How to Watch Television, Second Edition Ethan Thompson, Jason Mittell, 2020-03-31 A new edition that brings the ways we watch and think about television up to the present. We all have opinions about the television shows we watch, but television criticism is about much more than simply evaluating the merits of a particular show and deeming it “good” or “bad.” Rather, criticism uses the close examination of a television program to explore that program’s cultural significance, creative strategies, and its place in a broader social context. *How to Watch Television, Second Edition* brings together forty original essays—more than half of which are new to this edition—from today’s leading scholars on television culture, who write about the programs they care (and think) the most about. Each essay focuses on a single television show, demonstrating one way to read the program and, through it, our media culture. From fashioning blackness in *Empire* to representation in *Orange Is the New Black* and from the role of the reboot in *Gilmore Girls* to the function of changing political atmospheres in *Roseanne*, these essays model how to practice media criticism in accessible language, providing critical insights through analysis—suggesting a way of looking at TV that students and interested viewers might emulate. The contributors discuss a wide range of television programs past and present, covering many formats and genres, spanning fiction and non-fiction, broadcast, streaming, and cable. Addressing shows from TV’s earliest days to contemporary online transformations of the medium, *How to Watch Television, Second Edition* is designed to engender classroom discussion among television critics of all backgrounds. There is a revolution that has giant cable and satellite TV corporations worried. A major shift in how we watch TV is underway as each month hundreds of thousands of cable and satellite TV subscribers cut the cord and cancel their expensive subscriptions. In the first quarter of 2019 alone, the top ten U.S. cable and satellite TV providers lost 1.28 million customers. If that trend continues, more than 5 million cable and satellite TV subscribers will have cut their cable cord and ditched their satellite dish by the end of 2019. By the end of 2019, 34% of Americans are expected to have cut their cable TV cord or ditched their satellite TV dish. 61% of U.S. adults aged 18 to 29 and 37% aged 30 to 49 do not have cable or satellite TV and use online streaming services as their primary way to watch TV. 71% of cord-cutters stated their reason for cutting the cord was the high cost of cable and satellite TV. We Now Disrupt This Broadcast Amanda D. Lotz,2018-04-06 The collision of new technologies, changing business strategies, and innovative storytelling that produced a new golden age of TV. Cable television channels were once the backwater of American television, programming recent and not-so-recent movies and reruns of network shows. Then came La Femme Nikita, OZ, The Sopranos, Mad Men, Game of Thrones, and The Walking Dead. And then, just as “prestige cable” became a category, came House of Cards and Netflix, Hulu, Amazon Video, and other Internet distributors of television content. What happened? In We Now Disrupt This Broadcast, Amanda Lotz chronicles the collision of new technologies, changing business strategies, and innovative storytelling that produced an era termed “peak TV.” Lotz explains that changes in the business of television expanded the creative possibilities of television. She describes the costly infrastructure rebuilding undertaken by cable service providers in the late 1990s and the struggles of cable channels to produce (and pay for) original, scripted programming in order to stand out from the competition. These new programs defied television conventions and made viewers adjust their expectations of what television could be. Le Femme Nikita offered cable's first antihero, Mad Men cost more than advertisers paid, The Walking Dead became the first mass cable hit, and Game of Thrones was the first global television blockbuster. Internet streaming didn't kill cable, Lotz tells us. Rather, it revolutionized how we watch television. Cable and network television quickly established their own streaming portals. Meanwhile, cable service providers had quietly transformed themselves into Internet providers, able to profit from both prestige cable and streaming services. Far from being dead, television continues to transform.

A must-read for anyone concerned with the way media is manipulating our worldview, this newly revised edition addresses the evolving technology and devolving quality of America's television news programming.

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

From Scratch Tembi Locke, 2020-02-04 Now a limited Netflix series starring Zoe Saldana! This Reese Witherspoon Book Club Pick and New York Times bestseller is "a

captivating story of love lost and found” (Kirkus Reviews) set in the lush Sicilian countryside, where one woman discovers the healing powers of food, family, and unexpected grace in her darkest hours. It was love at first sight when actress Tembi met professional chef, Saro, on a street in Florence. There was just one problem: Saro’s traditional Sicilian family did not approve of his marrying a black American woman. However, the couple, heartbroken but undeterred, forged on. They built a happy life in Los Angeles, with fulfilling careers, deep friendships, and the love of their lives: a baby girl they adopted at birth. Eventually, they reconciled with Saro’s family just as he faced a formidable cancer that would consume all their dreams. From Scratch chronicles three summers Tembi spends in Sicily with her daughter, Zoela, as she begins to piece together a life without her husband in his tiny hometown hamlet of farmers. Where once Tembi was estranged from Saro’s family, now she finds solace and nourishment—literally and spiritually—at her mother-in-law’s table. In the Sicilian countryside, she discovers the healing gifts of simple fresh food, the embrace of a close knit community, and timeless traditions and wisdom that light a path forward. All along the way she reflects on her and Saro’s romance—an incredible love story that leaps off the pages. In Sicily, it is said that every story begins with a marriage or a death—in Tembi Locke’s case, it is both. “Locke’s raw and heartfelt memoir will uplift readers suffering from the loss of their own loved ones” (Publishers Weekly), but her story is also about love, finding a home, and chasing flavor as an act of remembrance. From Scratch is for anyone who has dared to reach for big love, fought for what mattered most, and those who needed a powerful reminder that life is...delicious.

Television and the Meaning of 'Live' Paddy Scannell,2014-01-27 This book is about the question of existence, the meaning of ‘life’. It is an enquiry into the contemporary human situation as disclosed by television. The elementary components of any real-world situation are place, people and time. These are first examined as basic existential phenomena drawing on Heidegger’s fundamental enquiry into the human situation in Being and Time. They are then explored through the technological and production care-structures of broadcast television which, routinely and exceptionally, display the situated experience of being alive and living in the world today. It shows routinely in the live self-enactments of persons being themselves and the liveness of their ordinary talk on television. It shows exceptionally in television coverage of great occasions and catastrophes as they unfold live and in real time. Case studies reveal the existential role of television in salvaging the possibility of genuine experience, and in revealing the world-historical character of life today. To explore these questions, the agenda of sociology - its concern with economic, political and cultural life - is set aside. Being in the world is not, in the first (or last) instance, a social but an existential question, as an existential enquiry into television today discovers. Passionate and sweeping in scale, this new book from a leading media scholar is a major contribution to our understanding of the media today.
