The Credit Union World Wendell V. Fountain, 2006-11 This is a remarkable book. It is the real life story of a pilot of the famed 91st Bomb Group, the Memphis Belle Group, in World War II, and the missions flown in that Group by the author and his comrades. It follows him from the time his B-17 was shot down over the German-French border, he was rescued and hidden by villagers in the tiny village of Baslieuse, then escaped through a Europe occupied by Nazi forces desperate to escape pursuing Allied armies. The book chronicles, in fascinating detail, the life and training of those young men who made up the heroic 8th Air Force, and describes the affectionate relationship often maintained by their crews with that most famed heavy bomber of all time, the fabled B-17. It includes some of the most tragic stories as well as some of the wryest humor ever written about combat groups. A heavy bomb group consists of 36 heavy bombers. The 91st lost 207 planes during its WWII combat time 32 during the author's flight tenure. Dr. Anderson uses the words of the extraordinary crews of those planes to describe the training they absorbed, the missions they flew, the results they achieved, the tragedy of watching their planes explode and their friends die, and the heroism that brought so many near fatally damaged planes home with their dead and wounded crews. This is also a story of growing up in pre-war America, and of the growth and

CU 2.0: A Guide for Credit Unions Competing in the Digital Age Kirk Drake,2017-06-14 In recent decades, credit unions have seen unprecedented threats, due in large part to an eighty-year-old business model and an inability to adapt quickly to a digital economy. But Kirk Drake has devised a powerful plan to revitalize these noble institutions, making them more competitive, more creative, more connected with their membership, and more in tune with the times. A serial entrepreneur focused on credit-union technology, Drake has written a must-read manual for every CU board member, CEO, and management team in America. The first and only book of its kind, CU 2.0 offers essential strategies for leveraging the latest technologies to facilitate organizational growth and foster more even competition with the banking industry. With the tools provided here, the CU of tomorrow will be better equipped to empower its employees, while giving its members the superior financial service they want and need. It's time to be innovative and bold, to challenge long-standing inefficiencies and move away from the old school methods of doing business. CU 2.0 provides the skills, the savvy, and the fresh ideas necessary to finally transport the credit union out of the

twentieth century and into the twenty-first.

Making Education Work for the Poor William Elliott, Melinda Lewis, 2018-07-03 Making Education Work for the Poor identifies wealth inequality as the gravest threat to the endangered American Dream. Though studies have clearly illustrated that education is the primary path to upward mobility, today, educational outcomes are more directly determined by wealth than innate ability and exerted effort. This accounting directly contradicts Americans' understanding of the promise the American Dream is supposed to offer: a level playing field and a path towards a more profitable future. In this book, the authors share their own stories of their journeys through the unequal U.S. education system. One started from relative privilege and had her way to prosperity paved and her individual efforts augmented by institutional and structural support. The other grew up in poverty and had to fight against currents to complete higher education, only to find his ability to profit from that degree compromised by student debt. To directly counter wealth inequality and make education the 'great equalizer' that Americans believe it to be, this book calls for a revolution in financial aid policy, from debt dependence to asset empowerment. The book examines the evidence base supporting Children's Savings Accounts, including CSAs' demonstrated potential to improve children's outcomes all along the 'opportunity pipeline': early education, school achievement, college access and completion, and post-college financial health. It then outlines a policy that

builds on CSAs to incorporate a sizable, progressive wealth transfer. This new policy, Opportunity Investment Accounts, is framed as the cornerstone of the wealth-building agenda the nation needs in order to salvage the American Dream. Written by leading CSA researchers, the book includes overviews of the major children's savings legislation proposed in Congress and the key features of prominent CSA programs in operation around the country today, as well as new qualitative and quantitative CSA research. The book ultimately presents a critical development of the theories that, together, explain how universal, progressive, asset-based education financing could make education work equitably for all American children.

A Lot Like Family Kathryn Cantrell, 2020-05-04 Destiny can jump in the springs if it thinks she needs that man as a business partner. Navy veteran Hudson Rafferty is fine being alone with his nightmares and what's left of his soul. He's not fine with Ember Nixon calling dibs on the space in downtown Superstition Springs that he'd earmarked for his new restaurant. She's the one woman he can't ignore, the one woman who pushes past his carefully constructed boundaries—and the one woman who seems to get him. Ember left Superstition Springs at seventeen, pregnant and disgraced. She never dreamed she'd be back with a special-needs seven-year-old in tow. Or that Aunt Serenity's love prediction would say a partnership with Hudson Rafferty is the only way she'll get the empty space she wants for her new business enterprise. The enigmatic ex-Navy guy doesn't even acknowledge that

she exists no matter how much she flirts with him. How can they possibly be partners? Or maybe a better question is...how did this partnership blossom into a budding romance that can never survive Hudson's biggest dealbreaker?
