Small in the City Sydney Smith,2019-09-01 The first picture book that the award-winning Sydney Smith has both written and illustrated is a story about feeling small in the city — and finding your way home. On a snowy day in a big city, a little boy hops off a streetcar and walks through downtown, between office buildings, through parks and down busy streets. Along the way, he provides helpful tips about which alleys make good shortcuts, which trees to climb and where to find a friendly face. All the while, the boy searches for what he has lost ... The first book that award-winning illustrator Sydney Smith has written tells a story of what it means to get lost in the city, travel the wrong path and get caught in bad weather — and to ultimately find your way back home. His beautiful watercolour illustrations alternate between full spreads and small panels, evoking the sometimes overwhelming cacophony of urban sights and sounds, as well as the quiet moments that make all of us feel less small in the city. Correlates to the Common Core State Standards in English Language Arts: CCSS.ELA-LITERACY.RL.1.4 Identify words and phrases in stories or poems that suggest feelings or appeal to the senses. **A Small City in France** Françoise Gaspard,1995 The town of Dreux--60 miles from Paris--made history in 1983 when Le Pen's National Front earned startling electoral gains in the region, establishing it as the forerunner of neofascist advances across the nation. A trained historian and the city's socialist mayor from 1977 to 1983, Gaspard offers us a picture of a particular town in a broad context.

**Recast Your City** Ilana Preuss,2021-06-22 Community development expert Ilana Preuss explains how local leaders can revitalize their downtowns or neighborhood main streets by bringing in and supporting small-scale manufacturing. Small-scale manufacturing businesses help create thriving places, with local business ownership opportunities and well-paying jobs that other business types can't fulfill.

Small City Big Paper A-Town,2018-03-20 Small City Big Paper By: A-Town Avery Haigler aka A-Town better known as Mr. 803 was born and raised in Orangeburg, South Carolina. Growing up in the poverty stricken part of the city led Avery to a life of crime at a very young age. With his first arrest coming at the age of 9 years old. Always wanting more and having street savvy with book smarts to match led to a career criminal in the making. In and out of juvenile detention, jail and prison from the age of 10 up until his final arrest at the age of 26 that landed him in federal prison with a 10 year sentence for drug conspiracy and money laundering. Avery went from petty criminal to one of the largest drug dealers in his city during his era. From basically having nothing to becoming a millionaire off the drug trade all while in a small city known as Orangeburg. While incarcerated in the Federal Prison, Avery read numerous urban novels that depicted the drug scenes in major cities. He then realized that while he was from a small city, the drug scene in Orangeburg was on a major level like in bigger cities, which let him to writing this book. Letting readers know that even though Orangeburg is a small city, it's some Big Paper (serious money) being made there. Since his release from federal prison in March of 2017, Avery has been working a regular 9 to 5 job and enjoying life spending time with his family and 7 beautiful kids. Also, he has a promotion company called 'I Ain't Press Entertainment', in which he promotes parties, events and local artists. He is also investing into real estate with hopes of having 10 rental properties by his 40th birthday.

*DIY City* Hank Dittmar,2020-06-02 Some utopian plans have shaped our cities —from England's New Towns and Garden Cities to the Haussmann plan for Paris and the L'Enfant plan for Washington, DC. But these grand plans are the exception, and seldom turn out as envisioned by the utopian planner. Inviting city neighborhoods are more often works of improvisation on a small scale. This type of bottom-up development gives cities both their character and the ability to respond to sudden change. Hank Dittmar, urban planner, friend of artists and creatives, sometime rancher, "high priest of town planning" to the Prince of Wales, believed in letting small things happen. Dittmar concluded that big plans were often the problem. Looking at the global cities of the world, he saw a crisis of success, with gentrification and global capital driving up home prices in some cities, while others decayed for lack of investment. In *DIY City*, Dittmar explains why individual initiative, small-scale business, and small development matter, using lively stories from his own experience and examples from recent history, such as the revival of Camden Lock in London and the nascent rebirth of Detroit. *DIY City*, Dittmar's last original work, captures the lessons he learned throughout the course of his varied career—from transit-oriented development to Lean Urbanism—that can be replicated to create cities where people can flourish. *DIY City* is a timely response to the challenges many cities face today, with a short supply of affordable housing, continued gentrification, and offshore investment. Dittmar's answer to this crisis is to make Do-It-Yourself the norm rather than the exception by removing the barriers to small-scale building and local business. The message of *DIY City* can offer hope to anyone who cares about cities.

