On the Border of Language and Dialect Marjatta Palander, Helka Riionheimo, 2018-04-23 This volume considers the linguistic borders between languages and dialects, as well as the administrative, cultural and mental borders that reflect or affect linguistic ones; it comprises eight articles examining the mental borders between dialects, dialect continua and areas of mixed dialect, language ideologies, language mixing and contact-induced language change. The book opens with Dennis R. Preston's review article on perceptual dialectology, showing how this field of study provides insights on laymen's perceptions about dialect boundaries, and how such perceptions explain regional and social variation. Johanna Laakso problematizes the common notion of languages as having clear-cut boundaries and stresses the artificialness and conventionality of linguistic borders. Vesa Koivisto introduces the Border Karelian dialects as an example of language and dialect mixing. Marjatta Palander and Helka Riionheimo's article examines the mental boundaries between Finnish and Karelian, demonstrated by the informants when recalling their fading memories of a lost mother tongue. Niina Kunnas focuses on how speakers of White Sea Karelian perceive the boundaries between their language and other varieties. Within the framework of language ideology, Tamás Péter Szabó highlights the ways in which linguistic borders are interactionally (co)constructed in the school environment in Hungary and Finland. Anna-Riitta Lindgren and Leena Niiranen present a contact-

linguistic study investigating the vocabulary of Kven, a variety lying on the fuzzy boundary of a language and a dialect. Finally, Vesa Jarva and Jenni Mikkonen approach demographically manifested linguistic boundaries by examining the Old Helsinki slang, a mixture of lexical features derived from Finnish and Swedish. Together, the articles paint a picture of a multidimensional, multilingual, variable and ever-changing linguistic reality where diverse borders, boundaries and barriers meet, intertwine and cross each other. As a whole, the articles also seek to cross disciplinary and methodological boundaries and present new perspectives on earlier studies.

Gustafsson, 2020-12-10 Sander driver omkring i Milano. Det hade varit den bästa av tid för några ögonblick sen i Sverige. Antagligen så hade alla startat med de bästa av avsikter, desperata att känna någonting som var större än det utstakade. Ett sätt att hålla sig undan ekorrhjulet. Men folk hade börjat försvinna. Allt hade gått fort, som på ett ögonblick. Vi blinkar alla bort sex sekunder av våra liv per minut och för varje gång vi öppnar ögonen är livet kortare, men det kan också se väldigt annorlunda ut. Sanders ögon blinkade till där hemma i Sverige och det som hade varit dunkelt hade plötsligt förvandlats till pulserande liv. Mitt i ett sommarregn fann han en gud och hon dansade. Ögonen slöts, öppnades igen och Sander kände sig iakttagen och förföljd. Sex sekunder av en minut passerar och tunnelbanenedgången luktar ammoniak av gammalt piss. Med en pistol gömd under tröjan står han femton trappsteg ner när han

blinkar igen.

The Turkish Peace Hazrat Mirza Bashir-ud-Deen Mahmood Ahmad, 2019-04-11 The Turkish Peace is a collection of two addresses by Hazrat Mirza Bashir-ud-Deen Mahmood Ahmad (ra) in the nascent days of the pan-Islamic protest campaign known as the Khilafat Movement, which sought the preservation of the rule of the Sultan of Turkey following the end of the First World War. With great clarity, foresight and understanding, Huzoor not only offered a detailed and layered analysis of how this objective could be achieved but also argued that if Muslims wished to have their voices heard on the global stage, guide policy and be seen as equals of the rest of the world, they would have to unite and work with the longer term objective of curing people of their prejudices against Islam and acquainting them with its pure, progressive, and peaceful teachings. These addresses were an essential word of counsel for the Muslims of the time. They also deal with some of the most pressing issues Muslims face today.

Warhol-isms Andy Warhol, 2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he

did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." Warhol-isms separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody who does something well. I went to [a psychiatrist] once, and he never called me back. They always say that time changes things, but you actually have to change them yourself. I've never met a person I couldn't call a beauty. New things are always better than old things. I'm still a commercial artist. I was always a commercial artist.

Ethics for A-Level Mark Dimmock, Andrew Fisher, 2017-07-31 What does pleasure have to do with morality? What role, if any, should intuition have in the formation of moral theory? If something is 'simulated', can it be immoral? This accessible and wide-ranging textbook explores these questions and many more. Key ideas in the fields of normative ethics, metaethics and applied ethics are explained rigorously and

systematically, with a vivid writing style that enlivens the topics with energy and wit. Individual theories are discussed in detail in the first part of the book, before these positions are applied to a wide range of contemporary situations including business ethics, sexual ethics, and the acceptability of eating animals. A wealth of real-life examples, set out with depth and care, illuminate the complexities of different ethical approaches while conveying their modern-day relevance. This concise and highly engaging resource is tailored to the Ethics components of AQA Philosophy and OCR Religious Studies, with a clear and practical layout that includes end-of-chapter summaries, key terms, and common mistakes to avoid. It should also be of practical use for those teaching Philosophy as part of the International Baccalaureate. Ethics for A-Level is of particular value to students and teachers, but Fisher and Dimmock's precise and scholarly approach will appeal to anyone seeking a rigorous and lively introduction to the challenging subject of ethics. Tailored to the Ethics components of AQA Philosophy and OCR Religious Studies.

