A More Beautiful and Terrible History Jeanne

Theoharis, 2018-01-30 Praised by The New York Times; O, The Oprah Magazine; Bitch Magazine; Slate; Publishers Weekly; and more, this is “a bracing corrective to a national mythology” (New York Times) around the civil rights movement. The civil rights movement has become national legend, lauded by presidents from Reagan to Obama to Trump, as proof of the power of American democracy. This fable, featuring dreamy heroes and accidental heroines, has shuttered the movement firmly in the past, whitewashed the forces that stood in its way, and diminished its scope. And it is used perniciously in our own times to chastise present-day movements and obscure contemporary injustice. In *A More Beautiful and Terrible History* award-winning historian Jeanne Theoharis dissects this national myth-making, teasing apart the accepted stories to show them in a strikingly different light. We see Rosa Parks not simply as a bus lady but a lifelong criminal justice activist and radical; Martin Luther King, Jr. as not only challenging Southern sheriffs but Northern liberals, too; and Coretta Scott King not only as a “helpmate” but a lifelong economic justice and peace activist who pushed her husband’s activism in these directions. Moving from “the histories we get” to “the histories we need,” Theoharis challenges nine key aspects of the fable to reveal the diversity of people, especially women and young people, who led the movement; the work and disruption it took; the role of the media and “polite racism” in maintaining injustice; and the immense barriers and repression activists faced. Theoharis makes us reckon with the fact that far from being acceptable, passive or unified, the civil rights movement was unpopular, disruptive, and courageously persevering. Activists embraced an expansive vision of justice—which a

majority of Americans opposed and which the federal government feared. By showing us the complex reality of the movement, the power of its organizing, and the beauty and scope of the vision, Theoharis proves that there was nothing natural or inevitable about the progress that occurred. A More Beautiful and Terrible History will change our historical frame, revealing the richness of our civil rights legacy, the uncomfortable mirror it holds to the nation, and the crucial work that remains to be done. Winner of the 2018 Brooklyn Public Library Literary Prize in Nonfiction

A Biased Biography David Martin Davis, 2004-10 Come on in and share in the full history of a displaced, but not misplaced, rebel. David Martin Davis was born and reared in North Carolina, migrated to Ohio after World War II and lives peaceably among the Yankees of Springfield. He enjoyed, and you can enjoy, five professions--visual communication engineer, artist, writer, editor and publisher--and three careers, practicing in the United States Air Force (secrets and all); the Springfield, Ohio Art Center, curator and publicist; and Graphic Paper Products Corporation, producer of study aids for high school and college. This is mainly a book for children--his. And for you and yours also, if you share in the idea of the main true story, that hard work and dedication are their own reward. Also included are vignettes of people important in his life and memories that have persisted. Ups and downs are part of everyone's life, as well as spans of time that are neither, but the ordinary tenor of things. In the bad parts there is only one way to survive--keep your head down and keep digging. Simply, the absence of the bad boosts most of the rest of life to a pleasant plateau.

Davis,2011-07-19 noneAs I was working on the cover, looking at the photos of what our brain neurons look like, I began to think it looked like one of my favorite games, Asteroids, when your goal was to destroy the asteroids before they destroyed your spaceship. That was 30 years ago. I thought how funny it would be to paint into the cover picture a space ship like that to see if anyone would notice it, but the more I thought about it, the

more it made me laugh. So I designed my own game in my imagination station and drew them out here for you to enjoy, Ill call it Seizuroids with the goal to destroy all the meteorites called, fear, stress, anxiety, worry, depression, loneliness, and anger before it hits the brain, causing a seizure and destroying all the electrical neutrons.
