Christian Co, KY , 1991-06-15 Christian County had published a county history in 1841 by Perin and again another by Charles Meachem in 1930. Both of these histories had a limited biography section in them. Under the leadership of president Lon Bostick, the Genealogical Society of Christian County and the many devoted people of the county at large, gave untiringly of their time and knowledge to compile and have published a third history of Christian County in 1986 which is primarily a family history with much social history. The people responded well with material and the book was getting so large that we had to stop receiving family histories. This left many without the opportunity to get their families recorded. Late in 1990, Lon had a job started and was not complete therefore the Odd Fellows of Green River Lodge #54 of Hopkinsville and Jewel Rebekah Lodge #14 (the auxiliary of the Odd Fellows) met and voted to compile and have published a continuation of Volume I of the Family Histories to be titled Edition I of Family Histories of Christian County.

A study of travel patterns in two Lexington, Ky., residential areas , 1962

Matched Ally Condie, 2011-09-20 Cassia has always trusted the Society to make the right choices for

her: what to read, what to watch, what to believe. So when Xander's face appears on-screen at her Matching ceremony, Cassia knows with complete certainty that he is her ideal mate . . . until she sees Ky Markham's face flash for an instant before the screen fades to black. The Society tells her it's a glitch, a rare malfunction, and that she should focus on the happy life she's destined to lead with Xander. But Cassia can't stop thinking about Ky, and as they slowly fall in love, Cassia begins to doubt the Society's infallibility and is faced with an impossible choice: between Xander and Ky, between the only life she's known and a path that no one else has dared to follow. Look for **CROSSED**, the sequel to **MATCHED**, in Fall 2011! Watch a Video

Kentucky Place Names Robert M. Rennick, 1984 The relationship between a town and its local institutions of higher education is often fraught with turmoil. The complicated tensions between the identity of a city and the character of a university can challenge both communities. Lexington, Kentucky, displays these characteristic conflicts, with two historic educational institutions within its city limits: Transylvania University, the first college west of the Allegheny Mountains, and the University of Kentucky, formerly "State College." An investigative cultural history of the town that called itself "The Athens of the West," *Taking the Town: Collegiate and Community Culture in Lexington, Kentucky, 1880–1917* depicts the origins and development of this relationship at the turn of the twentieth century. Lexington's location in

the upper South makes it a rich region for examination. Despite a history of turmoil and violence, Lexington's universities serve as catalysts for change. Until the publication of this book, Lexington was still characterized by academic interpretations that largely consider Southern intellectual life an oxymoron. Kolan Thomas Morelock illuminates how intellectual life flourished in Lexington from the period following Reconstruction to the nation's entry into the First World War. Drawing from local newspapers and other primary sources from around the region, Morelock offers a comprehensive look at early town-gown dynamics in a city of contradictions. He illuminates Lexington's identity by investigating the lives of some influential personalities from the era, including Margaret Preston and Joseph Tanner. Focusing on literary societies and dramatic clubs, the author inspects the impact of social and educational university organizations on the town's popular culture from the Gilded Age to the Progressive Era. Morelock's work is an enlightening analysis of the intersection between student and citizen intellectual life in the Bluegrass city during an era of profound change and progress. Taking the Town explores an overlooked aspect of Lexington's history during a time in which the city was establishing its cultural and intellectual identity.

Rock Art Of Kentucky Fred E. Coy Jr., Thomas C. Fuller, Larry G. Meadows, James F. Swauger, 2014-10-17 Rock Art of Kentucky is the first comprehensive documentation of the fragile remnants of Kentucky's prehistoric Native American

rock art sites. Found in twenty-two of Kentucky's counties, these sites span a period of more than three thousand years. The most frequent design elements in Kentucky rock art are engravings of the footprints of birds, quadrupeds, and humans. Other design elements include anthropomorphs, mammals, birds, reptiles, fish, and abstract and geometric figures. Included in the book are stunning illustrations of the sixty confirmed sites and ten destroyed or questionable sites. In the thirty some years during which this information was collected, there has been an alarming deterioration of many of the sites. Ancient carvings have been destroyed by graffiti or have lost extensive detail because of climatic or environmental conditions, such as acid rain. Although all the Kentucky sites are officially listed on the National register of Historic Places, several no longer exist or are at present inaccessible. In addition to making data available for the first time to the national and international archaeological community for further comparative and interpretive studies, Rock Art of Kentucky is also for nonspecialists interested in prehistoric Kentucky and Native American studies.

