They Know Not What They Do Jussi Valtonen,2017-11-02 A FAMILY UNDER THREAT. A FATHER'S WORST NIGHTMARE... On the surface, Joe Chayefski has it all. A great job, a beautiful wife and two perfect daughters. But when the lab he works in as a neuroscientist is attacked, Joe is forced to face the past and reconnect with the son he abandoned twenty years earlier. As Joe struggles to deal with the sudden collision of his two lives, he soon finds he needs to take drastic action to save the people he loves. Gripping and suspenseful, They Know Not What They Do skilfully weaves together the big issues of the day- the relationship between science and ethics, and people's increasing inability to communicate - into an ambitious page-turner of a novel.

They Know Everything About You Robert Scheer,2015-02-24 They Know Everything About You is a groundbreaking exposé of how government agencies and tech corporations monitor virtually every aspect of our lives, and a fierce defense of privacy and democracy. The revelation that the government has access to a vast trove of personal online data demonstrates that we already live in a surveillance society. But the erosion of privacy rights extends far beyond big government. Intelligence agencies such as the NSA and CIA are using Silicon Valley corporate partners as their data spies. Seemingly progressive tech companies are joining forces with snooping government agencies to create a brave new world of wired tyranny. Life in the digital age poses an unprecedented challenge to our constitutional liberties, which guarantee a wall of privacy between the individual and the government. The basic assumption of democracy requires the ability of the individual to experiment with ideas and associations within a protected zone, as secured by the Constitution. The unobserved moment embodies the most basic of human rights, yet it is being squandered in the name of national security and consumer convenience. Robert Scheer argues that the information revolution, while a source of public enlightenment, contains the seeds of freedom's destruction in the form of a surveillance state that exceeds the wildest dream of the most ingenious dictator. The technology of surveillance, unless vigorously resisted, represents an existential threat to the liberation of the human spirit.

Do They Know It's Christmas Yet? James Crookes,2020-12-09 Switch off the 21st century and take a step back to the 1980s. Do They Know It's Christmas, Yet? is a hilarious journey through love, loss, second chances and joyful hope. During a global pandemic, you'd be forgiven for thinking life couldn't become more complicated. Unless you are Tash and Jamie Summers. On Christmas Day 2020, an unfathomable - and entirely accidental - return to October 1984 causes significant collateral damage for these squabbling siblings, and they have conflicting obligations. Hers is to return to her baby son in 2020, his is to get 1984 back on track, because as it stands Bob Geldof won't form Band Aid or release the famine beating song Do They Know It's Christmas? Which is kind of a big deal, because the song led to USA For Africa, and Live Aid, the most famous live music event of all time. And it's all their fault. It's a tricky one: try to return home to your baby, or feed a million others? ...such a bloody brilliant story! The brilliance of the dialogue shines through Deserves to be made for TV! James Crookes has been writing comedy for TV and Radio for twenty years. He has contributed to shows on BBC One, CBBC and CBeebies, along with producing and co-presenting the Bauer Radio breakfast show, Big John @ Breakfast, since 2004.

That They Know Me C. H. Henry,2011-04-27 Charlene Henry had such an overwhelming spiritual hunger that she walked away from a successful career at the height of the economic slowdown just so that she could spend all of her time seeking a more intimate relationship with Jesus. Over the course of the next two years, Jesus rewarded her by frequently awakening her during the night to explain, in dreams and visions backed with scriptural references, the simplicity of the Gospel. She dutifully copied these visions in book form, and they are now being used around the world in Bible studies, prison ministries, and classes for new believers. The scriptures flow effortlessly from one subject to the next, and tie the whole New Testament together. You will learn how you can develop a personal relationship with Jesus, how you can distinguish God's voice from other voices, how to understand ten basic spiritual principles, and the six steps to praying more effectively. You will also discover your own particular spiritual gift and how to develop it. Prepare to have every area of your life radically transformed by this teaching! C. H. Henry is also the author of another book that highlights snapshots of Jesus from Genesis to Revelation, and one that extolls God's perfect love for you.

How Did They Know? Laurine R. Blackson-White,2015-05-24 I discovered a collection of original poems written by my Mom one day as I was doing some cleaning at her home. I decided that it would be a wonderful tribute to her to put them into a book as a Mother's Day and birthday gift. Two of the poems - How Did They Know? And The Candy were so funny, I thought they'd make great children's books. Look for The Candy soon!

