Resilience & Melancholy Robin James, 2015-02-27 When most people think that “little girls should be seen and not heard,” a noisy, riotous scream can be revolutionary. But that’s not the case anymore. (Cis/Het/White) Girls aren’t supposed to be virginal, passive objects, but Poly-Styrene-like sirens who scream back in spectacularly noisy and transgressive ways as they “Lean In.” Resilience is the new, neoliberal feminine ideal: real women overcome all the objectification and silencing that impeded their foremothers. Resilience discourse incites noisy damage, like screams, so that it can be recycled for a profit. It turns the crises posed by avant-garde noise, feminist critique, and black aesthetics into opportunities for strengthening the vitality of multi-racial white supremacist patriarchy (MRWaSP). Reading contemporary pop music – Lady Gaga, Beyonce, Calvin Harris – with and against political philosophers like Michel Foucault, feminists like Patricia Hill Collins, and media theorists like Steven Shaviro, */Resilience & Melancholy/* shows how resilience discourse manifests in both pop music and in feminist politics. In particular, it argues that resilient femininity is a post-feminist strategy for producing post-race white supremacy. Resilience discourse allows women to “Lean In” to MRWaSP privilege because their overcoming and leaning-in actively produce blackness as exception, as pathology, as death. The book also considers alternatives to resilience found in the work of Beyonce, Rihanna, and Atari Teenage Riot. Updating Freud, James calls these pathological, diseased iterations of resilience “melancholy.” Melancholy makes resilience unprofitable, that is, incapable of generating enough surplus value to keep MRWaSP capitalism healthy. Investing in the things that resilience discourse renders exceptional, melancholic siren songs like Rihanna’s “Diamonds” steer us off course, away from resilient “life” and into the death.

Posthuman Rap Justin Adams Burton, 2017-09-01 Posthuman Rap listens for the ways contemporary rap maps an existence outside the traditional boundaries of what it means to be human. Contemporary humanity is shaped in neoliberal terms, where being human means being viable in a capitalist marketplace that favors whiteness, masculinity, heterosexuality, and fixed gender identities. But musicians from Nicki Minaj to Future to Rae Sremmurd deploy queerness and sonic blackness as they imagine different ways of being human. Building on the work of Sylvia Wynter, Alexander Weheliye, Lester Spence, LH Stallings, and a broad swath of queer and critical race theory, Posthuman Rap turns an ear especially toward hip hop that is often read as apolitical in order to hear its posthuman possibilities, its construction of a humanity that is blacker, queerer, more feminine than the norm.

The Sonic Episteme Robin James, 2019-12-02 In *The Sonic Episteme* Robin James examines how twenty-first-century conceptions of sound as acoustic resonance shape notions of the social world, personhood, and materiality in ways that support white supremacist capitalist patriarchy. Drawing on fields ranging from philosophy and sound studies to black feminist studies and musicology, James shows how what she calls the sonic episteme—a set of sound-based rules that qualitatively structure social practices in much the same way that neoliberalism uses statistics—employs a politics of exception to maintain hegemonic neoliberal and biopolitical projects. Where James sees the normcore averageness of Taylor Swift and Spandau Ballet as contributing to the sonic episteme's marginalization of nonnormative conceptions of gender, race, and personhood, the black feminist political ontologies she identifies in Beyoncé's and Rihanna's music challenge such marginalization. In using sound to theorize political ontology, subjectivity, and power, James argues for the further articulation of sonic practices that avoid contributing to the systemic relations of domination that biopolitical neoliberalism creates and polices.

Sartorial Fandom Elizabeth Affuso, Suzanne Scott, 2023-04-03 In recent years, geeks have become chic, and the fashion and beauty industries have responded to this trend with a plethora of fashion-forward merchandise aimed at the increasingly lucrative fan demographic. This mainstreaming of fan identity is reflected in the glut of pop culture T-shirts lining the aisles of big box retailers as well as the proliferation of fan-focused lifestyle brands and digital retailers over the past decade. While fashion and beauty have long been integrated into the media industry with tie-in lines, franchise products, and other forms of merchandise, there has been limited study of fans' relationship to these items and industries. Sartorial Fandom shines a spotlight on the fashion and beauty cultures that undergird fandoms, considering the retailers, branded products, and fan-made objects that serve as forms of identity expression. This collection is invested in the subcultural and mainstream expression of style and in the spaces where the two intersect. Fan culture is, in many respects, an optimal space to situate a study of style because fandom itself is often situated between the subcultural and the mainstream. Collectively, the chapters in this anthology explore how various axes of lived identity interact with a growing movement to consider fandom as a lifestyle category, ultimately contending that sartorial practices are central to fan expression but also indicative of the primacy of fandom in contemporary taste cultures.

