**Simplified Signs** John D.. Bonvillian, Nicole Kissane Lee, Tracy T. Dooley, Filip Loncke, Valerie Nelson-Metlay, 2021 *Simplified Signs* presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages. It is the culmination of over twenty years of research and development by the authors. The Simplified Sign System has been developed and tested for ease of sign comprehension, memorization, and formation by limiting the complexity of the motor skills required to form each sign, and by ensuring that each sign visually resembles the meaning it conveys. Volume 1 outlines the research underpinning and informing the project, and places the Simplified Sign System in a wider context of sign usage, historically and by different populations. Volume 2 presents the lexicon of signs, totaling approximately 1000 signs, each with a clear illustration and a written description of how the sign is formed, as well as a memory aid that connects the sign visually to the meaning that it conveys. While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities, cerebral palsy, autism, or aphasia, it may also assist the communication needs of a wider audience - such as healthcare professionals, aid workers, military personnel, travellers or parents, and children who have not yet mastered spoken language. The system also has been shown to enhance learning for individuals studying a foreign language. Lucid and comprehensive, this work constitutes a valuable resource that will enhance the communicative interactions of many different people, and will be of great interest to researchers and educators alike. As with all Open Book publications, this entire book is available to read for free on the publisher's website. Turban,2017-10-12 This new Edition of Electronic Commerce is a complete update of the leading graduate level/advanced undergraduate level textbook on the subject. Electronic commerce (EC) describes the manner in which transactions take place over electronic networks, mostly the Internet. It is the process of electronically buying and selling goods, services, and information. It is about e-learning, e-government, social networks, and much more. EC is having an impact on a significant portion of the world, affecting businesses, professions, trade, and of course, people. The most important developments in EC since 2014 are the continuous phenomenal growth of social networks, especially Facebook , LinkedIn and Instagram, and the trend toward conducting EC with mobile devices. Other major developments are the expansion of EC globally, especially in China where you can find the world's largest EC company. **Twelve Years a Slave** Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful

slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Yma Sumac Nicholas E. Limansky, 2008 Half the range of the piano keyboard! At last a serious critical examination of the utterly unique vocalist celebrated for her four-octave voice, Yma Sumac! A confounding, sometimes heartbreaking, mixture of absurd show-biz hype, stunning virtuosity, and sometimes ravishing artistry, Yma Sumac was a firmly established recording artist of the folk music of her native Peru when she came to America to be discovered. And discovered she was-by the publicity department of Capitol Records and the Exotica pop music maestro Les Baxter. From there her story becomes ever more tangled and weird-and deeply interesting. Yma herself is an amazingly contradictory mix. Nicholas Limansky (a formally trained professional singer) is able to demonstrate that she was startlingly sophisticated technically even though almost entirely self-taught. What is perhaps even more astonishing than the celebrated 4-octave range of her voice-and its effortless clarity and sweetness-was the nearly incredible longevity-fully 4 decades!-of her ability to command it. With the enthusiastic collaboration of her quixotic, charming, slightly rascally husband, she went along with the corruption of her artistic identity by the gleefully amoral record-company publicists, creators of her public persona-Inca Princess (sometimes Priestess!)-from a primitive mountain tribe (or, sometimes, descended from a line of kings that was said to go back several hundred years before there were any Incas)! Imperious as any diva with her intimates and musical collaborators, she maintained an unassailable dignity and

unaffected graciousness as a performer and in relation to her fans. All documented in this large, lavishly illustrated volume-an extensively researched biography (her birth date established once and for all!), many personal anecdotes of her intimates, technical discussions of her voice and her music, generous excerpts from reviews and priceless examples of publicity material. About the author: Nicholas E. Limansky studied voice at Peabody Conservatory in Baltimore and has a performance degree from the University of West Virginia. He has sung with The Bach Aria Group, Musica Sacra, New York Choral Artists (of the New York Philharmonic), and the Opera Orchestra of New York. He reviews new vocal releases of historical singers for Opera News, The Record Collector, Classical Singer and Opera Quarterly. His vocal specialty is the acuto-sfogato (extended-vocal-range) soprano. His work on Yma Sumac has covered nearly three decades.

**Achtung-Panzer!** Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
