G.A.B.O.S. Tyler Gore,2013-05 Damn, it's been a long time coming. But it's finally here, Pokey said to no one in particular, as the day arrived for him to be released from the prison that held him hostage against his own will for the last eighteen months, day by day, as he walked out the open gates. He was blinded by the bright sun. Reaching up to cover his eyes, he heard a horn blowing. Looking around for the sound of the horn, he spotted his mother's beat-up Honda. As he watched his mother get out of the car and slowly walk toward him, Pokey had one thing in mind. Man, I gotta make sum Major Doe, he was thinking, as his mother reached out and gave him a hug. Thanks, Mom. Glad I didn't have to ride that stank-ass bus all the way home, he told his mother, who just smiled as she turned around and made her way back to the car, with Pokey on her heels. I don't know what you coming on this side for, his mother said, pushing him over to the driver's side. You driving, she said. I gotta get some beauty sleep, she said, sliding in the car. On the ride home, it was quiet, with Pokey in his own thoughts. As he was listening to his mother snore lightly, he promised, Momma, I'mma make shit happen. Being in prison, Pokey learned a lot, but he also learned that if you want something bad enough, you gotta go get it. With that in mind and the words Old School used to tell him all the time. Young blood, you gotta be ruthless in the game of life. Sometimes you will be forced to bite the hands that feed you, so always keep in mind game ain't based on sympathy. If a motherfucker wanna get in your way, don't hesitate to roll over them, and leave them where they lay. As he was in deep thought, his mother brought him back to the here and now. So, boy, now that you free, what you gonna do to stay free? his mother asked, turning in her seat to face him. Whatever I gotta do, Pokey said, keeping it real. So you gonna get a job? his mother asked. Never, Mom. You know me. I ain't working no nine-to-five for no minimum wage so that working shit is dead, he said. While driving, as he looked out the corner of his eye, he saw his mother shake her head, as she closed her eyes and stopped talking. But he went back to thinking. Damn shit crazy, when ya own momma trying to keep you down, she on some get a job' shit, but I'mma live and die in the streets. As he pulled up in the projects, where they stayed, he noticed nothing has changed, but changes were about to take place, if he had something to do with it. My thing is, to be paid and get my game sharper than a motherfucking razor blade. As he pulled up and parked, he said, Ma, we here. Waking up, all his mother did was look at him, then exit the car. As Pokey watched his mother enter the house, he said, This the shit I'm talking about, a nigga been gone eighteen months, leave with nothing and come home with nothing, so it's time I make something. Looking around, shaking his head at all the dirty buildings that held this project together, his last thought was, Now I gotta get some soldiers on my team and make this picture come to life, as he looked around one more time before walking into the house. He mumbled, GABOS, this time around, that's how it's gonna be. Niggaz showed no love, they receive none. With that being said, he walked into the house ready to take a nice long shower before he could formulate his next move, not forgetting his next move better be his best move 'cause GABOS.

Their only hope to save humanity is to eradicate the AI by beating it at its own game. And who better to accomplish that than the teen gamers obsessed with Razer. A secret agency of the government has been aware of the AI war, such as it is, and has launched an offensive by using the very segment of the population that the AI is targeting, teens, and recruiting them to fight on a virtual video game battlefield with an enemy consisting of cyborgs led by a ruthless and ganglike AI leader of the same name, Razer. Now Oliver and Logan are part of those teens recruited into gaming assault troops, launching a coordinated global strike to force their way into the AI's mainframe and take it down...before it's too late. Queers in American Popular Culture [3 volumes] Jim Elledge,2010-10-06 This three-volume collection of essays reveals the widespread existence of queer men and women in American popular culture, and showcases their important yet little-known role in shaping our society over the last 120 years. The virtually unknown existence of gay, bisexual, and queer men and women in American popular culture from the late 1800s through the present day is a fascinating topic for many readers, regardless of their own orientation. Whether it's the father of bodybuilding, famous closeted entertainers or sports stars, or the leading characters in current television shows and films, queer men and women have changed the face of American popular culture and society for over a century. Ironically, most of the fascinating information, anecdotes, and revealing facts about well-known figures in American culture are virtually unknown to the typical U.S. citizen. Elledge's Queers in American Popular Culture covers a wide variety of historical and current topics that documents how the queer community has

been—and continues to be—one of the most significant shapers of American popular culture. Currently, no other book covers queer topics in American popular culture as broadly as this text.