Do They Know I'm Running? David Corbett,2012-11-27 Caught up in a scheme to smuggle his deported uncle back across the border, a young American must fight to save his family, himself, and the woman he loves At eighteen, Roque Montalvo is a gifted guitarist and a hit with women, but the rest of his life is a struggle. Orphaned at birth and scraping by in a rough Northern California town, he helps support his hardworking aunt and tends to his ex-marine brother—a physical and emotional wreck after his tour in Iraq. Then, to make matters worse, his uncle gets snared in a workplace raid and federal immigration agents deport him back to El Salvador. When Montalvo's loose-cannon cousin, himself a former deportee, shows up unannounced, he draws Montalvo into a scheme to rescue his uncle and bring him back home. It's a perilous undertaking in the best of cases, now that gangs and organized crime control the smuggling routes, and the risk ratchets higher when Montalvo learns he'll be transporting not just his uncle, but also a Palestinian refugee and a young beauty destined for the clutches of a fierce Mexican crime boss. A gritty, realistic, and unforgettable adventure where all borders are tested, Do They Know I'm Running? tightropes the perilous line between menace and hope, danger and home.

Gosh, Mom! Don't They Know You're Not Anybody? Judy Dye,2019-10-14 As a professional singer, Judy Dye has concertized in many venues that have included the Kennedy Center, the National Gallery in Washington DC, and Teddy Roosevelt's home in New York City. But her most memorable concert experience was when, while performing at The Toledo Zoo's annual summer concert series, a pigeon made an unwarranted deposit on the shoulder of her beautiful evening gown. In a memoir filled with humorous and poignant vignettes and observations, Judy leads others through her varied experiences as she followed her dream of becoming a professional vocalist, traveled the world, married and became a mother, and embraced all that life had to offer. Gosh, Mom! Don't They Know You're Not Anybody? shares true stories from a professional singer as she laughed, loved, and followed her dream.

What We Cannot Know Marcus Du Sautoy,2016 Britain's most famous mathematician takes us to the edge of knowledge to show us what we cannot know. Is the universe infinite? Do we know what happened before the Big Bang? Where is human consciousness located in the brain? And are there more undiscovered particles out there, beyond the Higgs boson? In the modern world, science is king: weekly headlines proclaim the latest scientific breakthroughs and numerous mathematical problems, once indecipherable, have now been solved. But are there limits to what we can discover about our physical universe? In this very personal journey to the edges of knowledge, Marcus du Sautoy investigates how leading experts in fields from quantum physics and cosmology, to sensory perception and neuroscience, have articulated the current lie of the land. In doing so, he travels to the very boundaries of

understanding, questioning contradictory stories and consulting cutting edge data. Is it possible that we will one day know everything? Or are there fields of research that will always lie beyond the bounds of human comprehension? And if so, how do we cope with living in a universe where there are things that will forever transcend our understanding? In *What We Cannot Know*, Marcus du Sautoy leads us on a thought-provoking expedition to the furthest reaches of modern science. Prepare to be taken to the edge of knowledge to find out if there's anything we truly cannot know.

So What Do They Really Know? Cris Tovani,2023-10-10 *So What Do They Really Know?* Cris Tovani explores the complex issue of monitoring, assessing, and grading students' thinking and performance with fairness and fidelity. Cris describes the systems and structure she uses in her own classroom and shows teachers how to use assessments to monitor student growth and provide targeted feedback that enables students to master content goals. She also shares ways to bring students into the assessment cycle so they can monitor their own learning, maximizing motivation and engagement. *So What Do They Really Know?* includes a wealth of information: Lessons from Cris's classroom Templates showing how teachers can use the workshop model to assess and differentiate instruction Student work, including samples from linguistically diverse learners, struggling readers, and college-bound seniors Anchor charts of student thinking Ideas on how to give feedback Guidelines that explain how conferring is different from monitoring Suggestions for assessing learning and differentiating instruction during conferences Advice for managing ongoing assessment Cris's willingness to share her own struggles continues to be a hallmark of her work. Teachers will recognize their own students and the challenges they face as they join Cris on the journey to figure out how to raise student achievement.