Montecore Jonas Hassen Khemiri, 2011-03-01 At the start of this dazzlingly inventive novel from Jonas Hassen Khemiri, Abbas, a world-famous photographer and estranged father to a young novelist—also named Jonas Hassen Khemiri—is standing on a luxurious rooftop terrace in New York City. He is surrounded by rock stars, intellectuals, and political luminaries gathered to toast his fiftieth birthday. And yet how did Abbas, a dirt-poor Tunisian orphan and Swedish

émigré, come to enjoy such success? Jonas is fresh off the publication of his first novel when answers to this question come in the form of an unexpected e-mail from Kadir, a lifelong friend of Abbas and an effervescent storyteller with delightfully anarchic linguistic idiosyncrasies. The portrait Kadir paints of Abbas—from a voluntarily mute boy who suffers constant night terrors, to a soulful young charmer, to a Swedish immigrant and political exile—proves to be vastly different from Jonas's view of his father. As the two jagged versions reconcile in Kadir and Jonas's impassioned correspondence, we're given a portrayal of a man that is at once tender and feverishly imagined. With an arresting blend of humor and wit, Montecore marks the stateside arrival of an already acclaimed international novelist. Winner of the PO Enquist Literary Prize for accomplished European novelists under forty, Jonas Hassen Khemiri has created a world that is as heartbreaking as it is exhilarating. From the Hardcover edition.

Disability and Democracy Thomas M. Skrtic, 1995

The text examines current practice in special education from a variety of metatheoretical perspectives: functionalism, interpretivism, radical structuralism, and radical humanism. Part 1 deconstructs the professions by showing how they are undermined by postmodern theories of knowledge, and proposes pragmatism as a method for reconstructing the profession of education. Part 2 describes special education, disability, and social justice from a variety of modern

perspectives. Part 3 presents alternative modern and postmodern ways of reframing the problem of school failure, and proposes a new organizational form for schools that, informed by pragmatism, would enable a critical reconstruction of special education, public education, and contemporary society.

Everything I Don't Remember Jonas Hassen Khemiri, 2017-09-12 Everything I Don't Remember is

a gripping tale about love and memory. But it is also a story about a writer who, by filling out the contours of Samuel's story, is actually trying to grasp a truth about himself. In the end, what remains of all our fleeting memories? And what is hidden behind everything we don't remember?--

The Future of Whiteness Linda Martín

Alcoff, 2015-10-12 White identity is in ferment. White, European Americans living in the United States will soon share an unprecedented experience of slipping below 50% of the population. The impending demographic shifts are already felt in most urban centers and the effect is a national backlash of hyper-mobilized political, and sometimes violent, activism with a stated aim that is simultaneously vague and deadly clear: 'to take our country back.' Meanwhile the spectre of 'minority status' draws closer, and the material advantages of being born white are eroding. This is the political and cultural reality tackled by Linda Martín Alcoff in *The Future of Whiteness*. She argues that whiteness is here to stay, at least for a while, but that half of whites have given up on ideas of white supremacy, and the shared public, material culture is more integrated than ever. More and more, whites are becoming aware of how they appear to non-whites, both at home and abroad, and this is having profound effects on white identity in North America. The young generation of whites today, as well as all those who follow, will have never known a country in which they could take white identity as the unchallenged default that dominates the political, economic and cultural leadership. Change is on the

horizon, and the most important battleground is among white people themselves. The Future of Whiteness makes no predictions but astutely analyzes the present reaction and evaluates the current signs of turmoil. Beautifully written and cogently argued, the book looks set to spark debate in the field and to illuminate an important area of racial politics.

I Call My Brothers Jonas Hassen

Khemiri, 2015-02-01 A car has exploded. A city has been crippled by fear. Amor wanders around the city, doing his best to blend in. He's going to exchange a drill head. He's going to call his brothers. He's going to stop stalking Valeria and take care of his long-since-dead grandma. Most important of all: he must not attract any suspicious glances. But what is normal behaviour? Who is a potential perpetrator? And how many times can Shavi call in one day? For 24 intense hours we find ourselves in Amor's head, where the lines between criminal and victim, love and chemistry, and fantasy and reality become more and more blurred.

Towards Openly Multilingual Policies and Practices Johanna Laakso, Anneli Sarhimaa, Sia Spiliopoulou Åkermarck, Reetta Toivanen, 2016-03-03 This book investigates the maintenance of multilingualism and minority languages in 12 different minority communities across Europe, all of which are underrepresented in international minority language studies. The book presents a number of case studies covering a broad range of highly diverse minorities and languages with different historical and socio-political

backgrounds. Despite current legislation and institutional and educational support, the authors surmise there is no guarantee for the maintenance of minority languages, suggesting changes in attitudes and language ideologies are the key to promoting true multilingualism. The book also introduces a new tool, the European Language Vitality Barometer, for assessing the maintenance of minority languages on the basis of survey data. The book is based on the European Language Diversity for All (ELDIA) research project which was funded by the European Commission (7th framework programme, 2010–2013).
