The student must be able to understand their meanings. The texts: MER is divided into thirteen Chapters covering a range of topics ranging from school and family, home, employment, interests and leisure and animals Each chapter offers essential vocabulary related to its topic, as well as important verbs and idioms that are generally difficult for beginning learners. Throughout each Chapter, students have the opportunity to be very active and engaged learners. It is possible to go through the next one in random order. Each chapter is almost independent. Students who are successful in speaking fluently know that the language is not mastered by studying, but by speaking. This means using English. The use of English broadens the experience and this experience makes you a better English speaker. Now we want you to be clear about what you will learn and want to learn with the
