*TECHNIQUES OF CLAIM SETTLEMENT* JAGENDRA  
RANA, 2022-09-22 Claim settlement is one of the most important services that an insurance company can provide to its customers. Insurance companies have an obligation to settle claims promptly. Technology is now being increasingly utilised to make the insurance claims simpler, faster and more cost effective. The nature of the claims process makes certain tasks repetitive, and the outdated processes do little to improve claim turnaround times, leading to frustrated customers. Advancements are being made in the field of Artificial Intelligence (AI), and the technology holds enormous potential for disrupting the insurance industry, especially the claims process. Times are changing slowly but surely as insurance companies are embracing technology in an attempt to make the claims process faster, consistent and qualitative.

Man-Elephant Conflict Nilanjana Das  
Chatterjee, 2016-09-29 This book sheds new light on the causes and consequences of elephant migration in the Panchet Forest Division of Bankura District in West Bengal, India- an area characterized by fragmented forested landscape modified by agriculture and settlement expansion. Anthropogenic activities result in the decline in

quality and coverage of forests, loss of biodiversity and removal of forest corridors which ultimately restrict or modify the movement of elephants causing a forceful change of their habitats. A major objective of this monograph is to identify the characteristics of man–elephant conflicts in terms of land use change, cropping patterns, ecological characteristics of the fragmented dry deciduous forest, trends and patterns of elephant migration, and livelihood patterns of the inhabitants in the affected areas. Readers will discover insights into changes in the behavioral pattern of elephants and local people in the conflict ridden zones, and how this influences food selection. Through this book we also learn about rational management strategies that can be employed on the local and national level to mitigate human-elephant conflicts. Ecologists, landscape conservation planners and environmental managers engaged in the conservation of large vertebrates in fragmenting and human-dominated landscapes will find this book valuable.

**Police Matters** Radha Kumar, 2021-05-15 *Police Matters* moves beyond the city to examine the intertwined nature of police and caste in the Tamil countryside. Radha Kumar argues that the colonial police deployed rigid notions of caste in their everyday tasks, refashioning rural identities in a process that has cast long postcolonial shadows. Kumar draws on previously unexplored police archives to enter the dusty streets and market squares where local constables walked, following their gaze and observing their actions towards potential subversives. *Station*

records present a textured view of ordinary interactions between police and society, showing that state coercion was not only exceptional and spectacular; it was also subtle and continuous, woven into everyday life. The colonial police categorized Indian subjects based on caste to ensure the security of agriculture and trade, and thus the smooth running of the economy. Among policemen and among the objects of their coercive gaze, caste became a particularly salient form of identity in the politics of public spaces. *Police Matters* demonstrates that, without doubt, modern caste politics have both been shaped by, and shaped, state policing. Thanks to generous funding from the Andrew W. Mellon Foundation, through The Sustainable History Monograph Pilot, the ebook editions of this book are available as Open Access volumes from Cornell Open ([cornellpress.cornell.edu/cornell-open](http://cornellpress.cornell.edu/cornell-open)) and other repositories.

**Lost Victory** Raj K. Mehta, 2010 Anyone who has studied the over 30-year-old Sri Lankan conflict with detachment will perhaps agree that not other phrase can define the Prabhakaran conundrum better than *Lost Victory*. He had almost succeeded in his goal of getting a Tamil Eelam with most of his conditions agreed to by the Sri Lankan Government.

Role of Lawyers, Religion and History N. C. Beohar, 2023-02-04 This book chronicles the role of the lawyers, forces of religion (organized religion), and history in the attainment of the independence of India and in the partition of the country. The book also deals with such issues as the liberations of the Portuguese, French, Dutch,

and Dane possessions in India, probes into the persons who were responsible for the partition of India, and whether Pakistan should celebrate the 14th of August as their day of birth rather than the day of independence, whether crimes against humanity were committed in 1946-1947, and who were responsible for them. The book also highlights the pioneer role of the Tribals in the Freedom Movement of India

**The Seeker** Sunita PantBansal, 2015-09-09 The Seeker by Sunita Pant Bansal This is the story of a business tycoon, who seems to have it all. Yet something is missing. Throughout his life, he leaves everything that is important to him to seek this something. This happens, not only once but several times in his life. He leaves his family, his business, his Guru. He goes through lifes pleasures, pain, and even penance, but is unable to find what he is seeking. On a parallel track runs the story of his estranged wife, living in another country. They do not communicate with each other, but share a deep bond, an intense chemistry, that somehow strengthens them in their personal quests and binds them together though far apart. There is a parallel drawn between our protagonists life and the Buddhas, through dreams and visions. The story spans a month, starting when Vik, in his perennial restless search, begins to have strange dreamsthey seem to be telling him something, somehow connecting his life to that of Siddharth, the Buddha.

Performance at the Urban Periphery Cathy Turner, Sharada Srinivasan, Jerri Daboo, Anindya Sinha, 2022-06-30 This edited volume considers performance in its engagement with expanding Indian cities, with a particular focus on festivals and performances in Karnataka, Tamil Nadu and Kerala. The editors ask how performance practices are affected by urbanisation, the effects of such changes on their cultural economy, and the environmental impacts of performance itself. This project also considers how performance responds to its context, and the potential for performance to be critical of the city's development, and of its own compromises. Bringing together perspectives from the humanities, natural and social sciences, the book takes a multi-faceted analytical view of live performance, connecting contemporary with heritage forms, and human with more-than-human actors. The three sections, themed around heritage, everyday life, and future ecologies, will be of great interest to students and scholars in performance, heritage studies, ecology and art history.

An Interdisciplinary Approach for Disaster Resilience and Sustainability Indrajit Pal,Jason von Meding,Sangam Shrestha,Iftekhara

Ahmed,Thayaparan Gajendran,2019-10-17 This book includes selected papers presented at the international expert forum on “Mainstreaming Resilience and Disaster Risk Reduction in Education,” held at the Asian Institute of Technology, Thailand on 1–2 December 2017. The journey towards disaster risk reduction and resilience requires the participation of a wide array of stakeholders ranging from academics to policymakers, to disaster managers. Given the multifaceted and interdependent nature of disasters, disaster risk reduction and resilience require a multidisciplinary problem-solving approach and evidence-based techniques from the natural, social, engineering, and other relevant sciences. Traditionally, hazard and disaster-related studies have been dominated by the engineering and social science fields. In this regard, the main purpose of this book is to capture the multidisciplinary and multisectoral nature of disaster risk reduction, and to gather existing data, research, conceptual work, and practical cases regarding risk reduction and its ties to sustainable development under a single “umbrella.” Along with the sustainability aspect, the book also links disaster risk reduction with development, technology, governance, education, and climate change, and includes discussions on challenges, solutions, and best practices in the

mainstreaming of disaster risk reduction.