Our Towns James Fallows,Deborah Fallows,2018-05-08 NATIONAL BEST SELLER • The basis for the HBO documentary now streaming on HBO Max For five years, James and Deborah Fallows have travelled across America in a single-engine prop airplane. Visiting dozens of towns, the America they saw is acutely conscious of its problems—from economic dislocation to the opioid scourge—but it is also crafting solutions, with a practical-minded determination at dramatic odds with the bitter paralysis of national politics. At times of dysfunction on a national level, reform possibilities have often arisen from the local level. The Fallowses describe America in the middle of one of these creative waves. Their view of the country is as complex and contradictory as America itself, but it also reflects the energy, the generosity and compassion, the dreams, and the determination of many who are in the midst of making things better. *Our Towns* is the story of their journey—and an account of a country busy remaking itself.

**Small Cities** David Bell,Mark Jayne,2006-09-27 Until now, much research in the field of urban planning and change has focused on the economic, political, social, cultural and spatial transformations of global cities and larger metropolitan areas. In this topical new volume, David Bell and Mark Jayne redress this balance, focusing on urban change within small cities around the world. Drawing together research from a strong international team of contributors, this four part book is the first systematic overview of small cities. A comprehensive and integrated primer with coverage of all key topics, it takes a multi-disciplinary approach to an important contemporary urban phenomenon. The book addresses: political and economic decision making urban economic development and competitive advantage cultural infrastructure and planning in the regeneration of small cities identities, lifestyles and ways in which different groups interact in small cities. Centering on urban change as opposed to pure ethnographic description, the book's focus on informed empirical research raises many important issues. Its blend of conceptual chapters and theoretically directed case studies provides an excellent resource for a broad spectrum of undergraduate and postgraduate students, as well as providing a rich resource for academics and researchers.

*Strong Towns* Charles L. Marohn, Jr.,2019-10-01 A new way forward for sustainable quality of life in cities of all sizes *Strong Towns: A Bottom-Up Revolution to Build American Prosperity* is a book of forward-thinking ideas that breaks with modern wisdom to present a new vision of urban development in the United States. Presenting the foundational ideas of the Strong Towns movement he co-founded, Charles Marohn explains why cities of all sizes continue to struggle to meet their basic needs, and reveals the new paradigm that can solve this longstanding problem. Inside, you'll learn why inducing growth and development has been the conventional response to urban financial struggles—and why it just doesn't work. New development and high-risk investing don't generate enough wealth to support itself, and cities continue to struggle. Read this book to find out how cities large and small can focus on bottom-up investments to minimize risk and maximize their ability to strengthen the community financially and improve citizens' quality of life. Develop in-depth knowledge of the underlying logic behind the "traditional" search for never-ending urban growth Learn practical solutions for ameliorating financial struggles through low-risk investment and a grassroots focus Gain insights and tools that can stop the vicious cycle of budget shortfalls and unexpected downturns Become a part of the Strong Towns revolution by shifting the focus away from top-down growth toward rebuilding American prosperity *Strong Towns* acknowledges that there is a problem with the American approach to growth and shows community leaders a new way forward. The Strong Towns response is a revolution in how we assemble the places we live.

*Small Cities with Big Dreams* Greg Richards,Lian Duif,2018-07-20 How can small cities make an impact in a globalizing world dominated by ‘world cities’ and urban development strategies aimed at increasing agglomeration? This book addresses the challenges of smaller cities trying to put themselves on the map, attract resources and initiate development. Placemaking has become an important tool for driving urban development that is sensitive to the needs of communities. This volume examines the development of creative placemaking practices that can help to link small cities to external networks, stimulate collaboration and help them make the most of the opportunities presented by the knowledge economy. The authors argue that the adoption of more strategic, holistic placemaking strategies that engage all stakeholders can be a successful alternative to copying bigger places. Drawing on a range of examples from around the world, they analyse small city development strategies and identify key success factors. This book focuses on the case of ‘s-Hertogenbosch, a small Dutch city that used cultural programming to link itself to global networks and stimulate economic, cultural, social and creative development. It advocates the use of cultural programming strategies as a more flexible alternative to traditional top-down planning approaches and as a means of avoiding copying the big city. Stunning illustrations by Sydney Smith, the award-winning illustrator of *Sidewalk Flowers*, show the striking contrast between a sparkling seaside day and the darkness underground where the miners dig. With curriculum connections to communities and the history of mining, this beautifully understated and haunting story brings a piece of Canadian history to life. The ever-present ocean and inevitable pattern of life in a Cape Breton mining town will enthrall children and move adult readers.

**Charlie Small 1: Gorilla City** Charlie Small,2009-07-01 No one knows the full story of Charlie Small. At least, not yet. His battered journal was found washed up on a remote, windswept shore. And at first we thought it an elaborate hoax. Surely no 8-year-old could have had so many wild adventures, witnessed so many extraordinary things, lived such an incredible life—and still only be eight. And yet . . . there was something so vivid in the telling that we were persuaded to send the journal and some of its boggling content for analysis. And only one conclusion could be drawn. Everything in the journal of Charlie Small is true! In his first adventure, Gorilla City, Charlie wrestles a deadly river croc, rides a steam-powered rhino, and becomes tribal chief in a city of gorillas.
