Migrant City Les Back, Shamser Sinha, 2018-06-18 *Migrant City* tells the story of contemporary London from the perspective of thirty adult migrants and two sociologists. Connecting migrants' private struggles to the public issues at stake in the way mobility is regulated, channelled and managed in a globalised world, this volume explores what migration means in a world that is hyper connected – but where we see increasingly mobile, invasive and technologically sophisticated forms of border regulation and control. *Migrant City* is an innovative collaborative ethnography based on research with migrants from a wide variety of social backgrounds, spanning in some cases a decade. It utilises recollections, photographs, poems, paintings, journals and drawings to explore a wide range of issues. These range from the impact of immigration control and surveillance on everyday life, to the experience of waiting for the Home Office to process their claims and the limits this places on their lives, to the friendships and relationships with neighbours that help to make London a home. This title will appeal to students, scholars, community workers and general readers interested in migration, race and ethnicity, social exclusion, globalisation, urban sociology, and inventive social research methods.

**House of Lords - Committee for Privileges and Conduct: The Conduct of Lord Cunningham of Felling - HL 94** Great Britain: Parliament: House of Lords: Committee for Privileges and Conduct, 2013-12-16 The report *The Conduct Of Lord Cunningham of Felling (HL 94)* follows a request by Lord O'Neill to investigate him following a conversation between Lord O'Neill and undercover journalists working for the 'Sunday Times', which was covertly recorded by the journalists. The journalists posed as strategic consultants representing a South Korean investor looking to market innovative solar technology in the United Kingdom. The consultants wanted to recruit parliamentarians to further the client's interests within Parliament and government. The journalists alleged that Lord Cunningham was in breach of the code by indicating he was willing to: (i) Host functions in the House of Lords on behalf of a paying client; (ii) Help establish an all-party group at the behest of the client; and (iii) Act as a paid advocate in the House and to provide parliamentary advice and services. In addition to those three allegations, which were published,

*Discourse, Gender and Shifting Identities in Japan* Claire Maree, Kaori Okano, 2018-02-13 This book is the first in a unique series drawn from an interdisciplinary, longitudinal project entitled 'Thirty Years of Talk.' For 30 years, Okano recorded ethnographic interviews and collected data on the language of working class women in Kobe, Japan. This long-range study sketches the transitions in these women's lives and how their language use, discourse and identities change in specific sociocultural contexts as they shift through different stages of their personal and public lives. It is a ground-breaking, 'real time' panel study that follows the same individuals and observes the same phenomena at regular intervals over three decades. In this volume the authors examine the changes in the speech of one particular woman, Kanako, as her social identity shifts from high-school girl to mother and fisherman's wife, and as her relationship with the interviewer develops. They identify changes in linguistic strategies as she negotiates gender/sexuality norms, stylistic features related to the construction of rapport, the use of discourse markers as she gets older, and the interviewer's information-seeking strategies.

*Society without God* Phil Zuckerman, 2008-10-01 "Silver" Winner of the 2008 Foreword Magazine Book of the Year Award, Religion Category Before he began his recent travels, it seemed to Phil Zuckerman as if humans all over the globe were "getting religion"—praising deities, performing holy rites, and soberly defending the world from sin. But most residents of Denmark and Sweden, he found, don't worship any god at all, don't pray, and don't give much credence to religious dogma of any kind. Instead of being

bastions of sin and corruption, however, as the Christian Right has suggested a godless society would be, these countries are filled with residents who score at the very top of the “happiness index” and enjoy their healthy societies, which boast some of the lowest rates of violent crime in the world (along with some of the lowest levels of corruption), excellent educational systems, strong economies, well-supported arts, free health care, egalitarian social policies, outstanding bike paths, and great beer. Zuckerman formally interviewed nearly 150 Danes and Swedes of all ages and educational backgrounds over the course of fourteen months. He was particularly interested in the worldviews of people who live their lives without religious orientation. How do they think about and cope with death? Are they worried about an afterlife? What he found is that nearly all of his interviewees live their lives without much fear of the Grim Reaper or worries about the hereafter. This led him to wonder how and why it is that certain societies are non-religious in a world that seems to be marked by increasing religiosity. Drawing on prominent sociological theories and his own extensive research, Zuckerman ventures some interesting answers. This fascinating approach directly counters the claims of outspoken, conservative American Christians who argue that a society without God would be hell on earth. It is crucial, Zuckerman believes, for Americans to know that “society without God is not only possible, but it can be quite civil and pleasant.”

