The Qur'an & Modern Science: Compatible or Incompatible? Zakir Naik,2007 Ever since the dawn of human life on this planet, Man has always sought to understand Nature, his own place in the scheme of Creation and the purpose of Life itself. In this quest for Truth, spanning many centuries and diverse civilizations, organized religion has shaped human life and determined to a large extent, the course of history. While some religions have been based on books, claimed by their adherents to be divinely inspired, others have relied solely on human experience. This is a felicitous translation by Christopher R. King and will enable many readers to

appreciate Premchand's important novel, available for the first time in English