Abortion, Execution, and the Consequences of Taking Life James D. Slack,2011-12-31 This book focuses on the relationship between public morality and personal action in the American political community. It emphasizes the responsibilities of citizens and government to find and confirm truth, looking to specific sources: religious scripture and empirical events. Recognizing that we have a natural preference for distraction and distance from both sources of truth, Slack uses qualitative, open-ended interviews and direct observation to uncover the intimate consequences of life-taking in open societies. Abortion and murder/capital punishment are instances in which there is a sequence of events that result in life-taking. The act of murder denies the sanctity of life of someone else. Abortion and capital punishment also deny the sanctity of the lives of others. The intimacy of life-taking is not typically acknowledged or remains hidden. This makes it difficult to assess the consequences for victims, survivors, and the political community as a whole. As a result, there is only a tenuous link between public actions that question the sanctity of human life and the moral compass professed by the American democracy. The volume presumes a theocentric foundation envisioned by the American Founders. It explores the model's first source of truth, biblical scripture, as it applies to the public actions of murder, abortion, and capital punishment. Then it investigates the intimate reality of these acts. These realities are examined in a variety of settings, resulting in a mosaic pattern of public action about capital punishment and abortion. Slack underscores the importance of government's role of providing outward justice, as well as the citizen's responsibility to be supportive of government tasks in order to reconcile the reality of life-taking with the moral compass professed in the American political community.

Animal - Bad Things Happen When Good Men Do Nothing Paul Jones,2012-09-01 Animal is set in and around a beautiful Welsh seaside town. Money is tight and the residents are fed up with their crime-infested community, so a group of renegade martial artists decide to take the law into their own hands and become hired vigilantes. In the centre of this all is Will Thomas, a martial artist and friend to the watchmen. Will is back in town after spending three years in prison for grievous bodily harm. His sole purpose is to try and win back his ex-fiancée, Stacey. Meanwhile, problems arise for the vigilantes when one of their victims turns out to be a mule for a dangerous Merseyside gang. Now the hunters have suddenly become the hunted and, in desperation, they turn to their old friend Will for help. But Will has turned over a new leaf and has managed to build the foundations for a new relationship with his Stacey. Is he willing to risk everything to help them? Animal is a work of crime fiction, weaved with a little romance and plenty of martial arts, for readers who want a glimpse of criminals getting a taste of their own medicine. Paul is mostly influenced by James Herbert, whose writing style he emulates.

Total Propaganda Helen Razer,2020-09-05 A cheeky introduction to Marxism and socialism for everyone fed up with their capitalist woes. Millennials have it bad. They face the problems of underemployment, unaffordable housing, and economists who write crap columns telling them it's their fault for taking an Uber to brunch. Today the future's so dark we need night vision goggles, not a few liberal guys shining a torch on a sandwich. Maybe today we could use the light of Karl Marx. Marx may not have had much to say about brunch in the twenty-first century, but he sure had some powerful thoughts about where the system of capitalism would land us. Over time, it would produce a series of crises, he said, before pushing the wealth so decisively up that the top-heavy system would come crashing down with a push. Pushy old communist Helen Razer offers an introduction to the thought of Marx for Millennials and anyone else tired of wage stagnation, growing global poverty, and economists writing desperate columns saying everything would work better if only we stopped eating avocado toast.

Fighting Mad Michael Calvert,2004-11-30 Michael Calvert was one of the legendary figures of the Second World War. He hit the headlines as 'Mad Mike' after the first Chindit campaign in 1943, with a reputation as a tough and daring leader of guerrilla troops. He was one of the first men selected for the Chindits by the controversial General Orde Wingate. He became Wingate's right-hand man - both in fierce jungle fighting and in battles against stick-in-the-mud staff officers. His speciality was penetrating behind enemy lines. Mad Mike fought in the snow and ice of Norway, in the steaming jungles of Burma, and on the battlefields of Europe where in 1945 he commanded the crack Special Air Service Brigade.