**Reporting Islam** Jacqui Ewart, Kate O'Donnell, 2018-04-19 *Reporting Islam* argues for innovative approaches to media coverage of Muslims and their faith. The book examines the ethical dilemmas faced by Western journalists when reporting on this topic and offers a range of alternative journalistic techniques that will help news media practitioners move away from dominant news values and conventions when reporting on Islam. The book is based on an extensive review of international literature and interviews with news media editors, copy-editors, senior reporters, social media editors, in-house journalism trainers and journalism educators, conducted for the Reporting Islam Project. In addition, the use of an original model – the Transformative Journalism Model – provides further insight into the nature of news reports about Muslims and Islam. The findings collated here help to identify the best and worst reporting practices adopted by different news outlets, as well as the factors which have influenced them. Building on this, the authors outline a new strategy for more accurate, fair and informed reporting of stories relating to Muslims and Islam. By combining an overview of different journalistic approaches with real-world accounts from professionals and advice on best practice, journalists, journalism educators and students will find this book a useful guide to contemporary news coverage of Islam.

**The Guts** Roddy Doyle, 2014-01-23 Jimmy Rabbitte of *The Commitments* returns in the triumphant new novel from the Booker Prize-winning author of *Paddy Clarke Ha Ha Ha*. Watch for Roddy Doyle's new novel, *Smile*, coming in October of 2017. Full of the great joy in storytelling that characterizes Roddy Doyle's novels, *The Guts* catches up with Jimmy Rabbitte—the man who in the 1980s formed the *Commitments*, a band composed of working-class Irish youths whose mission was to bring soul music to Dublin. Jimmy is now forty-seven, with a loving wife, four kids . . . and colon cancer. The news leaves him shattered and frightened—he isn't dying, he thinks, but he might be. As he battles his illness while running a small music business, he runs into former bandmates, reunites with his brother, and decides to live more in the moment. *The Guts* is a warm, funny novel about friendship and family, about facing death and opting for life.

**Mounthaven** Bernard Peyton Chamberlain, Jr., 2013-03-20 *Mounthaven* is a multi-layered tale. Four generations and a hundred years of a Virginia family that, having survived the Civil War, acquires a derelict mansion and surrounding acreage called Mounthaven. The year is 1903. The place is already over a century old when Mary Carter Stokes, wife of a failed Yankee gentleman farmer and daughter of Major Moses Carter, late of the Army of Northern Virginia, first sees the property no plumbing, no electricity

and the grounds a total disaster -- and it begins to sink in that this is to be where she will eventually die. Thus it becomes the story of Marys elder son, Edmund Carter Stokes and his Yankee but wealthy bride, as Ed, using Mounthaven as a base, struggles to complete the mission laid upon him by his mother-- to restore the family to the place in society it occupied before the war while Eds own son, Carter, flounders to free himself from these very values, for most of which Mounthaven serves as a decaying metaphor.

*Professional Lives of Community Corrections Officers: The Invisible Side of Reentry* Faith E. Lutze, 2013-11-07 One of the first contemporary works to bring together research focused on community corrections officers, *Professional Lives of Community Corrections Officers: The Invisible Side of Reentry*, by Faith E. Lutze, helps readers understand the importance of community corrections officers to the success of the criminal justice system. The author brings the important work of these officers out from the shadows of the prison and into the light of informed policymaking, demonstrating how their work connects to the broader political, economic, and social context. Arguing that they are "street-level boundary spanners" who are in the best position to lead effective reentry initiatives built on interagency collaboration, the author shows how community corrections officers can effectively lead a fluid response to reentry that is inclusive of control, support, and treatment. This supplement is ideal for community corrections or probation and parole courses to supplement core textbooks.

*Transcription Techniques for the Spoken Word* Willow Roberts Powers, 2005-11-01 This practical handbook tackles what you need to know before, during, and after transcription. Appropriate for varying levels of expertise and written for transcriptionists, ethnographers, researchers, oral historians, participant observers, and even amateurs who plan to write their family history, this helpful guide by ethnographer Willow Roberts Powers covers a wide range of essential topics: why transcription methodology is essential, factors to be considered before transcribing (including reasons not to create a transcript), stages of transcription and recommended guidelines, methodology, editing, incorporation of contextual information, transcribing performances, and finally the interactions between transcriptionists, participants in the record events, researchers, and other future users of the transcripts. Appendices contain sample forms, lists and discussions of punctuation symbols typically used for notation systems, and sample excerpts from real transcripts

*Spoken Corpus Linguistics* Svenja Adolphs, Ronald Carter, 2013-07-18 In this book, Adolphs and Carter explore key approaches to work in spoken corpus linguistics. The book discusses some of the pioneering challenges faced in designing, building and utilising insights from the analysis of spoken corpora, arguing that, even though writing is heavily privileged in corpus research, the spoken language can reveal patterns of language use that are both different and distinctive and that this has important implications for the way in which language is described, for the study of human communication and for the field of applied linguistics as a whole. *Spoken Corpus Linguistics* is divided into two main parts. The first part sets the scene by discussing traditional and new approaches to monomodal spoken corpus analysis, with a focus on discourse organisation and conversational interaction and with particular attention to forms of language such as discourse markers and multi-word units, areas of language not conventionally described but which are argued to be of importance to spoken language description and to spoken language learning and teaching research within the field of applied linguistics. The second part of the book moves into the multimodal domain and focuses on alignments between language and gesture in a spoken corpus, with particular reference to gestural movements of the head and the hand and to the different ways in which prosody might be used to enhance communication. A brief final chapter discusses new developments in the area of spoken corpus research, including the relationship between language and context, emerging

research methods as well as discussing possible shifts in scope and emphasis in spoken corpus research in the future.

