*How My Prank Stories in 'You Tube' Made Me an Overnight Sensation* Jimmy Correa,2012-05 Here's a copy of Jimmy's resume taken from his YT channel, theloveman11378, no job too small or too big he won't tackle even if it kills you: Author, grave digger, prize fighter, military man, private dick, fire fighter, repo man, bank robber, hit man, singer, drummer, trapeze artist, tight rope walker, con man, ventriloquist, tango, mambo, & meringue instructor, secret agent man, midget wrestler, rapper, bass man, professional auditioner, mooner for hire, miner for gold, wheeler/dealer, organ stealer, pole dancer, cowboy, counterfeiter, American Idol wannabe, your man, and whatever else you want me to be... People ask me what do I do for a living, that would take all day but I can say I was once a king of the road, a hobo by trade, a man of the street. School, sure, school of hard knocks and I got plenty of lumps to prove it. I would hop on trains and have been from the east coast to the west coast about 25 times and I do know all the trains in between. I've been known to have sticky fingers. I pick not only locks but old stogies, you know, cigarette buds off the ground and I've done it all from pushing broom to pot washing and digging graves but I rather not talk about that cos I never heard of dumping 3 or 4 bodies into the same pit. If you see me coming step aside cos if you don't I will send you to the promise land. Hey enjoy Roger Miller he too is a hobo like me, a King Of The Road, ciao Jimmy

**Tube Ritual** Brian G. Johnson,2018-10-02 A successful YouTuber shares his strategic system for growing a channel—and going from zero to thousands of subscribers. You have to start with no videos, views, or subscribers. Furthermore, more than four hundred minutes of content is uploaded to YouTube each minute. To say that it's challenging to grow a channel is an understatement! In fact, less than three percent of YouTube channels ever gain more than ten thousand subscribers. Yet, in a one-year period, Brian G. Johnson gained 10,623 subscribers and drove over half a million video views. Truly beginning from zero, Brian had no previous YouTube success to draw from and had to learn the nuances of camera settings, editing options, and technical details that often become roadblocks. Furthermore, he did it in a small and competitive niche, the YouTube video marketing niche. How, you ask? By researching, testing, and tweaking various video growth methods over a one-year period in order to identify why the YouTube algorithm promotes one video over another. Ultimately, this led to the creation of a video ritual based on his findings—a series of actions according to a prescribed order. More than a mere guide, Tube Ritual is a one-year case study with the goal of driving more views and converting more viewers into subscribers. For those already creating videos or who want to in the future, Tube Ritual contains detailed, step-by-step information that plain works. Covering topics from branding to thumbnails, video structure, YouTube SEO, video calls to action, playlist strategies, channel strategies, and more, Tube Ritual leaves no stone unturned.

E-Pedagogy for the Digital Age Dr. P. C. Nagasubramani, Adult learners have more options for enrolling in postsecondary education than ever before, and they are able to use their learning style preference in deciding which program best meets their needs. For some of these students, those programs are fully online, and for others, there is minimal use of technology. As technology grows and become more integrated into individual lives, the unique learning styles and preferences of adults need to learn to be incorporated into instructional design. Drawing on a regional sample of US colleges, 545 adult learners in a graduate programs were surveyed about how to effectively build community in their online classes. Results indicated some agreement with these instructional tools. Mature adult learners, however, were found to have stronger agreement with strategies that included work outside of the formal online class. These results suggest perhaps a greater comfort for adults in working in spaces where there is less likelihood of being judged or graded, and that they might value relational work with other students in different ways than younger adults.
