**Chris Claremont**

X-Men Kristine Kathryn Rusch, Dean Wesley Smith, 2003-03-04 A novelization of the major motion picture! Outcasts from society, the X-MEN are genetic mutants, born with superhuman powers, who harness their special abilities for the greater good. But the human race they fight to protect rejects and fears—even hates—they. Not all mutants seek to protect mankind. One terrorist group—led by the supremely powerful Magneto—seeks to strike first. Battling against prejudice and agents of intolerance, the X-MEN must establish a peaceful coexistence between mutant and mankind or they will surely perish . . .

*Ultimate X-Men Vol. 1* Mark Millar, 2020 Humanity now faces mutants, a mysterious sub-species that is gifted with strange and frightening powers. Hidden among the population, they are feared and hated by their human cousins. As rumors and urban myths about their existence spread across the world, the US government creates its own initiative to deal with this threat: the Sentinel Project. Meanwhile two men wage a secret war for the hearts and minds of young mutants everywhere. Charles Xavier has recruited a cadre of students including Cyclops, Jean Grey and Beast, that call themselves the X-Men. But there are others out there, living in fear, struggling to deal with what they are: Ororo Munroe, Bobby Drake and another, more dangerous mutant named Logan. Simultaneously, the terrorist known only as Magneto has assembled The Brotherhood, a militant group dedicated to the overthrow of human authority. A war is on the horizon and these amazing young men and women will decide the future of all humanity! Collects *Ultimate X-Men* (2000) #1-6.

*X-Men* Michael Mallory, 2008 Among the most popular and distinctive superhero characters of all time, Marvel Comics's X-Men have transcended the illustrated page to become an enduring part of the collective consciousness. The multicultural mutants battle not only diabolically evil villains, but also societal evils like bigotry and prejudice. *X-Men: The Characters and Their Universe* tells the complete story of this unique band of comic book heroes from their creation in 1963 by the dream team of writer Stan Lee and artist Jack Kirby, through their reemergence in the 1970s as a platform for political and social commentary, up to the present, as one of the world's hottest franchises. Lavishly illustrated, this gorgeous large-format book also serves as an encyclopedic reference for the entire franchise, chronicling all of the characters, film and television adaptations, character relationships and evolutions, and classic storylines that form this complex and fascinating subculture.

**X-men 2** Chris Claremont, 2003 The novelization of X2 \* Simmering tensions explode with a vengeance in this action-packed adventure. They live among us, each possessing special superhuman abilities--sometimes a blessing, sometimes a curse. Mutants. Since the discovery of their existence, they have been regarded with fear, suspicion, and often hatred. Across the planet, the debate rages: Are mutants the next link in the evolutionary chain or simply a new species of humanity, fighting for their share of the world? Either way, one fact remains: Sharing the world has never been humanity's defining trait. There are two sects of mutants: One aims to coexist peacefully with a world that despises them; the other group strikes at intolerance with a relentless, often murderous force. But now there is a new insidious enemy, and no one will be safe. . . .

*Previously on X-Men* Eric Lewald, 2017-11 In late 1992, on small budgets and under tight schedules, the cast and crew of *X-Men: The Animated Series* crafted a television show that, despite an industry full of naysayers, immediately shot to #1. This kids' show often landed more than half the TV viewers across America, and a twenty-year gold rush of Marvel motion pictures and TV series followed. *Previously on X-Men* is Eric Lewald's personal, inside account of how the series got on the air, the many challenges that were overcome,

and how the show prevailed. The head writer interviewed 36 of the artists, writers, voice cast, and executives who helped make this game-changing series a worldwide success. This book is an authoritative look into the creation of the animated series that nobody expected to succeed. Lewald offers a unique behind-the-scenes look at the Saturday-morning cartoon series that changed Hollywood-- Back cover.

**X-Men(tm) The Last Stand** Chris Claremont, 2006-05-16 A novelization of the major motion picture! TAKE A STAND. The world has acquired a lethal new weapon against X-gene mutants, whose superhuman powers separate them--for better, for worse, forever--from ordinary mortals. Now, for the first time, mutants have a choice: retain their godlike abilities, though their powers may isolate and alienate them, or surrender them and become human. The mutant antibody is called a cure, but its invention may trigger a struggle that destroys every living soul on Earth. As Magneto declares all-out war against humanity and its dreaded cure, the U.S. president mobilizes the military. But it is Charles Xavier and the X-Men who truly must brace for the ultimate battle, for they alone are powerful enough to determine the outcome. Lessons of the past are useless in the coming life-and-death conflict, as new players--mutants possessing unprecedented, unearthly skills-- take center stage. With so many joining forces with Magneto's evil Brotherhood, the X-Men will face their ultimate test against an enemy whose forces far outnumber their own. Now, as the world trembles, the Phoenix slowly rises. . .

**X-Men: The Return** Chris Roberson, 2007-04-24 The multi-book publishing programme from Pocket Books and Marvel Comics continues with this original novel featuring some of the world's most famous superheroes - the X-Men.

*X-Men: Enter The Phoenix* Chris Claremont, 1996-01-15 The X-Men are sent to the farthest regions of space to fight a desperate battle aboard an orbital space station. Upon their return, one hero undergoes a startling transformation, threatening the survival of the universe.

*X-Men and the Mutant Metaphor* Joseph J. Darowski, 2014-04-10 Among both fans and the academic community, there is a general assumption that the X-Men franchise is one of the most progressive and inclusive superhero comic books that has been published. However, this study challenges such assumptions, revealing that there is an unfortunate trend throughout the majority of the title's history: Minority characters are most likely to be villains, female characters are most likely to be supporting cast members, and white males are most likely to be members of the X-Men.

Storm, Colossus, Nightcrawler, Rachel Grey and Old Man Logan will renew their mission to protect a world that hates and fears them, as the next chapter in the saga of the X-Men begins! But even as the new team rises out of the ashes of IVX, a new Brotherhood of Evil Mutants isn't far behind. And when their rampage through New York City begins, there will be some surprisingly familiar faces in their ranks! Who has turned their backs on the X-Men...and why?

It all begins with one choice, and the world will never be the same! *INHUMANS VS. Chamber graduates from Generation X just in time to enjoy the (ahem) celebrity status of being an X-Man - but when his whirlwind romance with a pop star hits the tabloids, is Chamber just the flavor of the month? Plus, the X-Men investigate a mutant brothel in Nevada and gain a troubled new member: the seductive Stacy X! But when the bigoted zealots from the Church of Humanity target all mutants for genocide, can the team's two newest members pull their weight? Who's really pulling the strings?

*The Unauthorized X-Men* Len Wein, Leah Wilson, 2006-03-11 These essays show just why these mutants have such astonishing endurance and staying power. Contributors trace the series' evolution, challenge its metaphors and draw from its truths about human nature and society. From real mutant subcultures in our world to the reality of racism and heterosexism that are not so different from that of the X-Men, *The Unauthorized X-Men* takes on the intersection between fiction and truth in a volume perfect for the long-time comic readers, cartoon fans and moviegoers alike.
