Interactive TV Standards Steven Morris,Anthony Smith-Chaigneau,2012-08-06 For any digital TV developer or manager, the maze of standards and specifications related to MHP and OCAP is daunting-you have to patch together pieces from several standards to gather all the necessary knowledge you need to compete worldwide. The standards themselves can be confusing, and contain many inconsistencies and missing pieces. Interactive TV Standards provides a guide for actually deploying these technologies for a broadcaster or product and application developer. Understanding what the APIs do is essential for your job, but understanding how the APIs work and how they relate to each other at a deeper level helps you do it better, faster and easier. Learn how to spot when something that looks like a good solution to a problem really isn't. Understand how the many standards that make up MHP fit together, and implement them effectively and quickly. Two DVB insiders teach you which elements of the standards that are needed for digital TV, highlight those elements that are not needed, and explain the special requirements that MHP places on implementations of these standards. Once you've mastered the basics, you will learn how to develop products for US, European, and Asian markets--saving time and money. By detailing how a team can develop products for both the OCAP and MHP markets, Interactive TV Standards teaches you how to leverage your experience with one of these standards into the skills and knowledge needed to work with the critical, related standards. Does the team developing a receiver have all the knowledge they need to succeed, or have they missed important information in an apparently unrelated standard? Does an application developer really know how to write a reliable piece of software that runs on any MHP or OCAP receiver? Does the broadcaster understand the business and technical issues well enough to deploy MHP successfully, or will their project fail? Increase your chances of success the first time with Interactive TV Standards.

ITV Handbook Edward M. Schwalb,2004 The proposed book will present key iTV issues, technology solutions and standards assembled from those technologies. Readers of the book will gain an understanding of the various iTV concepts and the relationships between them. In addition to the general discussions, each chapter will contain specific details so as to serve as a starting point for readers who want to become experts in a specific field.

Search Patterns Peter Morville, Jeffery Callender, 2010-01-14 What people are saying about Search Patterns Search Patterns is a delight to read -- very thoughtful and thought provoking. It's the most comprehensive survey of designing effective search experiences I've seen. --Irene Au, Director of User Experience, Google I love this book! It contains a bonanza of screenshots and illustrations that capture the best of today's design practices and presents a fresh perspective on the broader role of search and discovery. --Marti Hearst, Professor, UC Berkeley and author, Search User Interfaces (Cambridge University Press) It's not often I come across a book that asks profound questions about a fundamental human activity, and then proceeds to answer those questions with practical observations and suggestions. Search Patterns is an expedition into the heart of the web and human cognition, and for me it was a delightful journey that delivered scores of insights. --Dave Gray, Founder and Chairman, XPLANE Search is swiftly transforming everything we know, yet people don't understand how mavens design search: by stacking breadcrumbs, scenting widgets, and keeping eyeballs on the engine. I urge you to put your eyeballs on this unique and important book. --Bruce Sterling, Writer, Futurist, and Co-Founder, The Electronic Frontier Foundation As one who searches a lot (and often ends up frustrated), Search Patterns is a revelation. --Nigel Holmes, Designer, Theorist, and Principal, Explanation Graphics Search Patterns is a fabulous must-have book! Inside, you'll learn the whys and wheres of practically every modern search design trick and technique. --Jared Spool, CEO and Founder, User Interface Engineering Search is among the most disruptive innovations of our time. Ces animaux qu'on aime tant et qui partent avant nous Jeffrey Moussaieff Masson, 2022-01-26 Nous aimons tant notre animal que nous voudrions qu'il vive aussi longtemps que nous. Jeffrey Masson, psychologue et éthologue, analyse ce lien si particulier qui nous attache à nos animaux et fait d'eux l'égal de nos proches. A partir de nombreuses histoires de chiens, de chats, de chevaux... et de témoignages, il explore notre angoisse à l'approche de leur mort et nous dit ce que ressent l'animal. Il nous parle de nous, de lui, nous indique comment le soulager dans ses derniers instants, et comment surmonter le chagrin qui peut nous submerger. Car à tout âge, c'est un

véritable chagrin. Avec une très grande empathie autant à l'égard des humains que des animaux, Jeffrey Masson offre un véritable réconfort à tous ceux qui sont confrontés à cette perte.
