Regionalist Parties in Western Europe OSCAR MAZZOLENI, Sean Mueller, 2016-08-25 Regionalist parties matter. Over the past 40 years, they have played an ever-larger role in West European democracies. Because of their relevance and temporal persistence, their achievements have increasingly become visible not only in electoral arena, but also as regards holding office and policy-making. Enhancing our understanding of these different dimensions of success, this book analyses various types of regionalist party success. Beyond conventional perspectives, the focus of this book is also on how the dimensions of success are related to each other, and in particular to what extent electoral and office success – jointly or alternatively – contribute to policy success. Adopting a common theoretical framework and combining the in-depth knowledge of country experts, each chapter explores the evolution and impact of regionalist parties in regional or federal states, that is the UK, Germany, Italy, Spain, Belgium, and Switzerland. This allows for a comprehensive and comparative analysis of one of the main political challenges within West-European democracies.

Resort Spatiality Zelmari Cantillon, 2018-10-16 This book theorises resorts as distinct kinds of urban milieux, capturing the complexity of destinations famous for ‘sun, sand and sex’ mass tourism. Drawing on qualitative field research (participant observation, interviews and photography), the book discusses examples from six international resort destinations spread across four continents: the Gold

Coast, Australia; Phuket and Koh Phangan, Thailand; Cancún, Mexico; Miami, USA; and Ibiza, Spain. The book reviews the material and symbolic production of lived spaces in these resorts, considering the mutually constitutive, mutually transformative relations between their spatial formations, built environments, popular imaginaries, representations, narratives of identity, rhythms, and the experiences and practices of both tourists and locals. In doing so, it argues for more nuanced ways of conceptualising tourism, globalisation and spatiality, reimagining how these phenomena unfold in lived spaces. Taking a cultural studies approach to urban analysis, the book demonstrates the value in embracing complexity, fluidity, partiality and uncertainty. It will be of interest to students and researchers of tourism, geography, cultural studies, development studies, anthropology and sociology.

How German Parties Select Candidates of Immigrant Origin Sara Ceyhan, 2020-10-31 This book analyzes the threshold candidates of immigrant background need to overcome to run for legislative office. Understanding whether political parties are able to adapt their selection criteria helps to assess their ability to respond to the underrepresentation of citizens of immigrant origin in parliament. Although Germany's ethnic diversity is on a steady rise, citizens of immigrant origin remain descriptively underrepresented. Despite the pivotal role the intra-party candidate selection plays in shaping who runs for election, the question of how candidates of immigrant background fare in political parties' candidate selection in comparison to native-born candidates remained a blind spot of research. Therefore, the author presents in-depth empirical evidence on the selection of candidates of immigrant background in German political parties. The book addresses scholars of political science interested in electoral studies as well as policy-makers and party officials interested in a balanced representation of their political representatives.

Community Interests Across International Law Eyal Benvenisti,Georg Nolte,Keren Yalin-Mor,2018

This book explores the extent to which contemporary international law expects states to take into account the interests of others - namely third states or their citizens - when they form and implement their policies, negotiate agreements, and generally conduct their relations with other states. It systematically considers the various manifestations of what has been described as 'community interests' in many areas regulated by international law and observes how the law has evolved from a legal system based on more or less specific consent and aimed at promoting particular interests of states, to one that is more generally oriented towards collectively protecting common interests and values. Through essays by experts in the field, this book explores topics such as the sources of international law and the institutional aspects of developing the law and covers a range of areas within the law.

Routledge Handbook on Political Parties in the Middle East and North Africa Francesco Cavatorta, Lise Storm, Valeria Resta, 2020-12-29 This comprehensive Handbook analyses the political parties and party systems across the Middle East and North Africa. Providing an in-depth, empirically grounded and novel study of political parties, the volume focuses on a region where they have been traditionally and often erroneously dismissed. The book is divided into five sections, examining: the trajectories of Islamist, Salafi, leftist, liberal, nationalist, and personalistic parties drawing from different countries; the role political parties play in authoritarian and semi-authoritarian countries; the centrality of political parties in democratic or democratising settings; the relationship between parties and specific social constituencies, ranging from women to youth to tribes and sects; and the policy positions of parties on a number of issues, including neo-liberal economics, identity, foreign policy and the role of violence. This wide-ranging and systematic analysis is a key resource for students and scholars interested in party politics, democratization and authoritarianism, and the Middle East and

North Africa. Chapter 18 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license available at www.taylorfrancis.com/books/edit/10.4324/9780429269219
