The McRae Families of Harrison Co. and Their Ancestors Catherine Kelley Summers,1993 The first ancestor in America was Alexander McRae who was born in Scotland and immigrated to North Carolina in about 1745. His son was Alexander McRae (1745-1826) who married Catherine McRae. They were the parents of four children. They eventually settled in Harrison County, Indiana. Descendants live in Indiana and other parts of the United States.

Trade Wars Nils Ole Oermann,Hans-Jürgen Wolff,2022-11-03 This book explores the causes and instruments of 500 years of armed and non-armed international trade conflicts. Nils Ole Oermann and Hans-Jürgen Wolff draw on decades of experience to examine trade wars, economic sanctions, and different types of economic warfare, investigating their history, ethics, economic driving forces, and legality under current rules. They provide a clear and accessible account of the economics of trade, of trade and financial policy since the nineteenth century, and of the effectiveness of sanctions and the 'winnability' of trade wars. The book also describes the transformation of economic warfare since 1989, namely in cyberspace and in the world financial system, and shows how China's rise challenges the Western model of democracy and free market economies. The authors conclude with a plea for improved economic statecraft and an overhaul of the current trading regime.

Dis/inhibition, First Edition Nancy E. Shaffer,2012 Valerie Running Deer is a brash, brilliant neuroscience graduate student. Elizabeth Baldwin is her uptight, control-freak advisor. Elizabeth and Valerie's relationship has always been a battle of wills, but when Elizabeth hands over one of Valerie's original research ideas to another student, Valerie fires the shot that turns their cold war into a hot one: she makes a pass at Elizabeth's daughter Lisa, a coy, impetuous teen who has been harboring a crush on her. Valerie's spiteful impulse is diffused when she starts to fall for Lisa behind Elizabeth's back, but a confrontation is inevitable. Valerie's tumultuous journey towards it will entangle her in the circuitous dance of the relationships around her as friends, colleagues, and family struggle to balance need and trust, impulse and restraint. Control freaks. Hot heads. Timid artists. Impulsive kids. Dis/inhibition explores the complications of self-control both outside and inside the scientific laboratory.

Family Acts Louise Shaffer,2008-12-10 Louise Shaffer follows her beloved novels *The Three Miss Margarets* and *The Ladies of Garrison Gardens* with an unforgettable tale of poignancy, wit, and high drama. Katie Harder and Randa Jennings live on opposite coasts, have never met, and have almost nothing in common-except that they're both named after Shakespearean characters. Everything Katie has ever done or possessed-her New York City co-op, her career as a writer for a daytime drama-was given to her by her late mother, in her day a flamboyant soap opera queen. Randa, on the other hand, has escaped the trappings of a difficult past and forged a life as a single mom, juggling her work as a Hollywood business manager with the needs of her precocious eleven-year-old daughter. Life takes an unpredictable turn for these two strangers when they jointly inherit the century-old Venable Opera House, a stately but run-down theater in small-town Georgia. Puzzled at this peculiar legacy, Katie and Randa are at first eager to unload their white elephant. But as they spend more time in the old theater, they come to realize that a rich heritage is at stake. A line of strong women-starting with Juliet Venable in the late nineteenth century-has been responsible for keeping the grand old place up and running. In the face of huge obstacles, including a dying theater culture and their own personal struggles, these singular women have gone to drastic measures to keep the opera house in the family-including burying a devastating family secret that could destroy the carefully cultivated Venable legend forever. Now, as a local contractor seeks to tear down the landmark, Katie and Randa must decide not only if they want to unravel their mysterious connection to the theater and maintain its tradition but if they have what it takes to keep the Venable family legacy alive. A sprawling page-turner about maintaining family honor and lifelong dreams, *Family Acts* is Louise Shaffer's most powerful and assured novel to date.

Digital Influence Mercenaries James (J.F.) Forest,2022-04-15 In today's online attention economy, supply and demand have created a rapidly growing market for firms and entrepreneurs using the tactics, tools, and strategies of digital influence warfare to gain profit and power. This book focuses on the more malicious types of online activity such as deception, provocation, and a host of other dirty tricks conducted by these digital influence mercenaries. They can be located anywhere with an Internet connection--Brazil, China, Iran, Macedonia, Russia, Zimbabwe--and the targets of their influence efforts can be whomever and wherever they are paid to attack. They can do this for state governments willing to pay and provide their targeting instructions (usually in support of foreign policy objectives) and may have specific metrics by which they will assess the mercenaries' performance. Non-state actors (including corporations and political parties) can pay for these kinds of digital influence services as well. And in addition to being paid for services rendered, digital influence mercenaries can also profit simply by manipulating the targeted advertising algorithms used by social media platforms. James J. F. Forest describes in detail the various tools and tactics these mercenaries use to exploit the uncertainties, fears, and biases of their targets including bots, deep-fake images, fake news, provocation, deception and trolling. He also shows how they weaponize conspiracy theories and disinformation to manipulate people's beliefs and perceptions. Forest also highlights how government agencies and social media platforms are trying to defend against these foreign influence campaigns through such tactics as shutting down offending websites, Facebook pages, and YouTube channels; tagging disinformation with warning labels; identifying and blocking coordinated inauthentic behavior; and suspending social media accounts, often permanently. European and North American governments have launched numerous investigations against these mercenaries, and in some cases have brought criminal charges. Forest concludes with suggestions for how

each of us can learn to identify disinformation and other malicious efforts and defend ourselves in the future.
