Pest-Sniffing Dogs Meish Goldish,2012-01-01 One morning in 2010, a pest inspector came to a home in Brooklyn, New York, to search for bedbugs. This puggle (a cross between a pug and a beagle) was able to sniff out the bedbugs in the family's home so that they wouldn't get bitten by the blood-sucking insects. Cruiser is one of about 150 dogs that have been trained to detect pests. Some dogs specialize in finding bedbugs, while others hunt for termites, which can eat through the wood in a house, or mealybugs, which can destroy farmers' crops and trees. Thanks to the work of pest-sniffing dogs, the harmful bugs can be detected before serious damage is done. In this book, young readers will meet the hardworking dogs that use their keen sense of smell to locate pests. Packed with real-life stories and full-color photos of pest-sniffing dogs at work, this book is sure to be a favorite of dog lovers everywhere.

Revelations in Air Jude Stewart,2021-10-26 An extraordinary, strange, and startlingly beautiful exploration of smell, the least understood of our five senses The nose on your face is the Buckingham Palace Guard of your body, the maitre d' of all taste, as well as the seducer of your imagination, and memory—and Jude Stewart has charmed them all into a wicked, poetic and illuminating tour of their mysterious domains. —Jack Hitt, author of Bunch of Amateurs Overlapping with taste yet larger in scope, smell is the sense that comes closest to pure perception. Smell can collapse space and time, unlocking memories and transporting us to worlds both new and familiar. Yet as clearly as each of us can recognize different smells--the bright tang of citrus, freshly sharpened pencils, parched earth after rain--few of us understand how and why we smell. In Revelations in Air, Jude Stewart takes us on a fascinating journey into the weird and wonderful world of smell. Beginning with lessons on the incredible biology and history of how our noses work, Stewart teaches us how to use our noses like experts. Once we're properly equipped and ready to sniff, Stewart explores a range of smells—from lavender, cut grass and hot chocolate to cannabis and old books—using smell as a lens into art, history, science, and more. With an engaging colorful design and exercises for readers to refine their own skills, Revelations in Air goes beyond science or history or chemistry--it's a doorway into the surprising, pleasurable, and unfamiliar landscape of smell.
