Olympic Exclusions Jacqueline Kennelly, 2016-06-10 Olympic Games are sold to host city populations on the basis of legacy commitments that incorporate aid for the young and the poor. Yet little is known about the realities of marginalized young people living in host cities. Do they benefit from social housing and employment opportunities? Or do they fall victim to increased policing and evaporating social assistance? This book answers these questions through an original ethnographic study of young people living in the shadow of Vancouver 2010 and London 2012. Setting qualitative research alongside critical analysis of policy documents, bidding reports and media accounts, this study explores the tension between promises made and lived reality. Its eight chapters offer a rich and complex account of marginalized young people's experiences as they navigate the possibilities and contradictions of living in an Olympic host city. Their stories illustrate the limits to the promises made by Olympic bidding and organizing committees and raise important questions about the ethics of public funding for such mega-events. This book will be fascinating reading for anyone interested in the Olympics, sport and social exclusion, and sport and politics, as well as for those working in the fields of youth studies, social policy and urban studies.

Practical Dreamers Mike Hoolboom, 2004-04-14 'The streets are full of admirable craftsmen, but so few practical dreamers.' – Man Ray What if there were movies made the same way as suits, custom fitted, each one tailored for one person? Not broadcast, but narrowcast? Not theatres around the world showing the same globalized pictures, but instead a local circumstance, a movie so particular, so peculiar, it could cure night blindness or vertigo? Welcome to the world of fringe movies, where artists have been busy putting queer shoulders to the wheels, or bending light to talk about First Nations rights (and making it funny at the same time), or demonstrating how a personality can be taken apart and put together again, all in the course of a ten-minute movie which might take years to make. Practical Dreamers takes us to this other side of the media plantation. In it, twenty-seven Canadian artists dish about how they get it done and why it matters. The conversations are personal, up close and jargon free, smart without smarting. The stellar cast includes smartbomb Steve Reinke; visionary Peter Mettler; Middle East specialist Jayce Salloum; queer Asian avatars Richard Fung, Midi Onodera, Ho Tam, and Wayne Yung; footage recyclers Aleesa Cohene and Jubal Brown;

overhead projector king Daniel Barrow; First Nations vets Kent Monkman and Shelley Niro; international art presence Paulette Philips; and documentarian Donigan Cumming. These in-depth talks come lavishly illustrated in an oversized volume.

The Edge of Sleep David Wiltse, 2016-09-26 Becker searches Appalachia for a bizarre pair of serial killers. Dee tears through the closet, looking for something to beat Ash with. The hangers are no good, so she asks for his belt. He hands it over willingly, and hangs his head as she beats him unconscious. Her rages have gotten worse ever since they started kidnapping the boys. Ash does not mind the pain, but the boys cry when Dee beats them. It hurts Ash to hear them cry, for he loves the boys dearly—so dearly that he is always willing to kill them to stop the tears. When another boy vanishes from an Appalachia shopping mall, the FBI calls on retired agent John Becker, who knows better than anyone how serial killers think. But Dee and Ash are not like any killer he has chased before, and catching them will mean going into a darker place than he ever has before.

One Eye on the World John L. Shields, 2020-03-31 One Eye on the World takes readers on a serious yet humorous journey of the glory years of the newspaper industry. This was before the sad state of many faltering newspapers and the biased media in today's world. The book's title comes from the author, John L. Shields, losing one eye at one and a half years old. Having only one eye impacted John's life, but he turned it into a positive and was known for his unusual sense of humor. Throughout a career in several states—West Coast, East Coast, and in between—his path crossed with well-known entertainers, politicians, and news makers. Readers will find an interesting recounting of history, from John's birth in 1942 through the present. The author had a front row seat to some of the most dramatic changes in US history—events that changed the world. Readers will ride along with someone who spent almost fifty years in newspapers as a newspaper carrier, circulation mail-room employee, reporter, sports editor, editor, supervisor for groups of newspapers, and CEO/publisher. Those years—from 1959 to 2007—were some of the most turbulent, and brought some of the most dramatic changes for the country, both good and bad. John's stories give readers insight into a reporter-editor-photographer covering schools, tragedies, corruption, and human interest. These stories bring readers into the newsroom of daily newspapers, and how decisions are made.

Design as Democracy David de la Pena, Diane Jones Allen, Randolph T. Hester, Laura J. Lawson, 2017-12-07 How can we design places that fulfill urgent needs of the community, achieve environmental justice, and inspire long-term stewardship? By bringing community members to the table with designers to collectively create vibrant, important places in cities and neighborhoods. For decades, participatory design practices have helped enliven neighborhoods and promote cultural understanding. Yet, many designers still rely on the same techniques that were developed in the 1950s and 60s. These approaches offer predictability, but hold waning promise for addressing current and future design challenges. Design as Democracy is written to reinvigorate democratic design, providing inspiration, techniques, and case stories for a wide range of contexts. Edited by six leading practitioners and academics in the field of participatory design, with nearly 50 contributors from around the world, it offers fresh insights for creating meaningful dialogue between designers and communities and for transforming places with justice and democracy in mind.
