About Online Poker Nicolae Sfetcu,2014-05-03 This book is intended to be an introduction to the poker game, emphasizing on the online poker, the betting structure, poker variants, poker strategy and specific poker tournaments. Online poker is the game of poker played over the Internet. Online poker rooms tend to be viewed as more player-friendly and allow the players to play for

very low stakes. It has been partly responsible for a dramatic increase in the number of poker players worldwide. While the practice of comping players with free meals, hotel rooms, and merchandise is quite common in B&M casinos, online poker rooms have needed to develop new ways to reward faithful customers. The most common way of doing this is through deposit bonuses, where the player is given a bonus code to enter when placing money into an account. One common feature of the online poker sites is to offer tournaments called satellites by which the winners gain entry to real-life poker tournaments. Online poker rooms reward customers through deposit bonuses, where the player is given a bonus code to enter when placing money into an account.

Get Paid to Play Poker Mark Dupont, 2022-03-09 Welcome to this free report. I'm about to tell you how you can make money playing online poker, but before you continue reading, I assume that you have a basic understanding of Texas Hold'em poker. The purpose of this book is not to teach you how to play poker, but rather how to build an online poker bankroll for free. If you are not familiar with the game or require a brush-up, you can download a free poker guide here:

<http://www.ebooks-made-easy.com/poker> This report relies on first time bonus offers and reload bonuses. In order to provide you with the most up-to-date information I have partnered with a great website organization called BankrollMob. BankrollMob is one of the fastest growing poker communities online. This totally free online community also provides monthly prize drawings, a poker forum where you can get poker advice and ask questions, and most importantly, provides bonus opportunities. But let me explain first how online poker sites make a profit from hosting virtual poker tables. Online poker rooms make money by taking a small percentage out of each poker pot. This is called the rake. The amount of rake taken from each poker pot varies from poker site to poker site. Most sites take approximately fifty cents out of every poker pot that reaches five dollars in size. The poker sites do not

care who wins or loses, rather they are interested in having lots of players who will generate pots over five dollars. They just want online poker players, lots of players who will generate pots over five dollars. That's it, more players equal more profits for the online poker room. It's that simple.
