**Underlord of the Netherworld** Juna Jinsei,2017-03-15 Almost thirty years of peace have prevailed in Neverland since the annihilation of the shadow monster. The unification of the Neverlanders created the perfect utopia, bringing happiness and prosperity to its inhabitants, until one day they realized that they were not alone. A new species was discovered with the drive and means to take over the entire island. They attacked unsuspecting communities leaving a path of death and destruction in their wake. This sudden chain of events shook Neverland to its core, rousing the Underlord of the Netherworld; feared by the superstitious and believed to be even more powerful than the Essence of Neverland. Can the power of the Pan stop this rampage threatening to destroy their home? Will the Underlord prove to be as sinister and barbaric as believed, inflicting his wrath on those who dare to disturb him? Will the Essence be able to save them or will fear and ignorance consume the islanders, causing their ultimate demise?

Cider Planet Claude Jolicoeur,2022-09-23 From internationally-acclaimed author and fermented beverage expert Claude Jolicoeur comes a globe-trotting, full-color cultural history and guide celebrating the methods, terroir, and traditions of world-class cider. In Cider Planet, Claude Jolicoeur—a longtime, passionate cider maker and author of the international bestseller *New Cider Maker's Handbook*—takes readers with him to the world's greatest cider regions, providing an expertly guided tour laced with his deep understanding and appreciation for how this "Prince of Beverages" is made. Inside Cider Planet you'll find: • Descriptions of global orchard practices • Specific apple varieties used in different countries and regions • Detailed histories of the world's oldest ciderlands • Profiles of different cider styles and rituals • Tips and tricks from some of the most knowledgeable cider producers Cider, long perceived as a European country drink, is now truly a worldwide culinary delight. Jolicoeur talks about new and emergent regions that have contributed to this growing appreciation, and how they are building upon the old traditions while creating their own new ones. He explores, for example, the most revered areas for making perry, a delightful but little-known drink that, like cider, is starting to gain fans young and old. And he even transports readers to Kazakhstan in central Asia, famous as the "birthplace of the domestic apple." Real cider, craft cider, farm cider, artisan cider: Whatever you wish to call it, at its best, cider should be enjoyed like a fine wine, with all of the sophistication but less of the pretentiousness. Just as there are many volumes devoted to the great wine regions of the world, we now need a "cider appreciation" manual to fully understand and delve into the rich culture of cider and perry. Cider Planet is that book, and Claude Jolicoeur is our experienced and enthusiastic guide. For the traveler or foodie, this book transports the reader around the world with wonderful stories and insight that will leave you thirsty for a fresh glass of fermented fruit.

**Harmonia - The Sparkling Gardens** J.C. Perez,2017-07 Alex, a young girl, is haunted by recurring nightmares that feel entirely too real. Now she has learned that everything thing she has ever known to be true, might be different than what she remembers. Will she resolve these haunting nightmares? What will it take to find out the truth about herself? Should she let herself believe what is before her eyes? Dare to embark on a magical adventure with Alex and some of her newly acquired friends, as they discover new worlds, exciting magic, and what it truly means to be a hero. Alex is put to the test encountering strange beings and challenging worlds. The Sparkling Gardens is the first in the Harmonia series to venture out of the hallway. Is your mind open enough?

**Central European Functional Programming School** Anna Soós,2008-09-27 This volume presents the revised lecture notes of selected talks given at the second Central European Functional Programming School, CEFP 2007, held June 23–30, 2007 at Babeş-Bolyai University, Cluj-Napoca, Romania. The summer school was organized in the spirit of the advanced programming schools. CEFP focuses on involving an ever-growing number of students, researchers, and teachers from central, and eastern European countries. We were glad to welcome the invited lecturers and the participants: 15 professors and 30 students from 9 different universities. The intensive program offered a creative and inspiring environment and a great opportunity to present and exchange ideas in new topics of functional programming. The lectures covered a wide range of topics like interactive work flows for the Web, proving properties of lazy functional programs, lambda calculus and -strict lambda calculus machines, programming in ?mega, object-oriented functional programming, and refactoring in Erlang. We are very grateful to the lecturers and researchers for the time and the effort they devoted to the talks and the revised lecture notes. The lecture notes were each carefully checked by reviewers selected from experts of functional programming. Afterwards the papers were revised once more by the lecturers. This revision process guaranteed that only high-quality papers are accepted in the volume of the lecture notes.
