**Sudbury** C.M. Wallace,1996-07-25 At the turn of the century Sudbury was a town set on the railway line, with a population of about 2,000. The community was smaller than Sault Ste. Marie and Copper Cliff to the west, and to the east, North Bay and Pembroke. Now, nearly 100 years later, Sudbury is the largest city in northeastern Ontario. it is also the centre of many governmental, business, social, educational, media, medical, and other professional services in the region. Sudbury: Rail Town to Regional Capital, which honours the centenary of the community's incorporation as a town in 1893, analyses Sudbury decade by decade, describing the ongoing changes in the community and their impact on citizens. The book also examines the forces that shaped the city's destiny and argues that

Sudbury is far more than a single-industry town based on mining. Grounded in new research and written in an accessible style by a team of local scholars, the book, with numerous maps and photographs will appeal to urban historians as well as the general reader both within and beyond the city.

**From Meteorite Impact to Constellation City** Oiva W. Saarinen, 2013-06-15 From Meteorite Impact to Constellation City is a historical geography of the City of Greater Sudbury. The story that began billions of years ago encompasses dramatic physical and human events. Among them are volcanic eruptions, two meteorite impacts, the ebb and flow of continental glaciers, Aboriginal occupancy, exploration and mapping by Europeans, exploitation

by fur traders and Canadian lumbermen and American entrepreneurs, the rise of global mining giants, unionism, pollution and re-greening, and the creation of a unique constellation city of 160,000. The title posits the book's two main themes, one physical in nature and the other human: the great meteorite impact of some 1.85 billion years ago and the development of Sudbury from its inception in 1883. Unlike other large centres in Canada that exhibit a metropolitan form of development with a core and surrounding suburbs, Sudbury developed in a pattern resembling a cluster of stars of differing sizes. Many of Sudbury's most characteristic attributes are undergoing transformation. Its rocky terrain and the negative impact from mining companies are giving way to attractive neighbourhoods and the planting of millions of trees. Greater Sudbury's blue-collar image as a union powerhouse in a one-industry town is also changing; recent advances in the fields of health, education, retailing, and the local and international mining supply and services sector have greatly diversified its employment base. This book shows how Sudbury evolved from a village to become the regional centre for northeastern Ontario and a global model for economic diversification and environmental rehabilitation.
