Scribble Billie Bang, 2023-03-15 An abandoned scribble waits to discover its purpose. The drawings on the facing page of the coloring book are all something. What was the scribble meant to be? A penguin? A rocket ship? A tugboat? Was it meant to become anything at all? Perhaps it's time for the scribble to look within itself for answers.

The Child in Videogames Emma Reay,2023-10-16 Drawing across Games Studies, Childhood Studies, and Children's Literature Studies, this book redirects critical conversations away from questions of whether videogames are 'good' or 'bad' for child-players and towards questions of how videogames produce childhood as a set of

social roles and rules in contemporary Western contexts. It does so by cataloguing and critiquing representations of childhood across a corpus of over 500 contemporary videogames. While child-players are frequently the topic of academic debate – particularly within the fields of psychology, behavioural science, and education research - child-characters in videogames are all but invisible. This book's aim is to make these child-characters not only visible, but legible, and to demonstrate that coded kids in virtual worlds can shed light on how and why the boundaries between adults and children are shifting.

Philip K. Dick David Sandner, Donald E. Palumbo, C.W. Sullivan III, 2020-03-10 Philip K. Dick was a visionary writer of science fiction. His works speak to contemporary fears of being continually watched by technology, and the paranoia of modern life in which we watch ourselves and lose our sense of identity. Since his death in 1982, Dick's writing remain frighteningly relevant to 21st century audiences. Dick spent his life in near poverty and it was only after his death that he gained popular and critical recognition. In this new collection of essays, interviews, and talks, Philip K Dick is rediscovered. Concentrating both on recent critical studies and on reassessing his legacy in light of his new status as a major American

author, these essays explore, just what happened culturally and critically to precipitate his extraordinary rise in reputation. The essays look for his traces in the places he lived, in the SF community he came from, and in his influence on contemporary American literature and culture, and beyond.

The Eye of the Sibyl ,1992-01-01 A collection of stories by the celebrated science fiction writer includes never-before-published selections as well as the author's standards--``The Little Black Box'' and ``The Pre-Person'' among them. By the author of *The Man in the High Castle*. Original.

Selected Stories of Philip K. Dick Philip K. Dick,2013 Features twenty-one stories from the well-known science fiction writer, including *Beyond Lies the Wub*, *The Days of Perky Pat*, and *The Electric Ant*.

Vintage PKD Philip K. Dick,2007-12-18 A master of science fiction, a voice of the changing counterculture, and a genuine visionary, Philip K. Dick wrote about reality, entropy, deception, and the plight of being alive in the modern world. Through his remarkable career Dick has established himself as a writer of the first order and his dreams of the future have proven to be eerily prophetic and even more prescient than when he wrote them. *Vintage PKD* features extracts from *The Man in the High Castle*, *The Three Stigmata of Palmer Eldritch*, *Ubik*, *A Scanner Darkly*, *VALIS*, and stories including "The Days of Perky Pat," "A Little Something for Us Tempunauts," and "I Hope I Shall Arrive Soon," along with essays and letters currently unavailable in book form. *Vintage*

The Dark Descent Clive Barker, 1997-01-15 A comprehensive presentation of the evolution of the horror story, filled with significant and powerful works by the masters of the genre.

Data Science and Business Intelligence Heverson Anunciação, 2023-12-04 A professional, no matter what area he belongs to, I believe, should never think that his truth is definitive or that his way of doing or solving something is the best. And, logically, I had to get it right and wrong to reach this simple conclusion. Now, what does that have to do with the purpose of this book? This book that I have gathered important tips and advice from an elite of data science professionals from various sectors and reputable experience? After I've worked on hundreds of consulting projects and implementation of best practices in Relationship Marketing (CRM), Business Intelligence (BI) and Customer Experience (CX), as well as countless Information Technology projects, one truth is absolute: We need data! Most companies say they do everything perfect, but it is not shown in the media or the press the headache that the areas of Information Technology suffer to join the right data. And when they do manage to unite and make it available, the time to market has already been lost and possible opportunities. Therefore, if a company wants to be considered excellence in corporate governance and satisfy the legal, marketing, sales, customer service, technology, logistics, products, among

other areas, this company must start as soon as possible to become a data driven and real-time company. For this, I recommend companies to look for their digital intuitions, and digital inspirations. So, with this book, I am proposing that all the employees and companies will arrive one day that they will know how to use, from their data, their sixth sense. The sixth sense is an extrasensory perception, which goes beyond our five basic senses, vision, hearing, taste, smell, touch. It is a sensation of intuition, which in a certain way allows us to have sensations of clairvoyance and even visions of future events. A company will only achieve this ability if it immediately begins to apply true data governance. And the illustrious data scientists who are part of this book will show you the way to take the first step: - Eric Siegel, Predictive Analytics World, USA - Bill Inmon, The Father of Datawarehouse, Forest Rim Technology, USA - Bram Nauts, ABN AMRO Bank, Netherlands - Jim Sterne, Digital Analytics Association, USA - Terry Miller, Siemens, USA - Shivanku Misra, Hilton Hotels, USA - Caner Canak, Turkcell, Turkey - Dr. Kirk Borne, Booz Allen Hamilton, USA - Dr. Bülent Kızıltan, Harvard University, USA - Kate Strachnyi, Story by Data, USA - Kristen Kehrner, Data Moves Me, USA - Marie Wallace, IBM Watson Health, Ireland - Timothy Kooi, DHL, Singapore - Jesse Anderson, Big Data Institute, USA - Charles Givre, JPMorgan Chase & Co, USA - Anne Buff, Centene Corporation, USA - Bala Venkatesh, AIBOTS, Malaysia - Mauro Damo, Hitachi Vantara, USA - Dr. Rajkumar Bondugula, Equifax, USA - Waldinei Guimaraes,
