Jack Probyn

London Circle Mary Stout,2021-05-12 The year is 2013, London, England. Whitechapel is the place of historical murders and a number of unsolved homicides. Now there's a threat on the streets. Young men are being targeted and murdered with no evidence pointing to the killer. MI5 is about to shut down, and MI6 is gaining more power. Lesley Ashcroft, the face and the brains behind the government, is threatened and must find a way to protect his position and his control of their nation. He creates a team to help him, but they can only operate under the government's nose. No one can know. Together with Malcolm Vance and Julian Radcliffe, a detective sergeant with a drive for justice no matter the cost and a psychologist with a knack for profiling, they need to find the killer before MI6 decides to step in and find the killer themselves. If they fail, they stand to lose everything.

Redirection Gregory Ashe,2021-06-29 When it comes to your ex, nothing is ever easy. The Borealis boys are settling into their new normal, or at least into their new digs. But when North's soon-to-be (please-let-it-be-soon) ex-husband, Tucker, is arrested and charged with murder, everything goes sideways. Hired by Tucker's parents, North and Shaw begin looking for proof that Tucker is innocent, in spite of the evidence against him. When they find seemingly incriminating photos hidden in Tucker's BMW, North is convinced that someone is trying to frame Tucker—and might get away with it. But the cast of alternate suspects presents its own challenges: an estranged son, a betrayed wife, and North and Shaw's close-knit circle of friends from college—men who had their own connections to the victim, and who had their own reasons for wanting him dead. A threatening email suggests that the motive, whatever it might be, lies buried in the past, in a relationship gone wrong. The question is, which one? When Tucker is poisoned, North and Shaw realize that the killer isn't finished. Clearing Tucker's name won't be enough; they must find the killer before someone else dies. And to do so, they will have to unearth truths from their own pasts.

Impossibly Yours Josephine Sklyar, 2023-09-22 She's a jock. He's a nerd. They have nothing in common. Except an attraction they can't resist... Laura Williams and Jack Weiss couldn't be more different people. He's a deep-thinking computer expert; she's a personal trainer who's never considered herself smart. He can't stand sports (any sports); she loves football weekends. He's a serious introvert; she's happiest working with clients. His family's conservative Jewish; hers is laid-back Lutheran. The only thing they have in common is that the discovery that his wife and her fiancé have been having an affair. As the newly-single Laura rebuilds her life, she doesn't expect to see Jack ever again. She certainly doesn't expect for them to become friends. And she really doesn't expect to start noticing how attractive he is. But the two of them, together? That can't possibly work. Better to stay friends. Then one night, an unexpected kiss leads to their first steamy encounter in bed—but not their last. And now Laura's at risk of getting her heart broken again. Unless Jack's falling for her too. But surely that's impossible...

The Adventure of the Lion's Mane Arthur Conan Doyle, 2020-09-29 Sherlock has retired. Now living in Sussex, he's enjoying a pleasant walk along the beach when he runs into a friend, Harold Stackhurst, headmaster at The Gables. The two acquaintances have just started chatting when they're interrupted by one of the teachers at Stackhurst's school, Fitzroy McPherson. The man appears to be in a great deal of pain and only manages to mutter something about a lion's mane before collapsing, dead. He has strange wounds on his back. Then comes another of the teachers, Ian Murdoch, who claims to have no idea what happened, having just arrived himself. But there is no one else close by. The Adventure of the Lion's Mane is part of The Case-Book of Sherlock Holmes. Sir Arthur Conan Doyle (1859-1930) was born in Scotland and studied medicine at the University of Edinburgh. After his studies, he worked as a ship's surgeon on various boats. During the Second Boer War, he was an army doctor in South Africa. When he came back to the United Kingdom, he opened his own practice and started writing crime books. He is best known for his thrilling stories about the adventures of Sherlock Holmes. He published four novels and more than 50 short-stories starring the detective and Dr Watson, and they play an important role in the history of crime fiction. Other than the Sherlock Holmes series, Doyle wrote around thirty more books, in genres such as science-fiction, fantasy, historical novels, but also poetry, plays, and non-fiction.

The police and forensics try their best to find the murderer, but the miscreant is intelligent enough to not leave any clues. All the victims happen to be females. Is there any history that could connect the victims? How will the investigation team solve the case? The author has been exceptionally good at keeping the suspense hovering around till the end. "The world is full of obvious things which nobody by any chance ever observes." ? Arthur Conan Doyle.

Sherlock Holmes: Classic Stories Arthur Conan Doyle,2019-06 In glancing over my notes of the seventy odd cases in which I have during the last eight years studied at the methods of my friend Sherlock Holmes, I find many tragic, some comic, a large number merely strange, but none commonplace. So writes Dr. Watson, sidekick, and partner-in-crime-solving to the great detective, Sherlock Holmes, in one of the ten classic tales of mystery and detection collected in this volume. Included are several stories that Holmes's creator, Arthur Conan Doyle, himself selected as the intrepid pair's greatest adventures, among them A Scandal in Bohemia, The Speckled Band, The Red-Headed League, and The Final Problem, in which Doyle famously 'killed off his' creation. The book also includes the complete short novel The Hound of the Baskervilles. Sherlock Holmes: Classic Stories is one of Barnes & Noble's Collectible Editions classics. Each volume features authoritative texts by the world's greatest authors in an exquisitely designed foil-stamped binding, with distinctive colored edging and a silk-ribbon bookmark. Decorative, durable, and collectible, these books offer hours of pleasure to readers young and old and are an indispensable cornerstone for any home library.

Roof Life Svetlana Alpers,2013 A celebrated art historian who has spent a lifetime looking at art writes about looking as a way of being in the world This is not a memoir. It does not take the form of a story. It is instead a kind of self-portrait, or perhaps several self-portraits. Svetlana Alpers had been keeping files: records of what she saw out the windows of her loft in New York; records of art sold, bought, or seen on her walls; records of foods found in markets and prepared in places where she lived; and records of herself seen in photographs, drawings, and paintings made by others. In solving the question of her father's place and date of birth, she reconstructs the life of her Russian grandfather in a distant and tumultuous Europe of a century ago. It was Roof Life that made it all come together. The title refers to what one discovers looking out from high windows with distant and distinctive views. In addition, it refers to the way one's attention is heightened and sharpened by confronting things that are unfamiliar, or that are made to appear unfamiliar by circumstances. It describes the immediacy of distance. Renowned art historian Svetlana Alpers assembles in these pages descriptions of things that mattered in a life that began in Cambridge, Massachusetts, continued in Berkeley, California, and is now lived in New York City. The experience of Europe informs it all.
