010-05-04 Based on the hit website,

AwkwardFamilyPhotos.com (“painful, regrettable, horrifyingly awesome snaps of family bonding, you will laugh so hard that people in adjoining offices will ask what’s wrong with you”—Esquire), this full color book features never-before-seen photos and hilarious personal stories covering everything from uncomfortable moments with relatives, teen angst, sibling rivalry, and family vacations from hell. Cringe at the forced poses, bad hair, and matching outfits—all prompting us to look at our own families and celebrate the fact that we’re not alone. Nothing says awkward better than an uncomfortable family photograph!

**Historic Photos of Mississippi** , 2009-05-01 Imagine a ride with the Mississippi mockingbird as it soars through the Mississippi skies. Beginning in the land of Elvis at Tupelo, one moves down to the Piney Woods of East Central Mississippi where the ground is covered with fragrant pine straw and where Choctaw moccasins once walked the trails. Then turn south where the ocean waves swell upon sandy beaches and sea gulls hover and squawk in the breeze. Continue onward to the mansions of historic Natchez and the cotton fields of the Mississippi Delta where the blues reigns supreme. Finally, swoop

down toward Old Man River, the majestic Mississippi, and skim across its yellow waters. The waters have seen war and defeat, loss and love, heartbreaks and triumphs. No sentiments need speaking. Only the sweet songs of the mockingbird are required to understand a land whose beauty is second only to the strength of its people. Through nearly 200 images printed in vivid black-and-white, with brief introductions and captions, *Historic Photos of Mississippi* takes the viewer on a flightpath to key points of interest in historic Mississippi.

Carlson, 2023-08-28 Build a stress-free workflow to import, rate, tag, and organize your digital photos! Version 3.0, updated August 28, 2023 This book gives you the information you need to build and maintain a digital photo workflow that makes it easy to import, rate, tag, and store photos to find them quickly and easily later. It helps you spend

more time on the enjoyable aspects of photography—capturing and viewing your photos—and less on the mundane but essential task of managing all your photos. It also puts you in the best position to quickly find and edit your most promising photos. Are you drowning in a sea of digital photos? Unable to find the shots you’re looking for, or to stay on top of managing all the photos you’re taking? Digital photography expert Jeff Carlson gives you a plan for tackling this problem, starting with preparing your camera ahead of time, then choosing the right app to manage your photos, judging and organizing your photos, and backing up your photos for safekeeping. In this book, Jeff offers advice to cover both macOS and Windows (along with limited coverage of mobile platforms), and to address a broad range of photo management apps, including Apple Photos, Capture One, Lightroom Classic, Lightroom desktop, Excire Foto, Exposure X7, Mylio Photos, ON1 Photo Keyword AI, and ON1 Photo RAW. With this book, you’ll learn how to:

- Get started with the minimum amount of work: Take advantage of software intelligence to do some of the categorizing work for you, and find out how you can accomplish some tasks even if you have little time.
- Prep your camera: Learn four actions you can take before you head out the door that will make things easier after you return with new pictures.
- Manage your workflow: Choose the software and approach that best meets your needs for organizing your photos.
- Import the right way: Learn how to assign valuable metadata to all images that come in during the import stage, saving lots of time and effort.
- Pick winners and losers: Assign ratings to your photos, and remove or hide unwanted photos.
- Remove duplicates: Use Lightroom Classic, Photos for macOS, or Gemini Photos for iOS/iPadOS to find and delete duplicate images.
- Use AI/Machine Learning: Learn about AI/ML

terminology, and use software tools like ON1 Photo Keyword AI and Excire Foto to apply keywords automatically. • Apply keywords and metadata: If needed, manually apply keywords to individual shots, learn how to apply geotags using location data from external devices (like an iPhone), and use facial recognition to collect shots of specific friends and family members. • Search with smart albums: Build smart albums whose contents change depending on criteria you've specified, allowing you to find photos more easily, even in images you add in the future. • Manage multiple libraries: Use Photos for macOS, Lightroom Classic, or Peakto to manage multiple photo libraries. • Go mobile: Find the right online service for making your photos available on mobile devices, based on your needs and which desktop photo management app you use. • Protect your photos: Learn how to implement a backup strategy that will preserve all your data, not just your photos, and how to archive photos for the future.
