Returning to Reality Phillip M. Thompson, 2012-11-14 This book synthesizes the diverse reflections on technology by monk and spiritual writer Thomas Merton to develop a compelling contemplative critique of the threats and challenges of nuclear war, communication technologies, and biotechnologies that may alter what it means to be human. At the core of his critique, Merton opposes a technological mentality that favors processes of efficiency and utility at the expense of our ultimate purpose, a quest for the wisdom to guide us to the divine source of our being and reality. To counter this modern idolatry, Merton's insights offer a path of reflection, balance, and community. More specifically, Merton offers some constructive approaches and healing possibilities through a balanced approach to work, a careful and intentional managing of technology, and an accessing of the recuperative dimensions of nature. In its conclusion the book brings the insights of these chapters together for a final reflection on how to maintain our humanity and our spiritual integrity in a technological world.

She used to work for the U.S. government, but very few people ever knew that. An expert in her field, she was one of the darkest secrets of an agency so clandestine it doesn't even have a name. They've killed the only other person she trusted, but something she knows still poses a threat. They want her dead, and soon. When her former handler offers her a way out, she realizes it's her only chance to erase the giant target on her back. But it means taking one last job for her ex-employers.
