Why We're Polarized Ezra Klein,2020-01-28 ONE OF BARACK OBAMA'S FAVORITE BOOKS OF 2022 One of Bill Gates's "5 books to read this summer," this New York Times and Wall Street Journal bestseller shows us that America's political system isn't broken. The truth is scarier: it's working exactly as designed. In this "superbly researched" (The Washington Post) and timely book, journalist Ezra Klein reveals how that system is polarizing us—and how we are polarizing it—with disastrous results. "The American political system—which includes everyone from voters to journalists to the president—is full of rational actors making rational decisions given the incentives they face," writes political analyst Ezra Klein. "We are a collection of functional parts whose efforts combine into a dysfunctional whole." "A thoughtful, clear and persuasive analysis" (The New York Times Book Review), *Why We're Polarized* reveals the structural and psychological forces behind America's descent into division and dysfunction. Neither a polemic nor a lament, this book offers a clear framework for understanding everything from Trump's rise to the Democratic Party's leftward shift to the politicization of everyday culture. America is polarized, first and foremost, by identity. Everyone engaged in American politics is engaged, at some level, in identity politics. Over the past fifty years in America, our partisan identities have merged with our racial, religious, geographic, ideological, and cultural identities. These merged identities have attained a weight that is breaking much in our politics and tearing at the bonds that hold this country together. Klein shows how and why American politics polarized around identity in the 20th century, and what that polarization did to the way we see the world and one another. And he traces the feedback loops between polarized political identities and polarized political institutions that are driving our system toward crisis. "Well worth reading" (New York magazine), this is an "eye-opening" (O, The Oprah Magazine) book that will change how you look at politics—and perhaps at yourself.

Dava Shastri, one of the world's wealthiest women, has always lived with her sterling reputation in mind. A brain cancer diagnosis at the age of seventy, however, changes everything, and Dava decides

to take her death—like all matters of her life—into her own hands. Summoning her four adult children to her private island, she discloses shocking news: in addition to having a terminal illness, she has arranged for the news of her death to break early, so she can read her obituaries. As someone who dedicated her life to the arts and the empowerment of women, Dava expects to read articles lauding her philanthropic work. Instead, her death reveals two devastating secrets, truths she thought she had buried forever. And now the whole world knows, including her children. In the time she has left, Dava must come to terms with the decisions that have led to this moment—and make peace with those closest to her before it's too late. Compassionately written and chock-full of humor and heart, this powerful novel examines public versus private legacy, the complexities of love, and the never-ending joys—and frustrations—of family. The Big Disconnect Catherine Steiner-Adair, EdD., Teresa H. Barker, 2013-08-13 Wall Street Journal Best Nonfiction Pick; Publisher's Weekly Best Book of the Year Clinical psychologist Catherine Steiner-Adair takes an in-depth look at how the Internet and the digital revolution are profoundly changing childhood and family dynamics, and offers solutions parents can use to successfully shepherd their children through the technological wilderness. As the focus of the family has turned to the glow of the screen—children constantly texting their friends or going online to do homework; parents working online around the clock—everyday life is undergoing a massive transformation. Easy access to the Internet and social media has erased the boundaries that protect children from damaging exposure to excessive marketing and the unsavory aspects of adult culture. Parents often feel they are losing a meaningful connection with their children. Children are feeling lonely and alienated. The digital world is here to stay, but what are families losing with technology's gain? As renowned clinical psychologist Catherine Steiner-Adair explains, families are in crisis as they face this issue, and even more so than they realize. Not only do chronic tech distractions have deep and lasting effects but children also desperately need parents to provide what tech cannot: close, significant interactions with the adults in their lives. Drawing on real-life stories from her clinical work with children and parents and her consulting work with educators and experts across the country, Steiner-Adair offers insights and advice that can help parents achieve greater understanding, authority, and confidence as they engage with the tech revolution unfolding in their living rooms.
