Progress and New Trends in 3D Geoinformation Sciences Jacynthe Pouliot, Sylvie Daniel, Frédéric Hubert, Alborz Zamyadi, 2012-10-22 The integration of the 3rd dimension in the production of spatial representation is largely recognized as a valuable approach to comprehend our reality, that is 3D. During the last decade developments in 3D Geoinformation (GI) system have made substantial progress. We are about to have a more complete spatial model and understanding of our planet in different scales. Hence, various communities and cities offer 3D landscape and 3D city models as valuable source and instrument for sustainable management of rural and urban resources. Also municipal utilities, real estate companies benefit from recent developments related to 3D applications. In order to present recent developments and to discuss future trends, academics and practitioners met at the 7th International Workshop on 3D Geoinformation. This book comprises a selection of evaluated, high quality papers that were presented at this workshop in May 2012. The topics focus explicitly on the last achievements (methods, algorithms, models, systems) with respect to 3D GeoInformation requirements. The book is aimed at decision makers and experts as well at students interested in the 3D component of geographical information science including GI engineers, computer scientists, photogrammetrists, land surveyors, urban planners, and mapping specialists.

Handbook of Smart Cities Juan Carlos Augusto, 2021-07-17 This Handbook presents a comprehensive and rigorous overview of the state-of-the-art on Smart Cities. It provides the reader with an authoritative, exhaustive one-stop reference on how the field has evolved and where the current and future challenges lie. From the foundations to the many overlapping dimensions (human, energy, technology, data, institutions, ethics etc.), each chapter is written by international experts and amply illustrated with figures and tables with an emphasis on current research. The Handbook is an invaluable desk reference for researchers in a wide variety of fields, not only smart cities specialists but also by scientists and policy-makers in related disciplines that are deeply influenced by the emergence of intelligent cities. It should also serve as a key resource for graduate students and young researchers entering the area, and for instructors who teach courses on these subjects. The handbook is also of interest to industry and business innovators.

Advances in Usability and User Experience Tareq Ahram, Christianne Falcão, 2019-06-12 This book focuses on emerging issues in usability,

interface design, human-computer interaction, user experience and assistive technology. It highlights research aimed at understanding human interaction with products, services and systems, and focuses on finding effective approaches for improving user experience. It also discusses key issues in designing and providing assistive devices and services to individuals with disabilities or impairment, to assist mobility, communication, positioning, environmental control and daily living. The book covers modelling as well as innovative design concepts, with a special emphasis on user-centered design, and design for specific populations, particularly the elderly. Virtual reality, digital environments, heuristic evaluation and forms of device interface feedback of (e.g. visual and haptic) are also among the topics covered. Based on the both the AHFE 2019 Conference on Usability & User Experience and the AHFE 2019 Conference on Human Factors and Assistive Technology, held on July 24-28, 2019, Washington D.C., USA, this book reports on cutting-edge findings, research methods and user-centred evaluation approaches.

Security and Privacy in Communication Networks Joaquin Garcia-Alfaro, Shujun Li, Radha Poovendran, Hervé Debar, Moti Yung, 2021-11-03 This two-volume set LNICST 398 and 399 constitutes the post-conference proceedings of the 17th International Conference on Security and Privacy in Communication Networks, SecureComm 2021, held in September 2021. Due to COVID-19 pandemic the conference was held virtually. The 56 full papers were carefully reviewed and selected from 143 submissions. The papers focus on the latest scientific research results in security and privacy in wired, mobile, hybrid and ad hoc networks, in IoT technologies, in cyber-physical systems, in next-generation communication systems in web and systems security and in pervasive and ubiquitous computing.