Extending Play Alyxandra Vesey, 2023-12-29 Extending Play examines the ubiquity of brand partnerships within the contemporary music industries. Though brand partnerships exist across all media industries, they are a distinct phenomenon for the music business because of their associations with fan club merchandise, concert merchandise, and lifestyle branding. It also foregrounds women's participation in shaping these economies through fan labor and image management. While brand partnerships are common among male and female musicians, this book focus specifically on how female-identified musicians use them tactically to extend their commercial and creative longevity after they have established their recording careers by commodifying their creative acumen with either hegemonically feminine cultural knowledge or traditionally masculinized skills through branded consumer goods that they make in partnership with companies associated with the beauty, fashion, food, or musical equipment industries. Through textual and discourse analysis of artists' songs, music videos, interviews, social media usage, promotional campaigns, marketing strategies, and business decisions, Extending Play investigates how female-identified musicians co-create branded feminine-coded products like perfume, clothes, makeup, and cookbooks and masculine-coded products like music equipment as resources to work through their own ideas about gender and femininity as workers in industries that often use sexism and ageism to diminish women's creative authority and diminish the value of the recording in order to incentivize musicians to internalize the demands of industrial convergence--

A Verse for Caelum C.A. Rene, 2023-08-10 Sky I've been hit with a Cupid's arrow, and I can't seem to break free of its hold. No, not a Cupid. More like a Demon's curse. He has me trapped, drowning in the deep brown of his irises. I'm confined and bound by the devilish smirk that lines his sinful mouth. No matter how hard my mind tries to convince me to leave, My heart begs to stay exactly where I am, A prisoner to Hail O'Brien. Hail I wish I never laid eyes on her, the girl whose face brings me nightmares of another. She's a sinful package wrapped in an angel's bow and I'm the Demon ripping it open. I tried to turn my back, to let her go but I'm too weak. I'll use the excuse of protecting her to stick around but one day soon, She'll be nothing but a distant memory, a name on a tombstone, Sky Martin.

Voicing Girlhood in Popular Music Jacqueline Warwick,Allison Adrian,2016-06-10 This interdisciplinary volume explores the girl’s voice and the construction of girlhood in contemporary popular music, visiting girls as musicians, activists, and performers through topics that range from female vocal development during adolescence to girls’ online media culture. While girls’ voices are more prominent than ever in popular music culture, the specific sonic character of the young female voice is routinely denied authority. Decades old clichés of girls as frivolous, silly, and deserving of contempt prevail in mainstream popular image and sound. Nevertheless, girls find ways to raise their voices and make themselves heard. This volume explores the contemporary girl’s voice to illuminate the way ideals of girlhood are historically specific, and the way adults frame and construct girlhood to both valorize and vilify girls and women. Interrogating popular music, childhood, and gender, it analyzes the history of the all-girl band from the Runaways to the present; the changing anatomy of a girl’s voice throughout adolescence; girl’s participatory culture via youtube and rock camps, and representations of the girl’s voice in other media like audiobooks, film, and television. Essays consider girl performers like Jackie Evancho and Lorde, and all-girl bands like Sleater Kinney, The Slits and Warpaint, as well as performative 'girlishness' in the voices of female vocalists like Joni Mitchell, Beyoncé, Miley Cyrus, Taylor Swift, Kathleen Hanna, and Rebecca Black. Participating in girl studies within and beyond the field of music, this book unites scholarly perspectives from disciplines such as musicology, ethnomusicology, comparative literature, women’s and gender studies, media studies, and education to investigate the importance of girls’ voices in popular music, and to help unravel the complexities bound up in music and girlhood in the contemporary contexts of North America and the United Kingdom.
