Reynaert de Vos, Tijl Uilenspiegel, Robinson Crusoe Deze namen staan in ons collectieve geheugen gegrift, maar hebben we wel allemaal dezelfde Reynaert, dezelfde Tijl, dezelfde Robinson, Gulliver, Münchhausen en Don Quichot voor ogen? De meeste mensen kennen deze personages namelijk niet uit de oorspronkelijke verhalen, maar uit herversellingen, uit kinderboekbewerkingen die elke nieuwe generatie lezers een nieuwe generatie helden bieden. Helden die net zoveel van hun literaire voorvaders kunnen verschillen als familieleden van elkaar. Juist omdat deze 'Klassiekers' steeds worden aangepast, vormen ze een prachtige bron voor het achterhalen van opvattingen over kinderen, opvoeding, onderwijs en literatuur door de tijd heen. In Meesterwerken met ezelsoren laat Sanne Parlevliet heel mooi zien hoe bewerkingen van literaire klassiekers zich

tussen 1850 en 1950 in een wankel evenwicht bevonden
tussen moralisme en vermaak, gevaar en bescherming,
massaproductie en literatuur, ethiek en esthetiek.

Dictionary of Building and Civil Engineering

,2013-12-20 In the last few decades civil engineering has
undergone substantial technological change which has,
naturally, been reflected in the terminology employed in
the industry. Efforts are now being made in many countries
to bring about a systematization and unification of
technical terminology in general, and that of civil
engineering in particular. The publication of a multilingual
dictionary of civil engineering terms has been necessitated
by the expansion of international cooperation and
information exchange in this field, as well as by the lack of
suitable updated bilingual dictionaries. This Dictionary
contains some 14.000 English terms together with their
German, French, Dutch and Russian equivalents, which are
used in the main branches of civil engineering and relate to
the basic principles of structural design and calculations

(the elasticity theory, strength of materials, soil mechanics and other allied technical disciplines); to buildings and installations, structures and their parts, building materials and prefabrications, civil engineering technology and practice, building and road construction machines, construction site equipment, housing equipment and fittings (including modern systems of air conditioning); as well as to hydrotechnical and irrigation constructions. The Dictionary also includes a limited number of basic technical expressions and terms relating to allied disciplines such as architecture and town planning, as well as airfield, railway and underground construction. The Dictionary does not list trade names of building materials, parts and machines or the names of chemical compounds. Nor does it give adverbial, adjective or verbal terms.

Developing Sustainable Careers Across the Lifespan Ans De Vos, Jean-Marie Dujardin, Tim Gielens, Caroline Meyers, 2016-11-30 This book offers insights into facilitating sustainable careers through the study of a wide interdisciplinary range of policy investigations and assessment of ongoing practices in the field. By assessing and comparing the transferability of policies and good practices between firms in ten countries and regions of the European Union this book considers the development of sustainable careers across the lifespan at the levels of individuals, organizations and systems. This book is the culmination of a research project from the international European Social Fund network on 'Career and Age, Generation, Experience (AGE)'. It discusses and offers observations on key concerns at the European level: How to make people work longer, remain employable,

develop sustainable competencies ? How to adapt the work environment and human resource management policies at employer's level ? And finally, how can public authorities take measures and incentives to support sustainable careers for individuals?

Western Anti-Communism and the Interdoc Network

Giles Scott-Smith, 2012-12-03 Interdoc was established in 1963 by Western intelligence services as a multinational effort to coordinate an anti-communist offensive. Drawing on exclusive sources and the memories of its participants, this book charts Interdoc's campaign, the people and ideas that lay behind it and the rise and fall of this remarkable network during the Cold War.

The Collaborative Economy in Action: European Perspectives Andrzej Klimczuk, Vida Česnaitė, Gabriela Avram, 2021-10-04 The book titled The Collaborative Economy in Action: European Perspectives is one of the important outcomes of the COST Action CA16121, From Sharing to Caring: Examining the Socio-Technical Aspects of the Collaborative Economy (short name: Sharing and Caring; sharingandcaring.eu) that was active between March 2017 and September 2021. The Action was funded by the European Cooperation in Science and Technology - COST (www.cost.eu/actions/CA16121). The main objective of the COST Action Sharing and Caring is the development of a European network of researchers and practitioners interested in investigating the collaborative economy models, platforms, and their socio-technological implications. The network involves scholars, practitioners, communities, and policymakers. The COST Action Sharing and Caring helped to connect research initiatives across Europe and enabled scientists to develop their ideas by

collaborating with peers. This collaboration opportunity represented a boost for the participants' research, careers, and innovation potential. The main aim of this book is to provide a comprehensive overview of the collaborative economy (CE) in European countries with a variety of its aspects for a deeper understanding of the phenomenon as a whole. For this reason, in July 2017, an open call for country reports was distributed among the members of the COST Action Sharing and Caring. Representatives of the member countries were invited to produce short country reports covering: definition(s) of the CE; types and models of the CE; key stakeholders involved; as well as legislation and technological tools relevant for the CE. Submitted reports varied in length and regarding the level of detail included, in accordance with how much information was available in each respective country at the time of writing. Editors of the book have compiled these early reports into a summary report, which was intended as a first step in mapping the state of the CE in Europe. The Member Countries Report on the Collaborative Economy, edited by Gaia Mosconi, Agnieszka Lukasiewicz, and Gabriela Avram (2018) that was published on the Sharing and Caring website, represented its first synergetic outcome and provided an overview of the CE phenomenon as interpreted and manifested in each of the countries part of the network. Additionally, Sergio Nassare-Aznar, Kosjenka Dumančić, and Giulia Piora compiled a Preliminary Legal Analysis of Country Reports on Cases of Collaborative Economy (2018). In 2018, after undertaking an analysis of the previous reports' strengths and weaknesses, the book editors issued a call for an updated version of these country reports. Prof. Ann Light advised the editorial team, proposing a new format for country reports and 4000 words limit. The template included: Introduction,

Definition, Key Questions, Examples, Illustration, Context, Developments, Issues, Other Major Players, and Relevant Literature. The new template was approved by the Management Committee in October 2018. The task force that had supported the production of the first series of country reports (Dimitar Trajanov, Maria del Mar Alonso, Bálint Balázs, Kosjenka Dumančić, and Gabriela Avram) acted as mentors for the team of authors in each country. The final reports arrived at the end of 2018, bringing the total number of submissions to 30 (twenty-nine European countries plus Georgia). A call for book editors was issued, and a new editorial team was formed by volunteers from the participants of the COST Action: Andrzej Klimczuk, Vida Česnuityte, Cristina Miguel, Santa Mijalche, Gabriela Avram, Bori Simonovits, Bálint Balázs, Kostas Stefanidis, and Rafael Laurenti. The editorial team organized the double-blind reviews of reports and communicated to the authors the requirements for improving their texts. After reviews, the authors submitted updated versions of their country reports providing up-to-date interdisciplinary analysis on the state of the CE in 2019, when the reports were collected. During the final phase, the chapters were again reviewed by the lead editors together with all editorial team members. At the time, the intention was to update these reports again just before the end of the COST Action Sharing and Caring in 2021 and to produce a third edition. However, the COVID-19 pandemic changed these plans. Thus, this final volume was created by 82 scholars-editors and contributors-and consists of reports on 27 countries participating in the COST Action.