Twiterville Shel Israel, 2009-09-03 Twitter is the most rapidly adopted communication tool in history, going from zero to ten million users in just over two years. On Twitter, word can spread faster than wildfire. Companies no longer have the option of ignoring the conversation. Unlike other hot social media spaces, Twiterville is dominated by professionals, not students. And despite its size, it still feels like a small town. Twitter allows people to interact much the way they do face-to-face, honestly and authentically. One minute, you're complaining about the weather with local friends, the next, you're talking shop with a colleague based halfway across the globe. No matter where you're from or what you do for a living, you will find conversations on Twitter that are valuable. Despite the millions of people joining the site, you'll quickly find the ones who can make a difference to you. Social media writer Shel Israel shares revealing stories of Twiterville residents, from CEOs to the student who became the first to report the devastation of the Szechuan earthquake; from visionaries trying to raise money for a cause to citizen journalists who outshine traditional media companies. Israel introduces you to trailblazers such as: · Frank Eliason, who used Twitter to reverse Comcast's blemished customer service reputation · Bill Fergus, who was on the team at Henry Ford Medical Center during the first "live tweeted" surgery · Scott Monty, social media officer for Ford, who held off a mob of misinformed Ranger fans and averted a PR crisis · Connie Reece, who used Twitter to raise tens of thousands of dollars for cancer patients in need · The Coffee Groundz, a Houston-area coffee shop that uses Twitter to pack the tables (and fight off Starbucks) Twiterville features many true stories as dramatic as these. But it also recounts those of ordinary businesspeople who use Twitter to get closer to

their customers. And it explains how global neighborhoods will make geography increasingly irrelevant. It even explains why people sometimes really do care what you had for lunch.

Atlas of Implant Dentistry and Tooth-Preserving Surgery Zoran Stajčić, 2017-03-29 This atlas is unique in comparing the two disciplines of dental implant surgery and tooth-preserving surgery with respect to common procedures, problems, and failures and in providing excellent guidance on the prevention and management of complications. The etiology of a wide variety of implant-related and non-implant-related complications and failures is carefully explained. Since many complications have their roots in oral and periodontal surgical maneuvers, these maneuvers are themselves discussed and extensively illustrated. The most frequently used tooth preservation procedures are also fully described, with emphasis on correct surgical technique as a means to avoid complications. The use of these procedures is constantly weighed against the effects of tooth removal and insertion of dental implants. The text is complemented by the inclusion of a substantial number of helpful references. While the atlas is intended primarily for dentists involved in outpatient implant dentistry and oral surgery, oral and maxillofacial surgeons will also find the descriptions of innovative techniques or maneuvers to be of interest, including those relating to the selection of incision and flap design and the sinus floor elevation techniques.

My First Cruise Timmy Funn, 2019-03-14 Heard of Laughter Therapy? No? Well this book is a little bit of shallowness seeking to make you chuckle, smile and grimace, all of which is good for your soul. The author treads a path between fiction and reality as he sets out on his first Cruise adventure into the Orient. You will recognise some of the scenarios he describes, they are happening around you all the time. It's what makes being a human so much fun - watching other humans. The serious bit is that by buying this book, you will also be making a difference to those in Africa who desperately need medical help - visit Mercy Ships www.mercyships.org.uk. You get to laugh; they get a life changing operation - what's not to like?

Hidden Champions in Dynamically Changing Societies Alenka Braček Lalić, Danica Purg, 2021-04-30 Hidden champions are highly successful small and medium-sized companies that are global leaders in terms of market share in their respective niches. Presenting the outcomes of an in-depth, multinational study on hidden champions in Central, Eastern, and Southeast Europe, Russia, China, Mongolia and Turkey, this book provides essential insights into the critical drivers of success, market leadership positions, competitive advantage, and core lessons learned on the road to business prosperity. It also addresses development needs in connection with management, financing and the regulatory environment, which can in turn be used to create recommendations for various stakeholders (e.g. governments, financial institutions, management development institutions) in order to support hidden champions in their further growth and business success.

Brexit Denis MacShane, 2019 How could this have happened? On 23 June 2016, UK voters elected to leave the European Union. The result was perhaps the biggest bombshell in modern British political history. In this new and updated edition of Denis MacShane's bestselling history of the UK's relationship with Europe, the former Europe Minister reveals the full story behind Britain's historic EU Referendum decision. Denis MacShane was the only senior Remainer to have called the EU Referendum result correctly and his book provides the essential context to the new political and economic landscape of Brexit Britain. -- Provided by publisher.
