Tooth and Claw Deborah Noyes,2019-04-30 The tale of the epic rivalry between two foundational paleontologists to find bigger and better bones in the American West, perfect for readers of Steve Sheinkin and Candace Fleming. Today we take for granted the idea that dinosaurs once roamed the earth. But two hundred years ago, the very concept of an extinct species did not exist. When an English scientist proposed in 1841 that Dino Saur (terrible lizards) had come and gone, it was only a theory, a new way of explaining the dragon and giant bones scattered across the globe. But when proof turned up seventeen years

later, it was not only incontrovertible; it was massive. Tooth and Claw tells the story of the feverish race between two brilliant, driven, and insanely competitive scientists--Edward Drinker Cope and Othniel Charles Marsh--to uncover more and more monstrous fossils in the newly opened Wild West. Between them, they discovered dozens of major dinosaur species and established the new discipline of paleontology in America. But their bitter thirty-year rivalry--a war waged on wild plains and mountains, in tabloid newsprint, and in Congress--dramatically wrecked their professional and private lives even as it brought alive for the public a vanished prehistoric world.

Tiger's Claw Dale Brown,2012-09-04 Former Air Force captain and New York Times bestselling author Dale Brown is an acknowledged master when it comes to bringing military action to breathtaking life and he has received glowing accolades since his debut publication, *Flight of the Old Dog*. *Tiger's Claw* proves once again that every rave has been well deserved. Set in the near future, *Tiger's Claw* imagines a scenario in which tensions escalate between an economically powerful China and a United States weakened by a massive economic downfall, bringing the two superpowers to the brink of total destruction. Brown's popular protagonist, retired Air Force lieutenant-general Patrick McLanahan (of *A Time for Patriots*, *Rogue Forces*, and other Brown bestsellers), is back with his son Brad McLanahan and they're preparing for the impending apocalyptic clash of men and military technology. The incomparable Dale Brown scores again with a frighteningly possible story of war and global politics that's ideal for fans of Vince Flynn and Brad Thor.