*Doom Creek* Alan Carter, 2020-12-01 Sergeant Nick Chester has dodged the Geordie gangsters he once feared, is out of hiding and looking forward to a quiet life. But gold fever is creating ill-feeling between prospectors, and a new threat lurks in the form of trigger-happy Americans preparing for Doomsday by building a bolthole at the top of the South Island. As tensions simmer in the Wakamarina valley, Nick finds himself working on a cold-case murder and investigating a scandal-plagued religious sect. When local and international events reach fever pitch, Chester finds himself up against an evil that knows no borders.

*Wild Hearts* Heather Tullis, 2013-12-22 Finding Love in the Rocky Mountains was not in her plans--and she was a devil with plans Delphi Gifford has nearly given up on finding someone she could love as much as her dead husband, Fallon, who had died while they were still in college. Certainly local photographer Jeremy Litster wasn't at the top of her list, egomaniac that he is--even if he did drive the hottest racing motorbike she'd ever touched. Jeremy knew George DiCarlo had hand-picked him to marry Delphi, but hadn't counted on her not being in the loop. After working together for six months, though, he seriously regrets his misstep and begins a careful campaign to win her over. When someone tries to take the two of them out, he has to figure out what they did or saw that put them both in danger.

*Getting By* Mckenzie, Lisa, 2015-01-14 While the 1% rule, poor neighbourhoods have become the subject of public concern and media scorn, blamed for society's ills. This unique book redresses the balance. Lisa Mckenzie lived on the St Ann's estate in Nottingham for more than 20 years. Her 'insider' status enables us to hear the stories of its residents, often wary of outsiders. St Ann's has been stigmatised as a place where gangs, guns, drugs, single mothers and those unwilling or unable to make something of their lives reside. Yet in this same community we find strong, resourceful, ambitious people who are 'getting by', often with humour and despite facing brutal austerity.

*The Chimera of Prague: Paperback edition* Rick Pryll, 2017-11-17 Pryll captures all the international sexual tension and possibility that was 1990s Prague. - Bonnie Ditlevsen, editor, Penduline Press  
Divorced expat, Joseph, takes a gap year in the late nineties, womanizing Prague with a vengeance. He obsesses over one elusive girl, and tires of the parade of women he assimilates into his sad life. Along the way, he figures three things out. First, he is going to end up alone. Second, the object of his infatuation is changed by the infatuation, rendering her incompatible with him, and third, the search is not about the girl. It is about unearthing a way to love himself again. His soulmate is out there. In fact, he may have already met her. Chimera features a unique story-within-the-story format as Joseph digs from finish to start through his first love in an attempt to understand his particular brand of dysfunction. As much as the big story is about a love affair with a magical city, the vignettes are an ode to Western New York State from which he hails, and the woman who originally broke his heart.

**The Critical Analysis of Religious Diversity** Lene Kühle, Jørn Borup, William Hoverd, 2018-06-19 This book explores a selection of trans-contextual case studies within religious diversity scholarship to develop a series of theoretical and methodological considerations for scholars to utilize when they conduct their own studies of religious diversity.

**A birth date, first name, activity and place are determined for each character. Each clue is printed on one page (pages 203 through 215). The birth dates are listed on p.57, the first names on p.463, the activities on p.567, and the places on p.654.** Todd Van Buskirk, 2015-02-14 The novel is essentially constructed of two parts; the categories and the clues. It is a mystery regarding four characters in the form of a logic grid puzzle. In each puzzle you are given a series of categories, and an equal number of options within each category. Each option is used once and only once. Each puzzle has only one unique solution, and each can be solved using simple logical processes (i.e. educated guesses are not required). The Logic Grid Puzzle is popular among puzzle enthusiasts and available in magazines dedicated to the subject. It is a format in which the set-up to a scenario is given, as well as the object (for example, determine who brought what dog to a dog show, and what breed each dog was), certain clues are given (neither Misty nor Rex is the German Shepherd), and then the reader fills out a matrix with the clues and attempts to deduce the solution.

**Analysing Qualitative Data in Psychology** Evanthia Lyons, Adrian Coyle, 2007-10-25 Analysing Qualitative Data in Psychology equips students and researchers in psychology and the social sciences to carry out qualitative data analysis, focusing on four major methods (grounded theory, interpretative phenomenological analysis, discourse analysis and narrative analysis). Assuming no prior knowledge of qualitative research, chapters on the nature, assumptions and practicalities of each method are written by acknowledged experts. To help students and researchers make informed methodological choices about their own research the book addresses data collection and the writing up of research using each method, while providing a sustained comparison of the four methods, backed up with authoritative analyses using the different methods.
