Without Trace John Harris, 2023-02-23 ‘...and if there had been only one survivor, there would have been no mystery in any of these cases...’ Bestselling author John Harris freshly investigates seven of the most gripping and intriguing voyages of the past 150 years. Bringing his unique skills as a novelist and sailor to reassess the fragmentary evidence, he aims to finally answer these enduring and terrifying mysteries. He takes us: Aboard Erebus and Terror on Sir John Franklin’s disastrous Arctic expedition, last seen parting from their escort... Aboard the Mary Celeste, crewed by a well-respected captain and an experienced crew, abandoned in the mid-Atlantic... Aboard the battleship Maine, blown sky-high in Havana harbour... Aboard the collier Cyclops, disappeared between Barbados and Virginia during the First World War... Aboard the Teignmouth Electron, winner-apparent of the round the world yacht race, sighted deserted and drifting... This is life at sea at its most epic and frightening.

Tracking the Bermuda Triangle Jenna Vale, Aaron Rosenberg, 2018-12-15

Although it didn't get its iconic name until the twentieth century, the Bermuda Triangle has been mystifying travelers since Christopher Columbus crossed through the area. There are no official perimeters and the Triangle appears on no map, but still it has swallowed ships, planes, and various crew members, leaving no clue as to their fate. What causes the high number of disappearances in this area of the Atlantic? Is it a mysterious magnetic field, pirates, a weather anomaly, or something more? In this intriguing volume, readers will consider the scientific, the bizarre, and everything in between as they pore over different cases and theories about the baffling activity in the Bermuda Triangle.

Man on the Ocean R. M. Ballantyne, 2015-07-16 There is, perhaps, no contrivance in the wide world more wonderful than a ship—a full-rigged, well-manned, gigantic ship! Those who regard familiar objects in art and nature as mere matters of course, and do not trouble themselves to wander out of the beaten track of everyday thought, may not at first feel the force or admit the truth of this statement. Let such folk endeavour to shake themselves

vigorously out of this beaten track of everyday thought. Let them knit their brows and clench their teeth, and gaze steadfastly into the fire, or up at the sky, and try to realise what is involved in the idea of-a ship.
