CBA of Cycling ,2005 Investing in infrastructure for cycling has a number of effects often not included in ordinary Cost Benefit Analysis, CBA, for roads. It is therefore likely that special methods are needed to conduct CBA for cycling. In February 2005 a Nordic seminar was held in Stockholm. The purpose of the seminar was to share and discuss these Nordic experiences in order to reach a common understanding and platform for further work. The current report summarises the knowledge of CBA of cycling in the Nordic countries and discusses the policy relevance of more advanced methods for cycle infrastructure planning. The report has been compiled by Gunnar Lind.

The Descent Thomas Dekker,2017-07-06 'I have success, money, women. I've been lionised by the public and the media. The world is at my feet. I've spread my wings and here I am, soaring above everything and everyone. But in reality, the descent has already begun.' Thomas Dekker was set to become one of pro cycling's superstars. But before long, he found himself sucked in by the lure of hedonistic highs and troubled by the intense pressure to perform. In The Descent, Dekker tells his story of hotel room blood bags, shady rendezvous with drug dealers and late-night partying at the Tour de France. This is Dekker's journey from youthful idealism to a sordid path of excess and doping that lays bare cycling's darkest secrets like never before.

Løgn over løgn Verner Møller,2011-05-09 Michael Rasmussen var på vej til en sikker samlet sejr i Tour de France 2007, da hans hold Rabobank valgte at trække ham ud af løbet. Det var kulminationen på en pressehetz uden fortilfælde i sportshistorien. Det kom frem, at Michael Rasmussen havde fået advarsler fra antidoping-myndighederne, men det blev dækket af medierne, som om der var tale om en positiv dopingtest. Løgn over løgn, som er skrevet af idrætsprofessor Verner Møller, dokumenterer, at Michael Rasmussen ikke blev smidt ud af sportslige grunde. Bogen er en kompromisløs afdækning af en antidopingkampagne og et sportssystem, som i en uskøn blanding af opportunistisk fairplay-profilering og forretningshensyn har drevet sporten til vanvid og spillet moralsk fallit.

Historical Dictionary of Cycling Jeroen Heijmans,Bill Mallon,2011-10-16 The nearly 150-year-old sport of cycling had its first competition in France in 1868. Soon afterward, the need arose for purpose-built cycling tracks because of poor road conditions at the time. Racing on blocked off pieces of street or grass soon evolved into racing on special tracks called velodromes. This development marked the split into what are still the two main forms of cycling competition: road racing and track racing. Initially, track cycling was more popular in terms of public attention and money to be earned by racers, but this gradually changed in favor of road racing, which has been the most popular form of cycling since at least the end of World War II. The Historical Dictionary of Cycling takes a closer look at the sport, as well as discussing the use of bicycles as a means of fitness, touring, and commuting. This is done through a chronology, an introductory essay, appendixes, photos, a bibliography, and over 500 cross-referenced dictionary entries on cycling's two main disciplines—road and track—as well as brief overviews of the other forms of

cycling. This book is an excellent access point for students, researchers, and anyone wanting to know more about cycling.

Domestique Charly Wegelius,2013-06-06 **Winner - Sweetspot Cycling Book of the Year** For 11 years I was a professional cyclist, competing in the hardest and greatest races on Earth. I was in demand from the world's best teams, a well-paid elite athlete. But I never won a race. I was the hired help. When my mum dropped me off in a small French town aged 17, I was full of determination to be a professional cyclist, but I was completely green. I went from mowing the team manager's lawn to winning every amateur race I entered. Then I turned pro and realised I hated the responsibility and pressure of chasing victory. And that's when I became a domestique. I learned to take that hurt and give it everything I had to give, all for someone else's win. When the order came in to ride I pushed out with the hardest rhythm I could, dragging the group faster and faster, until my whole body screamed with pain. There were times I rode myself to a standstill, clutching the barrier metres from the line, as the lead group shot past. But that's what made me so good at my job. As my career took off, I started looking at the fans lining the route, cheering us like heroes. The passion for cycling oozed off them, but they couldn't know what it was really like. They didn't see the terrible hotels, the crazy egos or all the shit that goes with great expectations. Well, this is how it is...

Racing Hard William Fotheringham,2013-06-06 Few British schoolchildren of the seventies can have been as obsessed with the Tour de France as William Fotheringham, who smuggled copies of *Miroir du Cyclisme* into lessons to read inside his books. He saw the Tour for the first time in 1984, avidly following that year's race on television in the Normandy village where he lived. Since joining the Guardian in 1989, William Fotheringham has been at the forefront of British cycling journalism. Here he reflects on the events of the last twenty-three years - the triumphs, the tragedies and the scandals that have engulfed the world's most demanding sport. Key articles from his career are annotated with notes and reflections. What would he have said if he'd known then what we all know now about Lance Armstrong? Which cyclists and teams were not all they seemed? And which victories still rank as the greatest of all time? This is the definitive collection of cycling reporting.

Jan Ullrich Daniel Friebe,2022-06-09 Jan Ullrich: The Best There Never Was is the first biography of Jan Ullrich, arguably the most naturally talented cyclist of his generation, and also one of the most controversial champions of the Tour de France. 'Magnificent' – Matt Dickinson, The Times 'A superlative biography as well as social and sporting history' – Observer In 1997, Jan Ullrich announced himself to the world by obliterating his rivals at the Tour de France and becoming Germany's first ever winner. Everyone agreed: Jan Ullrich would dominate the future of cycling. But he never quite managed it. This is a gripping account of how unbearable expectation, mental and physical fragility, the effects of a complicated childhood, a morally corrupt sport and one individual – Lance Armstrong – can conspire to reroute destiny. Acclaimed journalist Daniel Friebe takes us from the legacy of East Germany's drugs programme to the pinnacle of pro cycling and asks: what price are you willing to pay for immortality?
