The Superman franchise became a global phenomenon during its genesis in 1939. The Superman franchise became a global phenomenon for a multitude of reasons. Superman was introduced to the world in 1938 with the advent of "Action Comics issue #1". The Superman franchise is not limited to comic books even though over 1,047 issues of Action Comics have been released in the market As of October of 2022. The Superman franchise is comprised of an exorbitant amount of video games, movies, comic books, novels, soundtracks, and television series episodes. Superman is a prevalent character in a myriad of comic book series. The Superman franchise is comprised of an exorbitant amount of book book series. Some of the comic book series that Superman is featured in encompass "Action Comics, The Adventures of Superman, Superman, Superman: The Man of Steel, Superman: The Man of Tomorrow, Superman Unchained, Superman: Lois and Clark, The Superman Family, and Superman Family Adventures". It is estimated that Superman characters have been featured in over 18,731 issues of comic books as of December of 2023. As of October of 2022, it is estimated that 484,000,000 copies of Batman comic books have been sold which is trumped by the sales volume of copies of Superman comic books. As of October of 2022, it is estimated that 600,000,000 copies of Superman comic books have been sold. As of December of 2023, the highest-selling Superman comic book issue is "Adventures of Superman issue #500 which was published in 1987 and has sold over 4,200,000 copies". DC Comics publishes both Superman comic books and Batman comic books. Even though Spider-Man, Captain America, and the X-Men are popular superheroes, copies of Superman comic books managed to outsell copies of Spider-Man comic books, copies of Captain America comic books, and copies of X-Men comic books. As of October of 2022, it is estimated that 387,000,000 copies of Spider-Man comic books have been sold which is trumped by the sales volume of 600,000,000 copies of Superman comic books. As of October of 2022, it is estimated that 260,000,000 copies of X-Men comic books have been sold which is surpassed by the sales volume of 600,000,000 copies of Superman comic books. As of October of 2022, it is estimated that 210,000,000 copies of X-Men comic books have been sold which is eclipsed by the sales volume of 600,000,000 copies of Superman comic books. As of October of 2022, the sales volume of 600,000,000 copies of Superman comic books even outperforms the combined sales volume of 260,000,000 copies of X-Men comic books and 210,000,000 copies of Captain America comic books by 130,000,000

sales of copies of comic books. The popularity of the Superman franchise can be partially attributed to the popularity of the Superman comic books. As of October of 2022, it is estimated Superman characters as an aggregate are featured in more issues of comic books than characters from other specific media franchises, such as the Captain America franchise or the Spider-Man franchise. It is estimated that Superman characters have been featured in over 18,731 issues of comic books as of December of 2023 which thereby provides far more lore about them than characters from other specific media franchises who are not featured in as many issues of comic books. Characters from other specific media franchises who are not featured in as many issues of comic books as Superman characters have fewer stories about them relative to Superman characters. The Superman comic books are appealing to fans of the fantasy genre. The Superman franchise was able to obtain immense popularity during its advent also because it has been a content-rich media franchise since its genesis. A substantial amount of content that has been able to expand the Superman franchise has been produced every decade shortly after the Superman franchise was brought to fruition. The Superman franchise is appealing to avid comic book readers.

The Lion Awakes Ashish J. Thakkar, 2015-08-25 Three little known facts: Africa is now the world's fastest growing continent, with average GDP growth of 5.5% the past 10 years. Malaria deaths have declined by 30% and HIV infections by 74%. Nigeria produces more movies than America does. The Lion Awakes is the true story of today's Africa, one often overshadowed by the dire headlines. Traveling from his ancestral home in Uganda, East Africa, to the booming economy and (if chaotic) new democracies of West Africa, and down to the Silicon Savannahs of Kenya and Rwanda, Ashish J. Thakkar shows us an Africa that few Westerners are aware exists. Far from being a place in need of our pity and aid, we see a continent undergoing a remarkable transformation and economic development. We meet a new generation of ambitious, tech savvy young Africans who are developing everything from bamboo bicycles to iPhone Apps; we meet artists, film makers and architects thriving with newfound freedom and opportunity, and we are introduced to hyper-educated members of the Diaspora who have returned to Africa after years abroad to open companies and take up positions in government. They all tell the same story: 21st Century Africa offers them more opportunity than the First World. Drawing from his business experience, and his own family's history in Africa, which include his parents' expulsion from Uganda by Idi Amin in the 70s and his own survival of the Rwandan genocide in 1994, Ashish shows us how much difference a decade can make.
