Barry, 2014-07-11 Existing literature indicated several influences of L1 Arabic on L2 English:~ Overuse of and~ Run-on sentences~ Omission or misuse of articles, prepositions, and relative clauses~ Omission or confusion of vowels~ Preference for root word groups~ Omission of punctuation~ Overuse of exaggeration Based on analysis of the writing samples, this study focused most on errors in punctuation, conjunctions, capitalization, and articles. **The Terror Years** Lawrence Wright, 2016-08-23 With the Pulitzer Prize-winning *The Looming Tower*, Lawrence Wright became generally acknowledged as one of our major journalists writing on terrorism in the Middle East. Here, in ten powerful pieces first published in *The New Yorker*, he recalls the path that terror in the Middle East has taken, from the rise of al-Qaeda in the 1990s to the recent beheadings of reporters and aid workers by ISIS. *The Terror Years* draws on several articles he wrote while researching *The Looming Tower*, as well as many that he's written since, following where and how al-Qaeda and its core cultlike beliefs have morphed and spread. They include a portrait of the "man behind bin Laden," Ayman al-Zawahiri, and the tumultuous Egypt he helped spawn; an indelible impression of Saudi Arabia, a kingdom of silence under the control of the religious police; the Syrian film industry, at the time compliant at the edges but already exuding a feeling of the barely masked fury that erupted into civil war; the 2006-11 Israeli-Palestinian conflict in Gaza, a study in the disparate value of human lives. Other chapters examine al-Qaeda as it forms a master plan for its future, experiences a rebellion from within the organization, and spins off a growing web of worldwide terror. The American response is covered in profiles of two FBI agents and the head of the intelligence community. The book ends with a devastating piece about the capture and slaying by ISIS of four American journalists and aid workers, and our government's failed response. On the fifteenth anniversary of 9/11, *The Terror Years* is at once a unifying recollection of the roots of contemporary Middle Eastern terrorism, a study of how it has grown and metastasized, and, in the scary and moving epilogue, a cautionary tale of where terrorism might take us yet.

### **Psychology of Arab Management Thinking** Majid Said Nasser Al Suleimany, 2009-04 A.02 -

About The Book - Psychology of Arab Management Thinking M For a long time now, I have been putting off the idea of writing this book - though it had been on my mind for a long time now. The mere idea of writing this book scared me to bits and pieces - for many valid and pertinent reasons. As Arabs, work is worshipped (Islamic Religion calls on us to respect work like as if it is in praying). We are also brought up to be polite, courteous and decent (at least a majority of us). Abrupt, ugly, rudeness and distort are discouraged. Also it is not easy to say NO - as part of the culture, customs, traditions and heritage. So what went wrong here - especially in Management circles? Why are we behind the rest of the world, despite all our riches and resources? I hope you will enjoy the book. I have tried to be as frank, open, forthright, honest, sincere and genuine as I can - as Readers who

know me can give credence and credibility to me and will vouch and authenticate my works. It is a no punch-spared, no barrels held stiff, no frills - play but to be as frank, open and honest as possible - so it can be a learning process for this generation and others to come in the future. I have not spared myself, so there is just for it to be honest, sincere, genuine and hard hitting - sparing no one. Just No One.

**Arab and Muslim Science Fiction** Hosam A. Ibrahim Elzembely,Emad El-Din Aysha,2022-03-21 How is science fiction from the Arab and Muslim world different than mainstream science fiction from the West? What distinctive and original contributions can it make? Why is it so often neglected in critical considerations of the genre? While other books have explored these questions, all have been from foreign academic voices. Instead, this book examines the nature, genesis, and history of Arabic and Muslim science fiction, as well as the challenges faced by its authors, in the authors' own words. These authors share their stories and struggles with censors, recalcitrant publishers, critics, the book market, and the literary establishment. Their uphill efforts, with critical contributions from academics, translators, and literary activists, will enlighten the sci-fi enthusiast and fill a gap in the history of science fiction. Topics covered range from culture shock to conflicts between tradition and modernity, proactive roles for female heroines, blind imitation of storytelling techniques, and language games.
