**How to Murder Your Life** Cat Marnell,2017-01-31 From the New York Times bestselling author and former beauty editor Cat Marnell, a “vivid, maddening, heartbreaking, very funny, chaotic” (The New York Times) memoir of prescription drug addiction and self-sabotage, set in the glamorous world of fashion magazines and downtown nightclubs. At twenty-six, Cat Marnell was an associate beauty editor at Lucky, one of the top fashion magazines in America—and that’s all most people knew about her. But she hid a secret life. She was a prescription drug addict. She was also a “doctor shopper” who manipulated Upper East Side psychiatrists for pills, pills, and more pills; a lonely bulimic who spent hundreds of dollars a week on binge foods; a promiscuous party girl who danced barefoot on banquets; a weepy and hallucination-prone insomniac who would take anything—anything—to sleep. This is a tale of self-loathing, self-sabotage, and yes, self-tanner. It begins at a posh New England prep school—and with a prescription for the Attention Deficit Disorder medication Ritalin. It continues to New York, where we follow Marnell’s amphetamine-fueled rise from intern to editor through the beauty departments of NYLON, Teen Vogue, Glamour, and Lucky. We see her fight between ambition and addiction and how, inevitably, her disease threatens everything she worked so hard to achieve. From the Condé Nast building to seedy nightclubs, from doctors’ offices and mental hospitals, Marnell “treads a knife edge between glamorizing her own despair and rendering it with savage honesty....with the skill of a pulp novelist” (The New York Times Book Review) what it is like to live in the wild, chaotic, often sinister world of a young female addict who can’t say no. Combining “all the intoxicating intrigue of a thriller and yet all the sobering pathos of a gifted writer’s true-life journey to recover her former health, happiness, ambitions, and identity” (Harper’s Bazaar), How to Murder Your Life is mesmerizing, revelatory, and necessary.

Hundreds of millions of people use Apple products every day; several thousand work on Apple's campus in Cupertino, California; but only a handful sit at the drawing board. Creative Selection recounts the life of one of the few who worked behind the scenes, a highly-respected software engineer who worked in the final years of the Steve Jobs era—the Golden Age of Apple. Ken Kocienda offers an inside look at Apple’s creative process. For fifteen years, he was on the ground floor of the company as a specialist, directly responsible for experimenting with novel user interface concepts and writing powerful, easy-to-use software for products including the iPhone, the iPad, and the Safari web browser. His stories explain the symbiotic relationship between software and product development for those who have never dreamed of programming a computer, and reveal what it was like to work on the cutting edge of technology at one of the world's most admired companies. Kocienda shares moments of struggle and success, crisis and collaboration, illuminating each with lessons learned over his Apple career. He introduces the essential elements of innovation—inspiration, collaboration, craft, diligence, decisiveness, taste, and empathy—and uses these as a lens through which to understand productive work culture. An insider's tale of creativity and innovation at Apple, Creative Selection shows readers how a small group of people developed an evolutionary design model, and how they used this methodology to make groundbreaking and intuitive software which countless millions use every day.
