Reading Sounds Sean Zdenek, 2015-12-23 The work of writing closed captions for television and DVD is not simply transcribing dialogue, as one might assume at first, but consists largely of making rhetorical choices. For Sean Zdenek, when captioners describe a sound they are interpreting and creating contexts, they are assigning significance, they are creating meaning that doesn't necessarily exist in the soundtrack or the script. And in nine chapters he analyzes the numerous complex rhetorical choices captioners make, from abbreviating dialogue so it will fit on the screen and keep pace with the editing, to whether and how to describe background sounds, accents, or slurred speech, to nonlinguistic forms of sound communication such as sighing, screaming, or laughing, to describing music, captioned silences (as when a continuous noise suddenly stops), and sarcasm, surprise, and other forms of meaning associated with vocal tone. Throughout, he also looks at closed captioning style manuals and draws on interviews with professional captioners and hearing-impaired viewers. Threading through all this is the novel argument that closed captions can be viewed as texts worthy of rhetorical analysis and that this analysis can lead the entertainment industry to better standards and practices for closed captioning, thereby better serve the needs of hearing-impaired viewers. The author also looks ahead to the work yet to be done in bringing better captioning practices to videos on the Internet, where captioning can take on additional functions such as enhancing searchability. While scholarly work has been done on captioning from a legal perspective, from a historical perspective, and from a technical perspective, no one has ever done what Zdenek does here, and the original analytical models he offers are richly interdisciplinary, drawing on work from the fields of technical communication, rhetoric, media studies, and disability studies.

The Lights of Prague Nicole Jarvis, 2021-05-18 For readers of *VE Schwab* and *The Witcher*, science and magic clash in atmospheric gaslight-era Prague. In the quiet streets of Prague all manner of otherworldly creatures lurk in the shadows. Unbeknownst to its citizens, their only hope against the tide of predators are the dauntless lamplighters - a secret elite of monster hunters whose light staves off the darkness each night. Domek Myska leads a life teeming with fraught encounters with the worst kind of evil: pijavica, bloodthirsty and soulless vampiric creatures. Despite this, Domek finds solace in his moments spent in the company of his friend, the clever and beautiful Lady Ora Fischer - a widow with secrets of her own. When Domek finds himself stalked by the spirit of the White Lady - a ghost who haunts the baroque halls of Prague castle - he stumbles across the sentient essence of a will-o'-the-wisp captured in a mysterious container. Now, as its bearer, Domek wields its power, but the wisp, known for leading travellers to their deaths, will not be so easily controlled. After discovering a conspiracy amongst the pijavice that could see them unleash terror on the daylight world, Domek finds himself in a race against those who aim to twist alchemical science for their own dangerous gain.

The Detective in the Dooryard Timothy Cotton, 2020-07-09 Tim Cotton has been a police officer for more than thirty years. The writer in him has always been drawn to the stories of the people he has met along the way. Dealing with the standard issue ne'er-do-wells as a patrol officer, homicide detective, polygraph examiner, and later as the lieutenant in charge of the criminal investigation division certainly provides an interesting backdrop—but more often he writes about the regular folks he encounters, people who need his help, or those who just want to share a joke or even a sad story. *The Detective in the Dooryard* is composed of stories about the people, places, and things of Maine. There are sad stories, big events, and even the very mundane, all told from the perspective of a seasoned police officer and in the wry voice of a lifelong Mainer. Many of the stories will leave you chuckling, some will invariably bring tears to your eyes, but all will leave you with a profound sense of hope and positivity.

The Rage of Innocence Kristin Henning,2021-09-28 A brilliant analysis of the foundations of racist policing in America: the day-to-day brutalities, largely hidden from public view, endured by Black youth growing up under constant police surveillance and the persistent threat of physical and psychological abuse Storytelling that can make people understand the racial inequities of the legal system, and...restore the humanity this system has cruelly stripped from its victims.” –New York Times Book Review Drawing upon twenty-five years of experience representing Black youth in Washington, D.C.’s juvenile courts, Kristin Henning confronts America’s irrational, manufactured fears of these young people and makes a powerfully compelling case that the crisis in racist American policing begins with its relationship to Black children. Henning explains how discriminatory and aggressive policing has socialized a generation of Black teenagers to fear, resent, and resist the police, and she details the long-term consequences of racism that they experience at the hands of the police and their vigilante surrogates. She makes clear that unlike White youth, who are afforded the freedom to test boundaries, experiment with sex and drugs, and figure out who they are and who they want to be, Black youth are seen as a threat to White America and are denied healthy adolescent development. She examines the criminalization of Black adolescent play and sexuality, and of Black fashion, hair, and music. She limns the effects of police presence in schools and the depth of police-induced trauma in Black adolescents. Especially in the wake of the recent unprecedented, worldwide outrage at racial injustice and inequality, *The Rage of Innocence* is an essential book for our moment.