How Do They Know That? Michael V. Angrosino,2010-02-22 In relatively few pages, Michael Angrosino delivers a high-impact, step-by-step guide to the process of social research. While stressing qualitative methods, he also discusses the processes and attributes of quantitative methods, offering a coherent view of an eight-phased research process. He shows how the phases are linked, how they lead logically from one to the other, and how the end result can have broad implications. Angrosino's description of conducting research for one of his own projects adds a real-world perspective. Thus, students about to embark on their first independent research project, or individuals with some familiarity and experience, are equipped with an accessible multidisciplinary formula dovetailed with clear illustrations of how each step works. Each chapter ends with a highly selective list of suggested readings for further exploration as well as discussion questions designed to apply each step in the process to a research project developed by the reader.

Eat First -- You Don't Know What They'll Give You Sonia Pressman Fuentes,1999-11-24 *EAT FIRST--YOU DONT KNOW WHAT THEYLL GIVE YOU*, written with warmth and humor, is the story of Sonia Pressman Fuentes, one of the pioneers of the Second Wave of the womens movement and her family. Fuentes, who was born in Berlin, Germany, came to the US with her immediate family to escape the Holocaust. Her memoirs reveal how the five-year-old immigrant in 1934 became the first woman attorney in the Office of the General Counsel at the Equal Employment Opportunity Commission (EEOC) in 1965, one of the founders of the National Organization for Women (NOW) in 1966, the highest-paid woman at the headquarters of two multinational corporations: GTE and TRW, and an international speaker on womens rights for the US Information Agency. The story begins with the wedding of Fuentes parents, Hinda and Zysia Pressman, in Piltz, a town in Poland. It goes on to the adventures of the Pressmans and Fuentes in Berlin, Antwerp, the Bronx, the Catskills, Miami Beach, Los Angeles, Cleveland, Stamford (Connecticut), and Washington, DC. Along the way, Fuentes had encounters with Pat Ward (a notorious call girl in the 50s), Betty Friedan, Harry Golden, Dr. Cecil Jacobson (a prominent geneticist convicted on fifty-two counts of perjury and fraud), and many others. At forty-two, she married a handsome Puerto Rican and 1 years later, her Puerto Rican Jewish daughter was born. She tells about it all in *Eat First*. I walk in the footprints of Sonia Pressman Fuentes. --Patricia Ireland, president, NOW Evoking a tear here and a chuckle there, with her heart- warming wit and wisdom, Sonia Pressman Fuentes recounts the story of a Jewish family, her family, from her grandparents origin in a shtetl in Poland right through her own career as a founder of NOW and beyond. --Gus Tyler, columnist, contributing editor, *The Forward* Sonia Pressman Fuentes played a major role in the birth of the new womens movement and her tales of its early days will delight historians and those who are curious about the beginnings of this great social movement. Fuentes is a born story-teller, with a particular knack for seeing the humorous aspects of her life. --Dr. Bernice Sandler, Senior Scholar in Residence, National Association for Women in Education I referred to you just the other day (as I frequently do) as one of the `great, unsung heroes of the womens and civil rights movements. You single-handedly persuaded Roosevelt, Edelsberg, me and others to take sex discrimination seriously which, without you, we would not have done. --Charles T. Duncan, former General Counsel, EEOC; former Corporation Counsel of the District of Columbia; former Dean, Howard University School of Law For more reviews and interviews with the author of *Eat First--You Dont Know What Theyll Give You*, please visit <http://www.erraticimpact.com/fuentes>

The 11 Things Your Kids Should Know (So They Can Save America) Steve White,2012-03 Our country and our government have huge issues to deal with today. We have enormous debt, high unemployment, entitlement programs that are unsustainable, pornography, drug use, and skyrocketing divorce rates. We lack the honesty, integrity, and moral values of our forefathers. Our country isn't broken. People are broken. Author Steve White proposes a solution to these ever-increasing problems. In The 11 Things Your Kids Should Know (So They Can Save America), he discusses eleven important principles that should be the foundation of every child's upbringing. By focusing on these basic ideas that help young people form good moral compasses, White believes we can raise a generation that embodies the same values as the country's Founding Fathers, thereby bringing honesty, integrity, and moral values back to America. Some of the principles he discusses include teaching children to be nice, like themselves, make a difference, eat healthy and stay fit, never stop learning, and get to know God. Using real-life examples, White shows how we can equip today's children to make a difference, regain our value system, and save our nation.