Two Gentlemen of Kentucky (Classic Reprint)

James Lane Allen, 2015-07-01 Excerpt from Two Gentlemen of Kentucky It was near the middle of the afternoon of an autumnal day, on the wide,

grassy plateau of Central Kentucky. The Eternal Power seemed to have quitted the universe and left all nature folded in the calm of the Eternal Peace. Around the pale-blue dome of the heavens a few pearl-colored clouds hung motion less, as though the wind had been withdrawn to other skies. Math Fact Fluency Jennifer Bay-Williams,Gina Kling,2019-01-14 This approach to teaching basic math facts, grounded in years of research, will transform students' learning of basic facts and

help them become more confident, adept, and successful at math. Mastering the basic facts for addition, subtraction, multiplication, and division is an essential goal for all students. Most educators also agree that success at higher levels of math hinges on this fundamental skill. But what's the best way to get there? Are flash cards, drills, and timed tests the answer? If so, then why do students go into the upper elementary grades (and beyond) still counting on their fingers or experiencing math anxiety? What does research say about teaching basic math facts so they will stick? In *Math Fact Fluency*, experts Jennifer Bay-Williams and Gina Kling provide the answers to these questions—and so much more. This book offers everything a teacher needs to teach, assess, and communicate with parents about basic math fact instruction, including The five fundamentals of fact fluency, which provide a research-based framework for effective instruction in the basic facts. Strategies students can use to find facts that are not yet committed to memory. More than 40 easy-to-make, easy-to-use games that provide engaging fact practice. More than 20 assessment tools that provide useful data on fact fluency and mastery. Suggestions and strategies for collaborating with families to help their children master the basic math facts. *Math Fact Fluency* is an indispensable guide for any educator who needs to teach basic math facts.

I Am Two from Kentucky J. C. Kirby, 1979-01-01

Central Kentucky Dixie Hibbs, Carl Howell, 2000

With over two hundred specially selected postcards created between 1900 and 1930, this visual history

explores life in five Central Kentucky counties in the early twentieth century. Family stories abound, and Main Street scenes depict county court days, trials, and parades, together with the stagecoaches, buggies, and trains of a bygone era. Tourist sites such as My Old Kentucky Home, Lincoln Homestead, and Tatham Springs are included, as well as distilleries, hotels, depots, bridges, and a chautauqua. Images of Protestant and Catholic schools, colleges, churches, convents, and monasteries show the reader how this area came to be known as the Kentucky Holy Land.

Transactions on Large-Scale Data- and Knowledge-Centered Systems LIII Abdelkader Hameurlain, A Min Tjoa, 2023-02-08 The LNCS journal Transactions on Large-scale Data and Knowledge-centered Systems focuses on data management, knowledge discovery, and knowledge processing, which are core and hot topics in computer science. Since the 1990s, the Internet has become the main driving force behind application development in all domains. An increase in the demand for resource sharing (e.g. computing resources, services, metadata, data sources) across different sites connected through networks has led to an evolution of data- and knowledge-management systems from centralized systems to decentralized systems enabling large-scale distributed applications providing high scalability. This, the 53rd issue of Transactions on Large-scale Data and Knowledge-centered Systems, contains six fully revised selected

regular papers. Topics covered include time series management from edge to cloud, segmentation for time series representation, similarity research, semantic similarity in a taxonomy, linked data semantic distance, linguistics-informed natural language processing, graph neural network, protected features, imbalanced data, causal consistency in distributed databases, actor model, and elastic horizontal scalability.
