The Spoils Jesse Eisenberg,2016-06-28 Nobody likes Ben. Even Ben doesn't like Ben. He bullies everyone in his life, including his roommate Kalyan, an earnest Nepalese immigrant. When Ben discovers that his school crush is marrying a straight-laced banker, he sets out to destroy their relationship and win her back. Cyber Wars Charles Arthur,2018-05-03 *Cyber Wars* gives you the dramatic inside stories of some of the world's biggest cyber attacks. These are the game changing hacks that make organizations around the world tremble and leaders stop and consider just how safe they really are. Charles Arthur provides a gripping account of why each hack happened, what techniques were used, what the consequences were and how they could have been prevented. Cyber attacks are some of the most frightening threats currently facing business leaders and this book provides a deep insight into understanding how they work, how hackers think as well as giving invaluable advice on staying vigilant and avoiding the security mistakes and oversights that can lead to downfall. No organization is safe but by understanding the context within which we now live and what the hacks of the future might look like, you can minimize the threat. In *Cyber Wars*, you will learn how hackers in a TK Maxx parking lot managed to steal 94m credit card details costing the organization \$1bn; how a 17 year old leaked the data of 157,000 TalkTalk customers causing a reputational disaster; how Mirai can infect companies' Internet of Things devices and let hackers control them; how a sophisticated malware attack on Sony caused corporate embarrassment and company-wide shut down; and how a phishing attack on Clinton Campaign Chairman John Podesta's email affected the outcome of the 2016 US election.

Affective Health and Masculinities in South Africa Hans Reihling,2020-04-03 *Affective Health and Masculinities in South Africa* explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

Women and the Labour Market Teresa Rees,2022-08-24 The labour market was undergoing considerable change. In particular, the advance of new technology and the development of positive action training for women had the potential to change patterns of gender segregation in the workplace. Originally published in 1992, Teresa Rees draws on a wide range of international studies of these issues and discusses them in the context of current theoretical and political debate. Based on work carried out by the author in Britain, Germany and Australia, *Women and the Labour Market* focuses on education and training policy, changes in labour supply, and changes in the nature and size of labour demand. It highlights the obstacles to equality at work, showing how the ideology of the family, the limitations of material reality and the exclusionary mechanisms operated by men have had an adverse impact upon women's experiences of paid work. As well as underlining the power of patriarchy in shaping the labour market, *Women and the Labour Market* also discusses the development of policy measures which might have some effect on breaking down gender inequalities. An important contribution to debates at the time, the study puts forward practical suggestions for adjusting the system at the key points of recruitment, training and work organisation.
