Rihanna Simon Henwood, 2010 The official visual chronicle of the year's "it" girl as she embarks on her first solo tour. The millions of sites tracking her every fashion move, the innumerable magazine covers including the recent Italian Vogue shot by Steven Klein, her past endorsement deals including Gucci and CoverGirl—Rihanna is the reigning style icon of the moment. She has garnered multiplatinum—selling success as an artist (her current album, her fourth, Rated Rhad the highest first-week sales of any of her other albums in the U.S. to date), including Grammys, MTV Video Music Awards, and countless other awards for her performances. Creative director Simon Henwood captures the supernova at the height of her beauty and ferocity in hundreds of photographs that track her enormous influence on current trends and interaction with the world of fashion—from her performances in the most cutting-edge couture (such as Gaultier and Chanel, as well as in pieces from museum collections), to her relationships with the unknown but up-and-coming designers she personally champions, to her fashion shoot with Ellen von Unwerth in Berlin for her album artwork. This is a visually arresting capsule of one of the world's most talked-about artists of the year.

Music Theory and Composition Stephen C. Stone, 2018-01-26 Music Theory and Composition: A Practical Approach presents a pragmatic, accessible approach to music theory through an emphasis on melody and counterpoint. Rihanna: A Biography Elise O., 2012-03-02 ABOUT THE BOOK With striking looks and incredible vocal talent, Rihanna is arguably Barbados's biggest export in history. Since her 2005 debut album, Music Under the Sun, Rihanna has recorded twenty top-ten singles. Her third album, Good Girl Gone Bad,

made Rihanna a household name. Ever the chameleon in music and fashion, Rihanna keeps her fans on the edge of their seats. Rihanna's road to fame was a rocky one. Growing up in Barbados, she felt loved by her mother but suffered from her parents' tumultuous relationship. Her father's drug addiction often made her childhood a difficult one. In her toughest times, Rihanna found meaning in music and has never looked back. EXCERPT FROM THE BOOK Like all bright young stars, Rihanna is no stranger to Hollywood's rumor mill. When she first stepped onto the music scene in 2006, people linked her to her mentor Jay Z. In fact, Rihanna was still pressed by interviewers if there had a romantic connection even after Jay Z married Beyoncé. Rihanna has always dismissed rumors that they have anything beyond a professional relationship. In 2008, though, Rihanna gave gossip columns something to talk about. First she was linked to actor Josh Hartnett. Rihanna again retorted that there was no romance between her and the actor. Soon, though, people noticed that Rihanna seemed rather chummy with fellow singer, Chris Brown. One year her junior, Chris Brown was riding high on multiple hits, including Run It and With You. Throughout 2008, Chris Brown and Rihanna were seen canoodling at awards shows and meeting up in exotic locales, like Jamaica. Despite the obvious budding romance, Rihanna stated that they were only pals. Rihanna explained, He makes me feel like a teenager. I have to act and think like an adult so much. He makes me feel young again. A young, hot twenty-year-old female singer hanging out with a young, hot nineteen-year-old male singer to feel young again? No one was buying her story then, either. Finally, in June 2008, Rihanna admitted that she and Chris Brown were dating. At first, the media and both singers' fans looked favorably upon the romance... Buy a copy to keep reading!

The Routledge Research Companion to Popular Music and Gender Stan Hawkins, 2017-03-16 Why is gender inseparable from pop songs? What can gender representations in musical performances mean? Why are there strong links between gender, sexuality and popular music? The sound of the voice, the mix, the arrangement, the lyrics and images, all link our impressions of gender to music. Numerous scholars writing about gender in popular music to date are concerned with the music industry's impact on fans, and how tastes and preferences become associated with gender. This is the first collection of its kind to develop and present new theories and methods in the analysis of popular music and gender. The contributors are drawn from a range of disciplines including

musicology, sociology, anthropology, gender studies, philosophy, and media studies, providing new reference points for studies in this interdisciplinary field. Stan Hawkins's introduction sets out to situate a variety of debates that prompts ways of thinking and working, where the focus falls primarily on gender roles. Amongst the innovative approaches taken up in this collection are: queer performativity, gender theory, gay and lesbian agency, the female pop celebrity, masculinities, transculturalism, queering, transgenderism and androgyny. This Research Companion is required reading for scholars and teachers of popular music, whatever their disciplinary background.

Writing the School House Blues Anne Haas Dyson, 2021 Anne Dyson confronts race and racism head-on with this ethnographic study of a child's efforts to belong—to be a child among children. Follow the journey of a small Black child, Ta'Von, as he moves from a culturally inclusive preschool through the early grades in a school located in a majority white neighborhood. Readers will see Ta'Von encountering obstacles but finding agency and joy through writing and music-making, especially his love of the blues. Most attempts at desegregating schools are studied by reducing individual children to demographic statistics and test scores. This book, instead, provides a child's perspective on challenges to classroom inclusion. Ta'Von's journey demonstrates that it is within children's peer

worlds—formed in response to institutional policies and practices like desegregation initiatives, standardized testing, and a curricular focus on so-called “basic literacy skills”—that inequity becomes part of the experience of childhood. This book examines policies about literacy testing and teaching, including the potential power of the written word and of the arts. “Few researchers have had a career so embedded inside the lives of children in a classroom context as Anne Haas Dyson. This book should be on every literacy researcher’s shelf. It is a culmination of years of Dyson’s relentless fight against deficit framings of children and the deep inequalities that continue to persist in the world.” —Jennifer Rowsell, professor of literacies and social innovation, University of Bristol
